(d) (1) In this subsection—

Definitions.

(A) "employee of a carrier" includes an individual who—

(i) is furloughed, pensioned, or not on active duty because of advanced age or infirmity that occurred while the individual was employed by that carrier;

(ii) is being transported for purposes of reemployment by that carrier; or

(iii) was killed while employed by a carrier.

(B) "family" refers to the family of an individual named in clause (A) of this paragraph and includes the widow or minor child of an employee who died while employed by a carrier.

(2) A common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of chapter 105 of this title may provide transportation without charge for officers and employees (and their families) of that carrier, another carrier (by exchange of passes or tickets), or a telegraph, telephone, or cable company. A freight forwarder providing service subject to the jurisdiction of the Commission under subchapter IV of that chapter may provide services related to movement of property for those individuals without charge. However, transportation of, or service provided for, household goods must be due to a change in the place of employment of an officer or employee while employed by that carrier.

§ 10723. Charitable purposes

49 USC 10723.

(a) (1) A common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter

Ante, pp. 1359, 1361, 1365.

I, II, or III of chapter 105 of this title may provide transportation without charge for—

(A) an indigent or homeless individual (including an individual transported by a hospital, charitable organization, or municipal government and the necessary agents employed in that transportation);

(B) an individual who is confined to or about to enter or return home after discharge from a—

(i) Veterans' Administration facility;

(ii) State home for disabled volunteer soldiers; or

(iii) soldiers' and sailors' home, under an arrangement with the board of managers of that facility;

(C) a minister of religion; and

(D) an individual who is confined to a hospital or charitable facility.

(2) A common carrier providing transportation or service subject to the jurisdiction of the Commission under chapter 105 of this title may provide transportation for property without charge or at a reduced rate for—

(A) a charitable purpose, including transportation referred to in paragraph (1) of this subsection; or

(B) use in a public exhibition.

(b)(1) A common carrier subject to the jurisdiction of the Commission under subchapter I, II, or III of that chapter may provide transportation without charge to an individual who is—

(A) engaged only in charitable work;

(B) injured in an accident (together with the physicians and nurses attending that individual); or

(C) a traveling secretary of a railroad Young Men's Christian Association.

(2) That carrier may also establish a rate and related rule equal to the rate charged for the transportation of one individual when that rate is for the transportation of—

(A) a totally blind individual and an accompanying guide or a dog trained to guide the individual; or

(B) a disabled individual and accompanying attendant when required because of the disability.

49 USC 10724.

§ 10724. Emergency rates

(a) A common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I, II, or III of chapter 105 of this title may transport passengers without charge to provide relief during general emergencies.

(b)(1) The Commission may authorize a common carrier providing transportation or service subject to its jurisdiction under chapter 105 of this title to give reduced rates for service and transportation of property to or from an area in the United States to provide relief during emergencies. When the Commission takes action under this subsection, it must—

Ante, p. 1358.

(A) define the area of the United States in which the reduced rates will apply;

(B) specify the period during which the reduced rates are to be in effect; and

(C) define the class of persons entitled to the reduced rates.

(2) The Commission may specify those persons entitled to reduced rates by reference to those persons designated as being in need of relief by the United States Government or by a State government authorized

to assist in providing relief during the emergency. The Commission may act under this subsection without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5.

Ante, p. 1345.
5 USC 551.

§ 10725. Special freight forwarder rates

49 USC 10725.

(a) A common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I, II, or III of chapter 105 of this title may establish—

Ante, pp. 1359, 1361, 1365.

(1) assembling rates and related classifications and rules for transportation of less-than-carload or less-than-truckload shipments to a place for further movement as part of a carload or truckload shipment; and

(2) distribution rates and related classifications and rules for transportation of less-than-carload or less-than-truckload shipments moving from a place to which those shipments have moved as a part of a carload or truckload shipment.

(b) A rate and related classification and rule established under subsection (a) of this section applies to freight forwarders and other persons using common carrier transportation under like conditions and may differ from other rates and related classifications and rules that contemporaneously apply to the same common carrier transportation when the difference is justified by a difference in the respective conditions under which that transportation is used. A rate referred to in subsection (a) (1) or (2) of this section may not be established to cover the line-haul transportation between the principal concentration place and the principal break-bulk place.

(c) When establishing a rate, classification, rule, or practice, a motor common carrier providing transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title may consider the type of property tendered to it by a freight forwarder for transportation when the property is in parcels that do not exceed 70 pounds in weight or 100 inches in length and girth combined. The carrier may establish the lowest rate for the transportation that allows it to receive adequate compensation for transporting the property.

§ 10726. Long and short haul transportation

49 USC 10726.

(a)(1) A carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I or III of chapter 105 of this title (except an express carrier) may not charge or receive more compensation for the transportation of property of the same kind or of passengers—

(A) for a shorter distance than for a longer distance over the same line or route in the same direction (the shorter distance being included in the longer distance); or

(B) under a through rate than under the total of the intermediate rates it may charge or receive under this chapter.

This paragraph does not authorize a carrier to charge or receive equal compensation for transportation over a shorter distance than a longer distance.

(2) Notwithstanding paragraph (1) of this subsection, a carrier operating over a circuitous line or route to or from a place in competition with another carrier of the same type that operates over a more direct line or route may establish a rate (otherwise complying with this chapter) for that transportation to meet the rate of the carrier operating over the more direct line or route. A rate established for transportation over a circuitous route under this subsection is not evidence of the compensatory character of rates in other proceedings.

Relief.

(b) In special cases, the Commission may authorize a carrier to charge less for transportation over a longer distance than it charges for transportation over a shorter distance. The Commission may prescribe the extent to which a carrier authorized to charge less under this subsection may be granted relief from subsection (a) of this section. However, the Commission may not authorize a rate—

(1) to or from the more distant place unless it is reasonably compensatory; or

(2) because of potential water competition not actually in existence.

(c) A rail carrier that reduces a rate for the transportation of property in competition with a water route to or from competitive places may increase the rate only if, after a proceeding, the Commission finds that the increase is proposed because of a change in conditions other than the elimination of water competition.

Proceeding.

(d) The Commission shall begin a proceeding under subsection (b) of this section on application of a carrier. A carrier may file a proposed rate with its application, and if the application is approved, the Commission shall allow the rate to become effective one day after the approval becomes effective.

49 USC 10727.

§ 10727. Demand-sensitive rates

Standards and procedures.

(a) The Interstate Commerce Commission shall maintain standards and procedures to permit seasonal, regional, or peak-period demand rates for transportation by rail carrier subject to its jurisdiction under subchapter I of chapter 105 of this title, that—

(1) provide sufficient incentives to shippers, through rescheduling and advance planning, to reduce peak-period shipments;

(2) generate additional revenue for rail carriers;

(3) make better use of the national supply of freight cars;

(4) improve—

(A) the transportation of property by rail carriers;

(B) the level of employment by rail carriers; and

(C) the financial stability of markets served by rail carriers.

Annual report to Congress, legislative recommendations.

(b) The Commission shall submit to Congress an annual report on the implementation of rates under this section and shall include recommendations for additional legislation needed to make it easier to establish those rates.

49 USC 10728.

§ 10728. Separate rates for distinct rail services

(a) A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may, on its own initiative or at the request of a shipper or receiver of property, establish separate rates for distinct rail services to—

(1) encourage competition;

(2) promote increased reinvestment by rail carriers; and

(3) encourage and make easier increased non-railroad investment in the production of rail services.

Expeditious procedures.

(b) The Commission shall maintain expeditious procedures to permit separate rates for distinct rail services to—

(1) encourage those services to be priced in accordance with the cash-outlay incurred by the carrier and the demand for them; and

(2) enable shippers and receivers to evaluate transportation and related rates and alternatives.

§ 10729. Rail carriers; incentive for capital investment 49 USC 10729.

(a) A proposed rate, classification, rule, or practice for transportation by a rail carrier subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title requiring a total capital investment of at least $1,000,000 to implement shall be established and become effective under this section. This section applies whether the investment is made individually or collectively by the carrier or by a shipper, receiver, or agent for any of them, or by a third party. *Ante*, p. 1359.

(b) A rail carrier may file a notice of intent to establish a rate, classification, rule, or practice under subsection (a) of this section with the Commission. The notice must include a sworn affidavit detailing the anticipated capital investment. Unless the Commission after holding a proceeding under subsection (c) of this section, decides by the 180th day after the notice is filed that the proposed rate, classification, rule, or practice would violate this subtitle, the carrier may establish that rate, classification, rule, or practice at any time during the next 180 days, and it may become effective 30 days after it is established. Once a rate, classification, rule, or practice becomes effective under this section, the Commission may not, for 5 years, suspend or set it aside as violating section 10701, 10726, 10741–10744, or 11103 of this title. However, the Commission may order the rate, classification, rule, or practice to be revised to a level equal to the variable costs of providing the transportation when the Commission finds the level then in effect reduces the going concern value of the carrier. Notice of intent, filing.

(c) On request of an interested person, the Commission shall hold a proceeding to investigate and determine whether the rate, classification, rule, or practice proposed to be established under this section complies with this subtitle. The Commission must give reasonable notice to interested parties before beginning a proceeding under this subsection but may act without allowing an interested party to file an answer or other formal pleading. Proceeding. Notice.

§ 10730. Rates and liability based on value 49 USC 10730.

The Interstate Commerce Commission may require or authorize a carrier providing transportation or service subject to its jurisdiction under subchapter I, II, or IV of chapter 105 of this title, to establish rates for transportation of property under which the liability of the carrier for that property is limited to a value established by written declaration of the shipper, or by a written agreement, when that value would be reasonable under the circumstances surrounding the transportation. A rate may be made applicable under this section to livestock only if the livestock is valuable chiefly for breeding, racing, show purposes, or other special uses. A tariff filed with the Commission under subchapter IV of this chapter shall refer specifically to the action of the Commission under this section. *Ante*, pp. 1359, 1361, 1369.

§ 10731. Investigation of discriminatory rail rates for transportation of recyclable or recycled materials 49 USC 10731.

(a) In this section— Definitions.

(1) "recyclable material" means material collected or recovered from waste for a commercial or industrial use whether the collection or recovery follows end usage as a product.

(2) "virgin material" means raw material, including previously unused metal or metal ore, woodpulp or pulpwood, textile fiber or material, or other resource that, through the application

of technology, is or will become a source of raw material for commercial or industrial use.

(b) When appropriate, the Interstate Commerce Commission shall—

(1) investigate the rate structure for the transportation of recyclable or recycled materials and competing virgin material by rail carriers providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title and the manner in which that rate structure has been affected by successive general rate increases approved by the Commission for those carriers;

Ante, p. 1359.

(2) determine whether those rate increases affect any part of the rate structure in violation of section 10701 or 10741 of this title and order the rate found to be in violation of either of those sections removed from the rate structure; and

Proceedings, report to President and Congress.

(3) report to the President and Congress, in each of the annual reports of the Commission for 1978 and 1979, and in other appropriate reports, all proceedings started or completed under this subsection.

Public hearing.

(c) A determination under subsection (b)(2) of this section may be made only after a public hearing. During the hearing, the rail carriers have the burden of proving that rate increases that affect the rate structure applicable to the transportation of those competing materials comply with sections 10701 and 10741 of this title.

Research program, cooperation with Transportation Secretary.

(d) In cooperation with the Commission, the Secretary of Transportation shall maintain a research, development, and demonstration program to develop and improve transport terminal operations, transport service characteristics, transport equipment, and collection and processing methods to facilitate the competitive and efficient transportation of recyclable or recycled materials by rail carriers providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title.

SUBCHAPTER III—LIMITATIONS

49 USC 10741.

§ 10741. Prohibitions against discrimination by common carriers

(a) A common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may not charge or receive from a person a different compensation (by using a special rate, rebate, drawback, or another means) for a service rendered, or to be rendered, in transportation the carrier may perform under this subtitle than it charges or receives from another person for performing a like and contemporaneous service in the transportation of a like kind of traffic under substantially similar circumstances. A common carrier that charges or receives such a different compensation for that service unreasonably discriminates.

Ante, p. 1358.

(b) A common carrier providing transportation or service subject to the jurisdiction of the Commission under chapter 105 of this title may not subject a person, place, port, or type of traffic to unreasonable discrimination. However, subject to subsection (c) of this section, this subsection does not apply to discrimination against the traffic of another carrier providing transportation by any mode.

(c) A common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of that

chapter may not subject a freight forwarder providing service subject to the jurisdiction of the Commission under subchapter IV of that chapter to unreasonable discrimination whether or not the freight forwarder is controlled by that carrier. *Ante*, pp. 1359, 1361, 1365. *Ante*, p. 1369.

(d) Differences between the rates, classifications, rules, and practices of water and rail common carriers in effect for their respective types of transportation do not constitute a violation of this section or an unfair or destructive competitive practice under this subtitle.

§ 10742. Facilities for interchange of traffic 49 USC 10742.

A common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I or III of chapter 105 of this title shall provide reasonable, proper, and equal facilities that are within its power to provide for the interchange of traffic between, and for the receiving, forwarding, and delivering of passengers and property to and from, its respective line and a connecting line of another common carrier under either of those subchapters.

§ 10743. Payment of rates 49 USC 10743.

(a) Except as provided in subsection (b) of this section, a common carrier (except a pipeline or sleeping car carrier) providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under this subtitle shall give up possession at destination of property transported by it only when payment for the transportation or service is made.

(b)(1) Under regulations of the Commission governing the payment for transportation and service and preventing discrimination, those carriers may give up possession at destination of property transported by them before payment for the transportation or service. The regulations of the Commission may provide for weekly or monthly payment for transportation provided by motor common carriers and for periodic payment for transportation provided by water common carriers.

(2) Such a carrier (including a motor common carrier being used by a freight forwarder) may extend credit for transporting property for the United States Government, a State, a territory or possession of the United States, or a political subdivision of any of them.

§ 10744. Liability for payment of rates 49 USC 10744.

(a)(1) Liability for payment of rates for transportation for a shipment of property by a shipper or consignor to a consignee other than the shipper or consignor, is determined under this subsection when the transportation is provided by a rail, motor, or water common carrier under this subtitle. When the shipper or consignor instructs the carrier transporting the property to deliver it to a consignee that is an agent only, not having beneficial title to the property, the consignee is liable for rates billed at the time of delivery for which the consignee is otherwise liable, but not for additional rates that may be found to be due after delivery if the consignee gives written notice to the delivering carrier before delivery of the property—

(A) of the agency and absence of beneficial title; and

(B) of the name and address of the beneficial owner of the property if it is reconsigned or diverted to a place other than the place specified in the original bill of lading.

(2) When the consignee is liable only for rates billed at the time of delivery under paragraph (1) of this subsection, the shipper or consignor, or, if the property is reconsigned or diverted, the beneficial

owner, is liable for those additional rates regardless of the bill of lading or contract under which the property was transported. The beneficial owner is liable for all rates when the property is reconsigned or diverted by an agent but is refused or abandoned at its ultimate destination if the agent gave the carrier in the reconsignment or diversion order a notice of agency and the name and address of the beneficial owner. A consignee giving the carrier, and a reconsignor or diverter giving a rail carrier, erroneous information about the identity of the beneficial owner of the property is liable for the additional rates.

(b) Liability for payment of rates for transportation for a shipment of property by a shipper or consignor, named in the bill of lading as consignee, is determined under this subsection when the transportation is provided by a rail or express carrier under this subtitle. When the shipper or consignor gives written notice, before delivery of the property, to the line-haul carrier that is to make ultimate delivery—

(1) to deliver the property to another party identified by the shipper or consignor as the beneficial owner of the property; and

(2) that delivery is to be made to that party on payment of all applicable transportation rates;

that party is liable for the rates billed at the time of delivery and for additional rates that may be found to be due after delivery if that party does not pay the rates required to be paid under clause (2) of this subsection on delivery. However, if the party gives written notice to the delivering carrier before delivery that the party is not the beneficial owner of the property and gives the carrier the name and address of the beneficial owner, then the party is not liable for those additional rates. A shipper, consignor, or party to whom delivery is made that gives the delivering carrier erroneous information about the identity of the beneficial owner, is liable for the additional rates regardless of the bill of lading or contract under which the property was transported. This subsection does not apply to a prepaid shipment of property.

(c)(1) A rail carrier may bring an action to enforce liability under subsection (a) of this section. That carrier must bring the action during the period provided in section 11706(a) of this title or by the end of the 6th month after final judgment against it in an action against the consignee, or the beneficial owner named by the consignee or agent, under that section.

Post, p. 1452.

(2) A water common carrier may bring an action to enforce liability under subsection (a) of this section. That carrier must bring the action by the end of the 2d year after the claim accrues or by end of the 6th month after final judgment against it in an action against the consignee or beneficial owner named by the consignee by the end of that 2-year period.

(3) A rail or express carrier may bring an action to enforce liability under subsection (b) of this section. That carrier must bring the action during the period provided in section 11706(a) of this title or by the end of the 6th month after final judgment against it in an action against the shipper, consignor, or other party under that section.

49 USC 10745.

§ 10745. Continuous carriage of freight

A carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may not enter a combination or arrangement to prevent the carriage of freight from being continuous from the place of shipment to the place of destination whether by change of time schedule, carriage in different cars, or by other means. The car-

Ante, p. 1359.

riage of freight by those carriers is considered to be a continuous carriage from the place of shipment to the place of destination when a break of bulk, stoppage, or interruption is not made in good faith for a necessary purpose, and with the intent of avoiding or unnecessarily interrupting the continuous carriage or of evading this subtitle.

§ 10746. Transportation of commodities manufactured or produced by a rail carrier 49 USC 10746.

A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may not transport from a State or territory or possession of the United States to another State, territory, or possession or a foreign country, an article or commodity that— *Ante*, p. 1359.

(1) is manufactured, mined, or produced by the carrier or under its authority; or

(2) is owned by the carrier or in which it has an interest.

However, a rail carrier may transport such an article or commodity when it is necessary and intended for use in the business of that carrier. This section does not apply to timber and products manufactured from timber. Timber products, exemption.

§ 10747. Transportation services or facilities furnished by shipper 49 USC 10747.

A carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of this title may publish in a tariff filed with the Commission under subchapter IV of this chapter a charge or allowance for transportation or service for property when the owner of the property, directly or indirectly, furnishes a service related to or an instrumentality used in the transportation or service. The Commission may prescribe the maximum reasonable charge or allowance a carrier subject to its jurisdiction may pay for a service or instrumentality furnished under this section. The Commission may begin a proceeding under this section on its own initiative or on application. *Ante*, p. 1358. *Ante*, p. 1369. Maximum charge or allowance. Proceeding.

§ 10748. Transportation of livestock by rail carrier 49 USC 10748.

(a) Transportation entirely by railroad of ordinary livestock in carload lots to public stockyards shall include necessary services of unloading and reloading in route, delivery of inbound shipments at those stockyards into suitable pens, and receiving and loading outbound shipments at those stockyards. A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may charge a shipper, consignee, or owner an extra amount for those services only if, under Commission regulations, the unloading or reloading in route is at the request of the shipper, consignee, or owner, to try an intermediate market, or to comply with quarantine regulations.

(b) Subsection (a) of this section does not affect the duties and liabilities of a rail carrier in existence on February 28, 1920, under a law related to the transportation of other than ordinary livestock or the duty of providing transportation for shipments other than shipments to or from public stockyards.

§ 10749. Exchange of services and limitation on use of common carriers by freight forwarders 49 USC 10749.

(a) A common carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of this title may contract with a telephone, telegraph, or cable company to exchange services.

(b) A freight forwarder providing service subject to the jurisdiction of the Commission under subchapter IV of chapter 105 of this title may use a carrier, including a carrier referred to in this subsection, to transfer, collect, or deliver in a terminal area. However, to provide other services, a freight forwarder may only use—

Ante, p. 1369.

(1) a rail, express, motor, or water common carrier providing transportation subject to the jurisdiction of the Commission under chapter 105 of this title including—

(A) a motor common carrier providing exempt transportation under section 10525 or 10526(a)(8) of this title; or

Ante, pp. 1363, 1365.

(B) a water common carrier providing exempt transportation under section 10542(a) of this title or transportation between places in Alaska or Hawaii and between those places and other places in the United States;

Ante, p. 1366.

(2) an air carrier subject to the jurisdiction of the Civil Aeronautics Board under chapter 20 of this title; or

49 USC 1301 *et seq.*

(3) the Alaska Railroad.

49 USC 10750.

§ 10750. Demurrage charges

Rules.

A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title shall compute demurrage charges, and establish rules related to those charges, in a way that fulfills the national needs related to—

Ante, p. 1359.

(1) freight car use and distribution; and

(2) maintenance of an adequate supply of freight cars to be available for transportation of property.

SUBCHAPTER IV—TARIFFS AND TRAFFIC

49 USC 10761.

§ 10761. Transportation prohibited without tariff

(a) Except as provided in this subtitle, a carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of this title shall provide that transportation or service only if the rate for the transportation or service is contained in a tariff that is in effect under this subchapter. That carrier may not charge or receive a different compensation for that transportation or service than the rate specified in the tariff whether by returning a part of that rate to a person, giving a person a privilege, allowing the use of a facility that affects the value of that transportation or service, or another device.

Relief.

(b) The Commission may grant relief from subsection (a) of this section to contract carriers when relief is consistent with the public interest and the transportation policy of section 10101 of this title. The Commission may begin a proceeding under this subsection on application of a contract carrier or group of contract carriers and on its own initiative for a water contract carrier or group of water contract carriers.

Ante, p. 1337.

Proceeding.

49 USC 10762.

§ 10762. General tariff requirements

Rates, publication and filing.

(a)(1) A carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of this title (except a motor common carrier) shall publish and file with the Commission tariffs containing the rates and (A) if a common carrier, classifications, rules, and practices related to those rates, and (B) if a contract carrier, rules and practices related to those rates, established under this chapter for transportation or

service it may provide under this subtitle. A motor common carrier shall publish and file with the Commission tariffs containing the rates for transportation it may provide under this subtitle. The Commission may prescribe other information that motor common carriers shall include in their tariffs. A motor contract carrier that serves only one shipper and has provided continuous transportation to that shipper for at least one year may file only its minimum rates unless the Commission finds that filing of actual rates is required in the public interest.

Public inspection.

(2) Carriers that publish tariffs under paragraph (1) of this subsection shall keep them open for public inspection. A rate contained in a tariff filed by a common carrier providing transportation or service subject to the jurisdiction of the Commission under subchapter II, III, or IV of chapter 105 shall be stated in money of the United States. A tariff filed by a motor or water contract carrier or by a freight forwarder providing transportation or service subject to the jurisdiction of the Commission under subchapter II, III, or IV of that chapter, respectively, may not become effective for 30 days after it is filed.

Ante, pp. 1361, 1365, 1369.

(b) (1) The Commission shall prescribe the form and manner of publishing, filing, and keeping tariffs open for public inspection under this section. The Commission may prescribe specific charges to be identified in a tariff published by a common carrier providing transportation or service subject to its jurisdiction under subchapter I, III, or IV of that chapter, but those tariffs must identify plainly—

Charges, identification.

Ante, p. 1359.

(A) the places between which property and passengers will be transported;

(B) terminal, storage, and icing charges (stated separately) if a carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of that chapter;

(C) terminal charges if a common carrier providing transportation or service subject to the jurisdiction of the Commission under subchapter III or IV of that chapter;

(D) privileges given and facilities allowed; and

(E) any rules that change, affect, or determine any part of the published rate.

Joint tariffs, concurrence or acceptance.

(2) A joint tariff filed by a carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of that chapter shall identify the carriers that are parties to it. The carriers that are parties to a joint tariff, other than the carrier filing it, must file a concurrence or acceptance of the tariff with the Commission but are not required to file a copy of the tariff. The Commission may prescribe or approve what constitutes a concurrence or acceptance.

Proposed changes, notice.

(c) (1) When a common carrier providing transportation or service subject to the jurisdiction of the Commission (A) under subchapter I of chapter 105 of this title proposes to change a rate, or (B) under another subchapter of that chapter proposes to change a rate, classification, rule, or practice, the carrier shall publish, file, and keep open for public inspection a notice of the proposed change as required under subsections (a) and (b) of this section.

New or reduced rates, notice.

(2) When a contract carrier providing transportation subject to the jurisdiction of the Commission under subchapter II or III of chapter 105 of this title proposes to establish a new rate or to reduce a rate, directly or by changing a rule or practice related to the rate or the value of service under the rate, the carrier shall publish, file, and keep open for public inspection a notice of the new or reduced rate as required under subsections (a) and (b) of this section.

(3) A notice filed under this subsection shall plainly identify the proposed change or new or reduced rate and indicate its proposed effective date. A proposed change and a new or reduced rate may not become effective for 30 days after the notice is published, filed, and held open as required under subsections (a) and (b) of this section.

(d)(1) The Commission may reduce the 30-day period of subsections (a) and (c) of this section if cause exists. The Commission may change the other requirements of this section if cause exists in particular instances or as they apply to special circumstances.

Tariff simplification, regulations.

(2) The Commission may prescribe regulations for the simplification of tariffs by carriers providing transportation subject to its jurisdiction under subchapter I of chapter 105 of this title and permit them to change rates, classifications, rules, and practices without filing complete tariffs that cover matter that is not being changed when the Commission finds that action to be consistent with the public interest. Those carriers may publish new tariffs that incorporate changes or plainly indicate the proposed changes in the tariffs then in effect and kept open for public inspection. However, the Commission shall require that all rates of rail carriers and rail rate-making associations be incorporated in their individual tariffs by the end of the 2d year after initial publication of the rate, or by the end of the 2d year after a change in a rate becomes effective, whichever is later. The Commission may extend those periods if cause exists, but if it does, it must send a notice of the extension and a statement of the reasons for the extension to Congress. A rate not incorporated in an individual tariff as required by the Commission is void.

Extensions, statement to Congress.

Rejections.

(e) The Commission may reject a tariff submitted to it by a common carrier under this section if that tariff violates this section or regulation of the Commission carrying out this section.

Relief.

(f) The Commission may grant relief from this section to contract carriers when relief is consistent with the public interest and the transportation policy of section 10101 of this title. The Commission may begin a proceeding under this subsection on application of a contract carrier or group of contract carriers and on its own initiative for a water contract carrier or group of water contract carriers.

§ 10763. Designation of certain routes by shippers or Interstate Commerce Commission

(a)(1) When a person delivers property to a rail carrier for transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title, the person may direct the carrier to transport the property over an established through route. When competing rail lines constitute a part of the route, the person shipping the property may designate the lines over which the property will be transported. The designation must be in writing. A carrier may be directed to transport property over a particular through route when—

Ante, p. 1359.

(A) there are at least 2 through routes over which the property could be transported;

(B) a through rate has been established for transportation over each of those through routes; and

(C) the carrier is a party to those routes and rates.

(2) A carrier directed to route property transported under paragraph (1) of this subsection must issue a through bill of lading containing the routing instructions and transport the property according to the instructions. When the property is delivered to a connecting carrier, that carrier must also receive and transport it according to

the routing instructions and deliver it to the next succeeding carrier or consignee according to the instructions.

(b) If no direction is made under subsection (a) of this section, the Commission may designate the route over which the property may be transported after arrival at the end of the route of one carrier or at a junction with the route of another carrier when the property is to be delivered to another carrier for further transportation. The Commission may act under this subsection when the public interest and a fair distribution of traffic require that action.

(c) The Commission may prescribe exceptions to the authority of a person to direct the movement of traffic under subsection (a) of this section. Exceptions.

§ 10764. Arrangements between carriers: copy to be filed with Interstate Commerce Commission 49 USC 10764.

(a)(1) A common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title shall file with the Commission a copy of each arrangement related to transportation affected by this subtitle that the carrier has with another common carrier. The Commission may require other carriers and brokers subject to its jurisdiction under chapter 105 to file a copy of each arrangement related to transportation or service affected by this subtitle that they have with other persons. *Ante*, p. 1359.

(2) When the Commission finds that filing a class of arrangements by a carrier subject to its jurisdiction under subchapter I of that chapter is not necessary in the public interest, the Commission may except the class from paragraph (1) of this subsection. Exception.

(b) The Commission may disclose the existence or contents of an arrangement between a contract carrier and a shipper filed under subsection (a) of this section only if the disclosure is—

(1) limited to those parts of the arrangement that are necessary to indicate the extent of its failure to conform to a tariff then in effect under section 10762 of this title; or

(2) consistent with the public interest and made as a part of the record in a formal proceeding.

§ 10765. Water transportation under arrangements with certain other carriers 49 USC 10765.

(a) The Interstate Commerce Commission may require a common carrier providing transportation or service subject to its jurisdiction under chapter 105 of this title that makes an arrangement with a water carrier (whether or not subject to its jurisdiction under this subtitle) providing transportation from a port in the United States to another country for the through transportation of property from a place in the interior of the United States to another country to make similar arrangements with steamship lines that provide transportation from that port to that country.

(b) A carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title that transports property from a place in the United States through another country to a place in the United States shall publish and keep open for public inspection tariffs as required under section 10762 of this title. The tariffs shall identify the through rate established for that transportation to the United States from another country to which the carrier accepts property for shipment from the United States. Unless the through rates are available for public inspection under that section, Tariffs, publication and public inspection.

the property is subject to customs duties applicable to property produced in another country before the property may be admitted to the United States.

49 USC 10766.

§ 10766. Freight forwarder traffic agreements

(a) A freight forwarder providing service subject to the jurisdiction of the Interstate Commerce Commission under subchapter IV of chapter 105 of this title may agree with another freight forwarder to load traffic jointly between places served under this subtitle. However, the Commission may cancel, suspend, or require changes in the agreement when the Commission finds the agreement is inconsistent with the transportation policy of section 10101 of this title.

Ante, p. 1369.

Ante, p. 1337.

Contract, copy filing.

(b) A freight forwarder providing service subject to the jurisdiction of the Commission under that subchapter may contract with motor common carriers providing transportation subject to the jurisdiction of the Commission under subchapter II of that chapter, to provide transportation for the forwarder. A copy of that contract must be filed with the Commission. The contract may govern use by the freight forwarder of the services and instrumentalities of the motor common carrier and the compensation to be paid for the transportation. However, the parties to a contract must establish reasonable conditions and compensation that are consistent with the transportation policy of section 10101 of this title and do not unreasonably discriminate against a party or another freight forwarder. When a contract under this subsection governs line-haul transportation of property for a total distance of at least 450 highway miles in truckload lots between concentration and break-bulk places, the compensation paid to a motor common carrier under the contract may not be less than the rate for that transportation established under this chapter. When the Commission finds that a contract, or its conditions or compensation, under this subsection is or will be inconsistent with this subsection, the Commission shall prescribe consistent conditions and compensation.

Ante, p. 1361.

Conditions and compensation.

(c) The Commission may begin a proceeding under this section on its own initiative or on complaint.

SUBCHAPTER V—VALUATION OF PROPERTY

49 USC 10781.

§ 10781. Investigation and report by Interstate Commerce Commission

(a) The Interstate Commerce Commission shall investigate, establish, and report the value of all property owned or used by each carrier providing transportation subject to its jurisdiction under subchapter I of chapter 105 of this title, except a street, suburban, or interurban electric rail carrier not operated as a part of a general railroad system of transportation. However, the Commission may investigate, establish, and report the value of property owned or used by such an electric rail carrier when the Commission decides that action is desirable in the public interest. When the Commission makes an investigation required to be made under this section, it must—

Ante, p. 1359.

(1) inventory and list the property of that carrier in detail;

(2) indicate the value established under section 10782 of this title for that property; and

Classifications.

(3) classify the physical property under classifications that conform, as nearly as practicable, to the classification of expenditures prescribed by the Commission for railroads and equipment.

(b) Except as provided in subsection (a) of this section, the Commission may prescribe—

(1) the procedure to be followed when conducting an investigation under this subchapter;

(2) the form in which to submit the results of the valuation; and

(3) the classification of the elements that make up the established value.

The report for each investigation conducted under this subchapter shall indicate the value of the property of each common carrier as a whole and separately identify the value of its property in each State and territory and possession of the United States in which the property is located.

§ 10782. Requirements for establishing value 49 USC 10782.

(a) In carrying out an investigation of a common carrier required under section 10781 of this title, the Interstate Commerce Commission shall—

(1) establish, for each piece of property except land owned or used by the carrier as a common carrier, the original cost to date, cost of reproduction new and cost of reproduction less depreciation, and analyze the methods used to establish those costs and the reasons for differences among them;

(2) establish other values, and elements of value, of that property and analyze the methods used to establish them and the reasons for differences between them and the cost values established under clause (1) of this subsection;

(3) establish separately from improvements, the original cost on the date of dedication to public use, of all lands, rights of way, and terminals owned or used by the carrier as a common carrier and establish their current value;

(4) identify property not held by the carrier as a common carrier, its original cost, and current value and analyze the methods of valuation used;

(5) establish the amount and value of assistance or grant of right of way made to the carrier, or to a previous corporation that operated its property, by the United States Government or by a State, county, or municipal government, or by an individual, association, or corporation and the amount and value of any concession and allowance made by the United States Government or another of those governments in consideration of that assistance; and

(6) identify the grants of land to that carrier, or to a previous corporation that operated its property, by the United States Government, or by a State, county, or municipal government, the amount of money derived from the sale of part of those grants, the value of the unsold parts (established as of the date acquired and currently), and the amount and value of any concession and allowance made by the carrier to the United States Government, or another of those governments, in consideration of that assistance or grant of land.

(b) The Commission may prescribe elements to consider in establishing the cost to date of property owned or used by a carrier. However, in establishing that cost, the Commission shall investigate and include in those elements—

(1) the history and organization of the corporation that currently operates the property and of previous corporations that also operated that property;

(2) increases or decreases of securities during reorganization of that corporation or such a previous corporation;

(3) money received through the issuance of securities by that corporation or such a previous corporation;

(4) syndicating, banking, and other financial arrangements under which those securities were issued and the expenses thereof;

(5) the net and gross earnings of those corporations; and

(6) the expenditure of all money and the purposes of those expenditures in as much detail as the Commission determines to be necessary.

49 USC 10783.

§ 10783. Cooperation and assistance of carriers

(a) Each common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title shall cooperate with and assist the Commission in valuing property under this subchapter. The Commission may order those carriers to—

Ante, p. 1359.

(1) give to the Commission maps, profiles, contracts, engineering reports, and other records to assist it in investigating and establishing the value of that carrier's property; and

(2) assist the Commission in valuing property under this subchapter in other ways, including giving its agents free access to its right-of-way, property, and records on request.

(b) A rail carrier whose property is being valued under this subchapter shall—

(1) transport employees of the United States Government who are making surveys and other examinations of the physical property of that carrier in the course of that valuation when reasonably required by them in the actual discharge of their duties;

(2) transport and store the cars of the United States Government that are used to house and maintain those employees when reasonably required during the valuation; and

(3) transport supplies necessary to maintain those employees and the property of the United States Government actually used on the railroad during the valuation.

Special service, compensation and accounting.

(c) The transportation required to be provided under subsection (b) of this section is considered a special service for which the Commission may prescribe the compensation to be paid. A rail carrier shall give the Commission an accurate accounting of the transportation provided under this section when required by the Commission.

Records inspection.

(d) The Commission shall keep records compiled under this subchapter open for public inspection. However, the Commission may order those records closed to the public but must state its reasons for closing them.

49 USC 10784.

§ 10784. Revision of property valuations

(a) When the Interstate Commerce Commission completes an initial valuation of property under this subchapter, it shall thereafter correct, revise, and supplement that valuation, including previous inventories and classifications, by keeping itself informed of new construction, changes in condition, quantity, use, and classification of

property on which an initial valuation was made and the cost of all improvements to, and changes in investment, in that property. The Commission may keep itself informed of current changes in costs and values of railroad property to carry out this section.

(b) The Commission may order a carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title to give it reports and information needed to carry out this section. Reports. *Ante*, p. 1359.

§ 10785. Finality of valuation: notice, protest, and review 49 USC 10785.

(a) The Interstate Commerce Commission shall notify the carrier, the Attorney General, and the chief executive officer of each State in which property being valued under this subchapter is located, of the completion of a tentative valuation of that property. The Commission may also notify other parties. The notice must be sent by certified mail and must indicate the valuation established for each of that carrier's classes of property. A valuation of property under this subchapter becomes final if a protest is not filed within 30 days after notice of the tentative valuation of that property is given. When the tentative valuation becomes final under this subsection, the effective date is the date of the tentative valuation.

(b) When a carrier files a protest of a tentative valuation, the Commission shall begin a proceeding to consider the protest. If the Commission decides that a tentative valuation should be changed, it may make the necessary changes. The tentative valuation, as changed, becomes final and is effective on the date of the final action of the Commission under this subsection. Proceeding.

(c) The Commission shall publish final valuations and classifications of property established under this subchapter. A final valuation or classification that has become effective under this subchapter is prima facie evidence of the value of the property in a proceeding under this subtitle and in a judicial proceeding to enforce, enjoin, set aside, annul, or suspend an action of the Commission. Publication.

(d) When evidence is introduced at the trial of an action involving a final valuation of property established by the Commission and found by the court to be different from the evidence offered to the Commission during a proceeding under subsection (b) of this section or in addition to that evidence and substantially affecting the valuation, the court shall send a copy of that evidence to the Commission and stay further proceedings in the action. The court may determine the duration of the stay of proceedings. The Commission shall consider the evidence and may change the final valuation established under this subchapter. The Commission shall complete its action and report to the court in the time determined by the court. If the Commission changes the valuation, the court must substitute the valuation as changed for the original valuation and give its judgment on the substituted valuation. If the Commission does not change the original valuation, the court must give judgment on the original valuation. New evidence.

§ 10786. Applicability 49 USC 10786.

In addition to common carriers providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title, this subchapter applies to receivers and operating trustees of those carriers.

§ 10901. Authorizing construction and operation of railroad lines

(a) A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may—

Ante, p. 1359

(1) construct an extension to any of its railroad lines;

(2) construct an additional railroad line;

(3) acquire or operate an extended or additional railroad line; or

(4) provide transportation over, or by means of, an extended or additional railroad line;

only if the Commission finds that the present or future public convenience and necessity require or will be enhanced by the construction or acquisition (or both) and operation of the railroad line.

Application, filing.

(b) A proceeding to grant authority under subsection (a) of this section begins when an application is filed. On receiving the application, the Commission shall—

(1) send a copy of the application to the chief executive officer of each State that would be directly affected by the construction or operation of the railroad line;

Publication in newspaper.

(2) send an accurate and understandable summary of the application to a newspaper of general circulation in each area that would be affected by the construction or operation of the railroad line;

Publication in Federal Register.

(3) have a copy of the summary published in the Federal Register;

(4) take other reasonable and effective steps to publicize the application; and

(5) indicate in each transmission and publication that each interested person is entitled to recommend to the Commission that it approve, deny, or take other action concerning the application.

(c)(1) If the Commission—

(A) finds public convenience and necessity, it may—

(i) approve the application as filed; or

(ii) approve the application with modifications and require compliance with conditions the Commission finds necessary in the public interest; or

(B) fails to find public convenience and necessity, it may deny the application.

(2) On approval, the Commission shall issue to the rail carrier a certificate describing the construction or acquisition (or both) and operation approved by the Commission. Certificate issuance.

§ 10902. Authorizing action to provide adequate, efficient, and safe facilities 49 USC 10902.

The Interstate Commerce Commission may authorize a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title to take action necessary to provide adequate, efficient, and safe facilities to enable the rail carrier to perform its obligations under this subtitle, including extension of any of the carrier's railroad lines after issuance of a certificate under section 10901 of this title. The Commission may authorize a rail carrier to act under this section only if it finds that the expense involved will not impair the ability of the carrier to perform its obligations to the public. The Commission may conduct a proceeding on its own initiative or on application of an interested party. *Ante*, p. 1359. Proceeding.

§ 10903. Authorizing abandonment and discontinuance of railroad lines and rail transportation 49 USC 10903.

(a) A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may—

(1) abandon any part of its railroad lines; or

(2) discontinue the operation of all rail transportation over any part of its railroad lines;

only if the Commission finds that the present or future public convenience and necessity require or permit the abandonment or discontinuance. In making the finding, the Commission shall consider whether the abandonment or discontinuance will have a serious, adverse impact on rural and community development. Adverse impact.

(b)(1) A proceeding to grant authority under subsection (a) of this section begins on application filed with the Commission. Subject to sections 10904–10906 of this title, if the Commission— Proceeding.

(A) finds public convenience and necessity, it shall—

(i) approve the application as filed; or

(ii) approve the application with modifications and require compliance with conditions that the Commission finds are required by public convenience and necessity; or

(B) fails to find public convenience and necessity, it shall deny the application.

Certificate.

(2) On approval, the Commission shall issue to the rail carrier a certificate describing the abandonment or discontinuance approved by the Commission. Each certificate shall also contain provisions to protect the interests of employees. The provisions shall be at least as beneficial to those interests as the provisions established under section 11347 of this title and section 565(b) of title 45.

Post, p. 1439

(c) Except as provided in sections 10905 and 10906 of this title—

(1) if a certificate is issued without an investigation under section 10904(c) of this title, the abandonment or discontinuance may take effect under the certificate on the 30th day after the issuance of the certificate; or

(2) if a certificate is issued after an investigation under section 10904(c) of this title, the abandonment or discontinuance may take effect under the certificate on the 120th day after the issuance of the certificate.

49 USC 10904.

§ 10904. Filing and procedure for applications to abandon or discontinue

(a)(1) An application for a certificate of abandonment or discontinuance under section 10903 of this title, and a notice of intent to abandon or discontinue, must be filed with the Interstate Commerce Commission at least 60 days before the day on which the abandonment or discontinuance is to become effective.

(2) When a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title files an application and notice of intent, the notice shall include—

(A) an accurate and understandable summary of the rail carrier's application and the reasons for the proposed abandonment or discontinuance; and

(B) a statement indicating that each interested person is entitled to recommend to the Commission that it approve, deny, or take other action concerning the application.

(3) The rail carrier shall—

(A) send by certified mail a copy of the notice of intent to the chief executive officer of each State that would be directly affected by the proposed abandonment or discontinuance;

(B) post a copy of the notice in each terminal and station on each portion of a railroad line proposed to be abandoned or over which all transportation is to be discontinued;

(C) publish a copy of the notice for 3 consecutive weeks in a newspaper of general circulation in each county in which each such portion is located;

(D) mail a copy of the notice, to the extent practicable, to all shippers that have made significant use (as designated by the Commission) of the railroad line during the 12 months preceding the filing of the application; and

(E) attach to the notice filed with the Commission an affidavit certifying the manner in which clauses (A)–(D) of this paragraph have been satisfied.

(b) The burden is on the person applying for the certificate to prove that the present or future public convenience and necessity require or permit the abandonment or discontinuance.

(c)(1) During the period between the date the application is filed through the day immediately before the date proposed in the application that the abandonment or discontinuance become effective, the Commission shall, on petition, and may, on its own initiative, begin

an investigation to assist it in determining what disposition to make of the application. The order to conduct the investigation must be served on any affected rail carrier not later than the 5th day before the proposed effective date of the abandonment or discontinuance. An investigation may include public hearings at any location reasonably adjacent to the railroad line involved in the abandonment or discontinuance. The hearing may be held on the request of an interested party or on the initiative of the Commission.

(2) If an investigation is not conducted, the Commission shall act under section 10903(b) of this title by the last day of the period referred to in paragraph (1) of this subsection. If an investigation is to be conducted, the Commission shall postpone the proposed effective date of any part of the abandonment or discontinuance. The postponement shall be for a reasonable period of time necessary to complete the investigation.

(d)(1) In this subsection, "potentially subject to abandonment" has the meaning given the term in regulations of the Commission. The regulations may include standards that vary by region of the United States and by railroad or group of railroads. "Potentially subject to abandonment."

(2) Each rail carrier shall maintain a complete diagram of the transportation system operated, directly or indirectly, by the carrier. The carrier shall submit to the Commission and publish amendments to its diagram that are necessary to maintain the accuracy of the diagram. The diagram shall—

(A) include a detailed description of each of its railroad lines potentially subject to abandonment; and

(B) identify each railroad line for which the carrier plans to file an application for a certificate under subsection (a) of this section.

(3) If an application for a certificate is opposed by—

(A) a shipper or other person that has made significant use (as determined by the Commission) of the railroad line involved in the proposed abandonment or discontinuance during the 12-month period before the filing of the application for a certificate; or

(B) a State or political subdivision of a State in which any part of the railroad line is located;

the Commission may issue a certificate under section 10903 of this title only if the railroad line has been described and identified in the diagram or amendment to the diagram of the rail carrier that was submitted to the Commission at least 4 months before the date on which the application was filed.

§ 10905. Offers of financial assistance to avoid abandonment and discontinuance 49 USC 10905.

(a) In this section—

(1) "avoidable cost" means all expenses that would be incurred by a rail carrier in providing transportation that would not be incurred if the railroad line over which the transportation was provided were abandoned or if the transportation were discontinued. Expenses include cash inflows foregone and cash outflows incurred by the rail carrier as a result of not abandoning or discontinuing the transportation. Cash inflows foregone and cash outflows incurred include— "Avoidable cost."

(A) working capital and required capital expenditure;

(B) expenditures to eliminate deferred maintenance;

(C) the current cost of freight cars, locomotives, and other equipment; and

(D) the foregone tax benefits from not retiring properties from rail service and other effects of applicable Federal and State income taxes.

"Reasonable return."

(2) "reasonable return" means—

(A) if a rail carrier is not in reorganization, the cost of capital to the rail carrier, as determined by the Interstate Commerce Commission; and

(B) if a rail carrier is in reorganization, the mean cost of capital of rail carriers not in reorganization, as determined by the Commission.

Publication in Federal Register.

(b) When the Commission finds under section 10903 of this title that the present or future public convenience and necessity require or permit abandonment or discontinuance, it shall publish the finding in the Federal Register. If, within 30 days after the publication, the Commission finds that—

(1) a financially responsible person (including a governmental authority) has offered financial assistance to enable the rail transportation to be continued over that part of the railroad line to be abandoned or over which all rail transportation is to be discontinued; and

(2) it is likely that the assistance would be equal to—

(A) the difference between the revenues attributable to that part of the railroad line and the avoidable cost of providing rail freight transportation on the line, plus a reasonable return on the value of the line; or

(B) the acquisition cost of that part of the railroad line;

the Commission shall postpone the issuance of a certificate authorizing abandonment or discontinuance for a reasonable time, not to exceed 6 months, to enable the person or governmental authority to enter into an agreement with the rail carrier to provide the assistance or to buy that part of the railroad line and to continue to provide rail transportation over the line. Thereafter, the Commission shall determine the extent to which the avoidable cost of providing rail transportation plus a reasonable return on the rail properties involved exceed the revenues attributable to the railroad line or the rail transportation proposed to be abandoned or discontinued. On notice to the Commission that such an agreement has been executed, the Commission shall further postpone the issuance of the certificate as long as the agreement, or an extension or modification of the agreement, is in effect.

(c) The rail carrier shall provide promptly to a party considering offering financial assistance under subsection (b) of this section—

(1) its most recent reports on the physical condition of that part of the railroad line involved in the proposed abandonment or discontinuance; and

(2) traffic, revenue, and other data necessary to determine the amount of financial assistance that would be required to continue rail transportation over that part of the railroad line.

49 USC 10906.

§ 10906. Offering abandoned rail properties for sale for public purposes

When the Interstate Commerce Commission finds under section 10903 of this title that the present or future public convenience and necessity require or permit abandonment or discontinuance, the Commission shall find further whether the rail properties that are in-

volved in the proposed abandonment or discontinuance are suitable for use for public purposes, including highways, other forms of mass transportation, conservation, energy production or transmission, or recreation. If the Commission finds that the rail properties proposed to be abandoned are suitable for public purposes, the properties may be sold, leased, exchanged, or otherwise disposed of only under conditions provided in the order of the Commission. The conditions may include a prohibition on any such disposal for a period of not more than 180 days after the effective date of the order, unless the properties have first been offered, on reasonable terms, for sale for public purposes.

§ 10907. Exceptions 49 USC 10907.

(a) Notwithstanding sections 10901 and 10902 and subchapter III of chapter 113 of this title, and without the approval of the Interstate Commerce Commission, a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title may enter into arrangements for the joint ownership or joint use of spur, industrial, team, switching, or side tracks. *Ante*, p. 1359.

(b) The Commission does not have authority under sections 10901–10906 of this title over—

(1) the construction, acquisition, operation, abandonment, or discontinuance of spur, industrial, team, switching, or side tracks if the tracks are located, or intended to be located, entirely in one State; or

(2) a street, suburban, or interurban electric railway that is not operated as part of a general system of rail transportation.

§ 10908. Discontinuing or changing interstate train or ferry transportation subject to State law 49 USC 10908.

(a) When a discontinuance or change in any part of the transportation of a train or ferry operating between a place in a State and a place in another State—

(1) is proposed by a carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title; and

(2) is subject to the law of a State, or to a regulation or order of, or proceeding pending before, a court or other authority of a State;

the carrier, notwithstanding that law, regulation, order, or proceeding, may discontinue or change the transportation—

(A) if it files a notice of the proposed discontinuance or change with the Commission at least 30 days before the discontinuance or change is intended to be effective and carries out the discontinuance or change under that notice;

(B) if it mails a copy of the notice to the chief executive officer of each State in which the train or ferry is operated and posts a copy of the notice at each station, depot, or other facility served by the train or ferry; and

(C) except as otherwise provided by the Commission under this section.

(b) On petition or on its own initiative, the Commission may conduct a proceeding on the proposed discontinuance or change if it begins the proceeding between the date the carrier files the notice under subsection (a) of this section and the date on which the discontinuance or

change is intended to be effective. After the proceeding begins, the Commission may order the carrier proposing the discontinuance or change to continue any part of the transportation pending completion of the proceeding and the decision of the Commission if the Commission serves a copy of its order on the carrier at least 10 days before the date on which the carrier intended the discontinuance or change to be effective. However, the Commission may not order the transportation continued for more than 4 months after the date on which the carrier intended the discontinuance or change to be effective.

(c) If, after a proceeding completed either before or after the proposed discontinuance or change has become effective, the Commission finds that any part of the transportation is required or permitted by present or future public convenience and necessity and will not unreasonably burden interstate or foreign commerce, the Commission may order the carrier to continue or restore that transportation for not to exceed one year from the date of the Commission order. On expiration of the Commission order, the jurisdiction of each State involved in the discontinuance or change is no longer superseded except to the extent this section is again invoked.

49 USC 10909.

§ 10909. Discontinuing or changing train or ferry transportation in one State

(a) When a carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title has proposed a discontinuance or change of any part of the transportation of a train or ferry operated by it entirely in one State and—

Ante, p. 1359.

(1) the law of the State prohibits the discontinuance or change;

(2) the carrier has requested the State authority having jurisdiction over the discontinuance or change for permission to discontinue or change the transportation and the request has been denied; or

(3) the State authority has not acted finally by the 120th day after the carrier made the request;

the carrier may petition the Commission for permission to discontinue or change the transportation.

Notification.

(b) When a petition is filed under subsection (a) of this section, the Commission shall notify the chief executive officer of the State in which the train or ferry is operated concerning the petition. Before acting on the petition, the Commission shall give interested parties a full hearing. If such a hearing is requested, the Commission shall give all interested parties at least 30 days notice of the hearing and shall hold the hearing in the State in which the train or ferry is operated. The Commission may cooperate with, and use the services, records, and facilities of, the State in carrying out this section.

Hearing opportunity.

(c) The Commission may grant permission to the carrier to discontinue or change any part of the transportation if the Commission finds that—

(1) the present or future public convenience and necessity require or permit the discontinuance or change to be authorized by the Commission; and

(2) continuing the transportation, without the proposed discontinuance or change, will constitute an unreasonable burden on the interstate operations of the carrier or on interstate commerce.

SUBCHAPTER II—OTHER CARRIERS AND MOTOR CARRIER BROKERS

§ 10921. Requirement for certificate, permit, or license 49 USC 10921.

Except as provided in this subchapter or another law, a person may provide transportation or service subject to the jurisdiction of the Interstate Commerce Commission under subchapter II, III, or IV of chapter 105 of this title or be a broker for transportation subject to the jurisdiction of the Commission under subchapter II of that chapter, only if the person holds the appropriate certificate, permit, or license issued under this subchapter authorizing the transportation or service.

Ante, pp. 1361, 1365, 1369.

§ 10922. Certificates of motor and water common carriers 49 USC 10922.

(a) Except as provided in this section and section 10930(a) of this title, the Interstate Commerce Commission shall issue a certificate to a person authorizing that person to provide transportation subject to the jurisdiction of the Commission under subchapter II or III of chapter 105 of this title as a motor common carrier or water common carrier, respectively, if the Commission finds that—

(1) the person is fit, willing, and able—

(A) to provide the transportation to be authorized by the certificate; and

(B) to comply with this subtitle and regulations of the Commission; and

(2) the transportation to be provided under the certificate is or will be required by the present or future public convenience and necessity.

(b) A person must file an application with the Commission for a certificate to provide transportation as a motor common carrier or water common carrier. The Commission may approve any part of the application or deny the application. The application must— Applications.

(1) be under oath;

(2) contain information required by Commission regulations; and

(3) be served on persons designated by the Commission.

(c)(1) Subject to section 10927(a) of this title, each certificate issued to a person to provide transportation as a motor common carrier shall specify—

(A) the transportation to be provided by the carrier;

(B) any of the regular routes over which, any of the places between which, and off-route places at which, the carrier may provide transportation; and

(C) if transportation is not over regular routes or between specified places, the area in which the carrier may provide transportation.

(2) Under regulations of the Commission, a motor common carrier may occasionally deviate from the regular routes, or the places specified in the certificate, or both.

(3) If a motor common carrier transports passengers, the Commission may authorize transportation of the passengers only over a regular route and between specified places, except to the extent the carrier is authorized to provide special or charter transportation.

39-194 O—80—pt. 2——9 QL3

(4) A certificate of a motor common carrier to transport passengers may include authority to transport—

(A) newspapers, baggage of passengers, express, or mail in the same motor vehicle with the passengers; and

(B) baggage of passengers in a separate motor vehicle.

(d) Each certificate issued to a person to provide transportation as a water common carrier shall specify each route over which, and each port between which, the carrier may provide transportation.

(e)(1) A motor common carrier may provide transportation under a certificate only if the carrier complies with conditions the Commission finds are required by public convenience and necessity, including conditions—

(A) on extending routes of the carrier; and

(B) to carry out requirements established by the Commission under this subtitle.

(2) The Commission may prescribe necessary conditions under which a water common carrier provides transportation, including conditions on extending routes of the carrier.

(3) The Commission may prescribe conditions when the certificate is issued and at any time thereafter. The Commission may not prescribe a condition preventing—

(A) a motor common carrier or water common carrier from adding to its equipment and facilities or its transportation within the scope of the certificate to satisfy business development and public demand; or

(B) a water common carrier, if the carrier has authority to provide transportation over completed parts of a waterway project authorized under law, from extending its transportation over the uncompleted parts of the project when opened for navigation to satisfy business development and public demand.

(f) A certificate issued under this section does not confer a proprietary or exclusive right to use the public highways or public waterways.

49 USC 10923.

§ 10923. Permits of motor and water contract carriers and freight forwarders

(a) Except as provided in this section and section 10930 of this title, the Interstate Commerce Commission shall issue a permit to a person authorizing the person to provide transportation subject to the jurisdiction of the Commission under subchapter II or III of chapter 105 of this title as a motor contract carrier or water contract carrier, respectively, or to provide service subject to that jurisdiction under subchapter IV of chapter 105 as a freight forwarder, if the Commission finds that—

Ante, pp. 1361, 1365.

Ante, p. 1369.

(1) the person is fit, willing, and able—

(A) to provide the transportation or service to be authorized by the permit; and

(B) to comply with this subtitle and regulations of the Commission; and

(2) the transportation or service to be provided under the permit is or will be consistent with the public interest and the transportation policy of section 10101 of this title.

Ante, p. 1337.

Applications.

(b)(1) A person must file an application with the Commission for a permit to provide transportation as a contract carrier or to provide service as a freight forwarder. The Commission may approve any part of the application or deny the application. The application must—

(A) be under oath;

(B) contain information required by Commission regulations; and

(C) be served on persons designated by the Commission.

(2) In deciding whether to approve the application of a person for a permit as a motor contract carrier, the Commission shall consider—

(A) the number of shippers to be served by the carrier;

(B) the nature of the transportation proposed to be provided;

(C) the effect that granting the permit would have on the transportation of carriers protesting the granting of the permit; and

(D) the effect that denying the permit would have on the person applying for the permit, its shippers, or both, and the changing character of the requirements of those shippers.

(3) The Commission may not deny any part of an application for a freight forwarder permit filed by a corporation controlled by, or under common control with—

(A) a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of chapter 105 of this title, because of the relationship between the corporation and that carrier; and

Ante, pp. 1359, 1361, 1365.

(B) a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 only because the service to be provided by the corporation will compete with service provided by another freight forwarder subject to subchapter IV of that chapter.

Ante, p. 1369.

(c) Each permit issued to a person—

(1) to provide transportation as a motor contract carrier is subject to section 10927(a) of this title and shall specify the transportation to be provided by the carrier;

(2) to provide transportation as a water contract carrier shall specify the transportation to be provided by the carrier; and

(3) to provide service as a freight forwarder shall specify the nature or general description about which the service is to be provided, the area in which, and the areas between which, the service may be provided by the freight forwarder.

(d)(1) The Commission may prescribe necessary conditions under which a contract carrier or freight forwarder provides transportation or service. The Commission may prescribe the conditions when the permit is issued and at any time thereafter.

(2) The permit for a motor contract carrier shall specify necessary conditions, including each person or number or class of persons for which the carrier may provide transportation—

(A) to ensure that the carrier provides transportation as a motor contract carrier and within the scope of the permit; and

(B) to carry out requirements established by the Commission under this subtitle.

(3) Subject to the permit and its conditions, a motor contract carrier may substitute or add to its equipment and facilities as requests for its transportation develop. The Commission may not prescribe a condition preventing—

(A) a water contract carrier from substituting or adding contracts within the scope of the permit to satisfy the requirements of business development and public demand; and

(B) a water contract carrier or freight forwarder from adding to its equipment and facilities, and transportation or service, as

the case may be, within the scope of the permit to satisfy the requirements of business development and public demand.

49 USC 10924.

§ 10924. Licenses of motor carrier brokers

(a) The Interstate Commerce Commission shall issue, subject to section 10927(b) of this title, a license to a person authorizing the person to be a broker for transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title, if the Commission finds that—

Ante, p. 1361.

(1) the person is fit, willing, and able—

(A) to be a broker for transportation to be authorized by the license; and

(B) to comply with this subtitle and regulations of the Commission; and

(2) the transportation for which the person is to be a broker will be consistent with the public interest and the transportation policy of section 10101 of this title.

Ante, p. 1337.

(b)(1) The broker may provide the transportation itself only if the broker also has been issued a certificate or permit to provide the transportation under this subchapter. A broker may use only the transportation of a motor carrier holding a certificate or permit issued under this subchapter.

(2) This subsection does not apply to a motor carrier having a certificate or permit issued under this subchapter or to an employee or agent of the motor carrier to the extent the transportation is to be provided entirely by the motor carrier, with other motor carriers holding certificates or permits, or with rail, express, or water common carriers.

(c) A person must file an application with the Commission for a license to be a broker for motor carrier transportation. The Commission may approve the application or any part of it, or deny the application.

(d) Commission regulations shall provide for the protection of travelers and shippers by motor vehicle, to be observed by brokers.

49 USC 10925.

§ 10925. Effective periods of certificates, permits, and licenses

(a) Each certificate, permit, and license issued under section 10922, 10923, or 10924 of this title is effective from the date specified in it and remains in effect except as otherwise provided in this section.

(b) On application of the holder of a certificate, permit, or license, the Interstate Commerce Commission may amend or revoke any part of the certificate, permit, or license. On complaint or on its own initiative and after notice and an opportunity for a proceeding, the Commission may suspend, amend, or revoke any part of a certificate, permit, or license—

(1) if a motor carrier, broker, or freight forwarder, for willful failure to comply with this subtitle, a regulation or order of the Commission, or a condition of its certificate, permit, or license; and

(2) if a water carrier, for willful failure to comply with section 10701(a) or 11101(a) of this title, a regulation or order of the Commission, or a condition of its certificate or permit.

Ante, p. 1371.

(c)(1) Except on application of the holder, the Commission may revoke a certificate or permit of a motor carrier or freight forwarder, or a license of a broker, only after the Commission has issued an order to the holder under section 11701 of this title requiring compliance with this subtitle, a regulation of the Commission, or a condition of the

Post, p. 1449.

certificate, permit, or license of the holder, and the holder willfully does not comply with the order.

(2) Except on application of the holder, the Commission may suspend, amend, or revoke a certificate or permit of a water carrier only after the Commission has issued an order to the holder under section 11701 of this title requiring compliance with section 10701(a) or 11101(a) of this title, and the holder willfully does not comply with the order. *Post*, p. 1449. *Ante*, p. 1371.

(3) The Commission may act under paragraph (1) or (2) of this subsection only after giving the holder of the certificate, permit, or license at least 30 days to comply with the order.

(d)(1) Without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5, the Commission may suspend a certificate of a motor carrier, a permit of a freight forwarder, or a license of a broker— *Ante*, p. 1345. 5 USC 551.

(A) if a motor carrier or broker, for failure to comply with section 10701, 10702, 10761, 10762, 10924(d), or 10927 (b) or (d) of this title, or an order or regulation of the Commission prescribed under those sections; and *Ante*, pp. 1371, 1372, 1394.

(B) if a freight forwarder, for failure to comply with section 10762 or 10927 (c) or (d) of this title, or an order or regulation of the Commission prescribed under those sections.

(2) The Commission may suspend the certificate, permit, or license only after it gives notice of the suspension to the holder at least 15 days before the date the suspension is to begin. The suspension remains in effect until the holder complies with those applicable sections.

§ 10926. Transfers of certificates and permits

49 USC 10926.

Except as provided in this subtitle, a certificate or permit issued under section 10922 or 10923 of this title—

(1) if a certificate or permit of a motor carrier, may be transferred under regulations of the Interstate Commerce Commission;

(2) if a certificate or permit of a water carrier, may be transferred under regulations prescribed by the Commission to protect the public interest and to ensure compliance with this subtitle; and

(3) if a permit of a freight forwarder, may be transferred under regulations prescribed by the Commission to ensure compliance with this subtitle, if the Commission finds that the person to whom the permit is to be transferred satisfies section 10923 (a) and (b) of this title. However, if the proposed transfer would affect the interests of employees of a freight forwarder, the Commission shall require a fair and equitable arrangement to protect the interests of those employees before the transfer is effective.

§ 10927. Security of motor carriers, brokers, and freight forwarders

49 USC 10927.

(a)(1) The Interstate Commerce Commission may issue a certificate or permit to a motor carrier under section 10922 or 10923 of this title only if the carrier files with the Commission a bond, insurance policy, or other type of security approved by the Commission. The security must be sufficient to pay, not more than the amount of the security, for each final judgment against the carrier for bodily injury to, or death of, an individual resulting from the negligent operation, maintenance, or use of motor vehicles under the certificate or permit, or for loss or damage to property (except property referred to in

paragraph (3) of this subsection), or both. A certificate or permit remains in effect only as long as the carrier satisfies the requirements of this paragraph.

(2) A motor carrier operating in the United States when providing transportation between places in a foreign country or between a place in one foreign country and a place in another foreign country shall comply with the requirements of sections 10329 and 10330 that apply to a motor carrier providing transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title. To protect the public, the Commission may require any such motor carrier to file the type of security that a motor carrier is required to file under paragraph (1) of this subsection.

Ante, pp. 1351, 1352.

(3) The Commission may require a motor common carrier providing transportation under a certificate to file with the Commission a type of security sufficient to pay a shipper or consignee for damage to property of the shipper or consignee placed in the possession of the motor common carrier as the result of transportation provided under this subtitle. A carrier required by law to pay a shipper or consignee for loss, damage, or default for which a connecting motor common carrier is responsible is subrogated, to the extent of the amount paid, to the rights of the shipper or consignee under any such security.

(b) The Commission may issue a broker's license to a person under section 10924 of this title only if the person files with the Commission a bond, insurance policy, or other type of security approved by the Commission to ensure that the transportation for which a broker arranges is provided. The license remains in effect only as long as the broker complies with this subsection.

(c)(1) The Commission may require a freight forwarder providing service under a permit issued under section 10923 of this title to file with the Commission a bond, insurance policy, or other type of security approved by the Commission. The security must be sufficient to pay, not more than the amount of the security, for each final judgment against the freight forwarder for bodily injury to, or death of, an individual, or loss of, or damage to, property (other than property referred to in paragraph (2) of this subsection), resulting from the negligent operation, maintenance, or use of motor vehicles by or under the direction and control of the freight forwarder when providing transfer, collection, or delivery service under this subtitle.

(2) The Commission may require a freight forwarder providing service under a permit to file with the Commission a bond, insurance policy, or other type of security approved by the Commission sufficient to pay, not more than the amount of the security, for loss of, or damage to, property for which the freight forwarder provides service under this subtitle.

(d) The Commission may determine the type and amount of security filed with it under this section.

49 USC 10928.

§ 10928. Temporary authority for motor and water carriers

5 USC 551.

Without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5, the Interstate Commerce Commission may grant a motor carrier or water carrier temporary authority to provide transportation to a place or in an area having, respectively, no motor carrier or water carrier capable of meeting the immediate needs of the place or area. Unless suspended or revoked, the Commission may grant the temporary authority for not more than 180 days. A grant of temporary authority does not establish a pre-

sumption that permanent authority to provide transportation will be granted under this subchapter.

§ 10929. Temporary authority for previously exempt water transportation 49 USC 10929.

When transportation exempt from the jurisdiction of the Interstate Commerce Commission under section 10544(a)–(c) of this title becomes subject to the jurisdiction of the Commission, the water carrier may continue to provide the transportation without a certificate or permit issued under this subchapter for a period of 120 days beginning on the day the transportation becomes subject to the jurisdiction of the Commission. If the carrier applies to the Commission within that period for a certificate or permit to provide the transportation previously exempt, the Commission shall issue to the carrier the appropriate certificate or permit authorizing the transportation. The Commission shall issue each such certificate and permit without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5. *Ante*, p. 1368. *Ante*, p. 1345. 5 USC 551.

§ 10930. Limitations on certificates and permits 49 USC 10930.

(a) Except when the Interstate Commerce Commission finds good cause consistent with the public interest and the transportation policy of section 10101 of this title— *Ante*, p. 1337.

(1) a person may not hold both a certificate of a motor common carrier and a permit of a motor contract carrier issued under this subchapter, or both a certificate of a water common carrier and a permit of a water contract carrier issued under this subchapter, to transport property over the same route or in the same area; and

(2) if a person controls, is controlled by, or is under common control with, another person—

(A) one of them may not hold a certificate of a motor common carrier, while the other holds a permit of a motor contract carrier, to transport property over the same route or in the same area; and

(B) one of them may not hold a certificate of a water common carrier, while the other holds a permit of a water contract carrier, to transport property over the same route or in the same area.

(b)(1) A person may not hold a permit of a freight forwarder issued under this subchapter if the person is a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of chapter 105 of this title. *Ante*, pp. 1359, 1361, 1365.

(2) Except for motor vehicle transportation subject to the jurisdiction of the Commission under subchapter IV of chapter 105 of this title by section 10523(a)(2) of this title, a permit may not authorize a freight forwarder to conduct direct rail, water, or motor carrier transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of that chapter. *Ante*, p. 1369. *Ante*, p. 1362.

(3) Except when the Commission finds that service to be provided as a freight forwarder is consistent with the public interest and the transportation policy of section 10101 of this title, a person may not hold a permit of a freight forwarder when—

(A) the principal business of the person is manufacturing and selling, or buying and selling, or both manufacturing and selling and buying and selling articles or commodities, and the service

of a freight forwarder (or similar assembling, consolidating, and shipping service is provided by the person for its own business) is commonly used to transport the articles or commodities; or

(B) the person controls, is controlled by, or is under common control with, a person referred to in clause (A) of this paragraph.

49 USC 10931.

§ 10931. Motor common carriers providing transportation entirely in one State

(a) A motor common carrier may provide transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter II of chapter 105 of this title without a certificate issued by the Commission under section 10922 of this title, when—

Ante, p. 1361.

(1) the carrier provides transportation entirely in one State;

(2) the carrier is not controlled by, controlling, or under common control with a carrier providing transportation outside the State;

(3) the carrier has applied for, and has been issued, a certificate of public convenience and necessity by the State authority having jurisdiction to issue such a certificate, permitting the carrier to provide intrastate transportation by motor vehicle; and

(4) the intrastate certificate was issued after, and the certificate states that—

Publication in Federal Register.

(A) notice was given to interested parties through publication in the Federal Register of the filing of the application by the carrier and the desire of the carrier to provide transportation otherwise under the jurisdiction of the Commission within the limits of the certificate issued by the State authority;

(B) reasonable opportunity to be heard was given; and

(C) the State authority considered and found that the public convenience and necessity require that the carrier be permitted to provide transportation under the jurisdiction of the Commission within limits that do not exceed the scope of the certificate issued by the State authority.

Petitions.

(b) An interested party that opposed issuing the certificate to a motor common carrier in a proceeding before a State authority may petition the Commission for reconsideration of a decision of the State authority. On reconsideration, the Commission, based on the record before the State authority, may affirm, reverse, or change that decision, but only with respect to the transportation subject to Commission jurisdiction.

(c) The Commission may require, before a motor common carrier provides transportation authorized under this section, that—

(1) a certified copy of the carrier's intrastate certificate and other appropriate information be filed with the Commission; and

(2) the carrier comply with applicable requirements established by the Commission.

Certificates of registration.

(d)(1) The Commission shall issue a certificate of registration to a motor common carrier authorizing the carrier to provide transportation under this section. The authority granted under the certificate is subject to all other applicable provisions of this subtitle. Except as otherwise provided in this subsection and subchapter III of chapter 113 of this title, the certificate of registration may be transferred if it is transferred with the intrastate certificate. Transfer of the intrastate certificate without the certificate of registration revokes the certificate of registration.

(2) The certificate of registration issued by the Commission is valid as long as the motor common carrier provides transportation entirely in the State from which it received its intrastate certificate and is not controlled by, controlling, or under common control with, a carrier providing transportation outside the State.

(e)(1) On the 180th day after the termination, restriction in scope, or suspension of the intrastate certificate, the authority granted under this section to provide transportation is revoked or likewise restricted unless the intrastate certificate is renewed or reissued or the restriction is removed by that 180th day.

(2) Transportation authorized under this section may be suspended or revoked by the Commission under section 10925 of this title.

§ 10932. Motor carrier savings provisions 49 USC 10932.

(a) Except as specifically provided in a certificate or permit, the holder of a motor carrier certificate or permit issued as the result of an application filed before September 2, 1950, authorizing the carrier to provide transportation in the United States or between the United States and a foreign country (to the extent the transportation is in the United States), may provide the transportation between a place in the United States and a place in a territory or possession of the United States—

(1) without being authorized to do so by the Interstate Commerce Commission; and

(2) to the same extent and subject to the same conditions of the certificate or permit of the carrier.

(b)(1) A motor common carrier providing transportation under an intrastate certificate issued by a State and under a certificate of registration issued by the Commission under section 206(a)(7) of the Interstate Commerce Act (76 Stat. 912) that has been in effect since October 15, 1962, may continue to provide transportation otherwise subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title— *Post*, p. 1466. *Ante*, p. 1361.

(A) if the certificate of the State authorizing intrastate transportation is limited to a specified period of time, only for that period;

(B) subject to all other applicable provisions of this subtitle;

(C) as long as the carrier provides transportation only in the State issuing the intrastate certificate; and

(D) as long as the carrier is not controlled by, controlling, or under common control with, a carrier providing transportation outside the State.

(2) Except as provided in subchapter III of chapter 113 of this title, the certificate of registration issued by the Commission may be transferred if it is transferred with the intrastate certificate. Transfer of the intrastate certificate without the certificate of registration revokes the certificate of registration.

(3) On the 180th day after the termination, restriction in scope, or suspension of the intrastate certificate, the authority granted under the certificate of registration is revoked or likewise restricted unless the intrastate certificate is renewed or reissued or the restriction is removed by that 180th day. The certificate of registration may be suspended or revoked by the Commission under section 10925 of this title.

(c) Under regulations of the Commission, a motor common carrier transporting passengers under a certificate issued by the Commission

as the result of an application filed before January 2, 1967, or under a reissuance of the operating authority provided in the certificate, may provide transportation to any place subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title for special and chartered parties.

(d) The Commission may not prescribe a condition for a motor contract carrier permit issued before August 23, 1957, that restricts the authority of the carrier—

(1) to substitute similar contracts within the scope of the permit; or

(2) to add contracts within the scope of the permit, unless the Commission, on its own initiative or on petition of an interested carrier, finds that the scope of the transportation to be provided by the motor contract carrier under any such additional contract is not confined to transportation provided by a motor contract carrier as defined after August 21, 1957.

49 USC 10933.

§ 10933. Authorizing abandonment of freight forwarder service

When a freight forwarder is controlled by, or under common control with, a common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I, II, or III of chapter 105 of this title, the freight forwarder may abandon any part of the service it provides subject to the jurisdiction of the Commission under subchapter IV of chapter 105, only if the Commission finds the abandonment is consistent with the public interest and the transportation policy of section 10101 of this title. On making the finding, the Commission shall issue to the freight forwarder a certificate describing the abandonment authorized by the Commission.

Ante, pp. 1361, 1369.

(c) The Commission may not regulate the duration of, or the amount of compensation payable under, an arrangement between a motor carrier and another party to use, with a driver, a motor vehicle not owned by that carrier to transport property when—

(1) the motor vehicle—

(A) to be used is that of a farmer or a cooperative association or a federation of cooperative associations under section 10526(a) (4) or (5) of this title or a motor private carrier;

Ante, p. 1364.

(B) is used regularly in the transportation of (i) property referred to in section 10526(a) (6) of this title, or (ii) perishable products manufactured from perishable property referred to in that section; and

(C) is to be used by the carrier in a single movement or in one or more of a series of movements, loaded or empty, in the general direction of the general area where the motor vehicle is based; or

(2) the motor vehicle to be used has completed a movement exempt under section 10526(a) (6) of this title and is next to be used by that carrier in a loaded movement in any direction or in a movement referred to in clause (1) (C) of this subsection, or both.

§ 11102. Classification of carriers

49 USC 11102.

The Interstate Commerce Commission may classify and maintain requirements for groups of carriers included in the terms "motor common carrier", "water common carrier", "motor contract carrier", or "water contract carrier" and for brokers, when required because of the special nature of the transportation provided by them.

(a) The Interstate Commerce Commission may require terminal facilities, including main-line tracks for a reasonable distance outside of a terminal, owned by a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title, to be used by another rail carrier if the Commission finds that use to be practicable and in the public interest without substantially impairing the ability of the rail carrier owning the facilities or entitled to use the facilities to handle its own business. The carriers are responsible for establishing the conditions and compensation for use of the facilities. However, if the carriers cannot agree, the

Ante, p. 1359.

Commission may establish conditions and compensation for use of the facilities under the principle controlling compensation in condemnation proceedings. The compensation shall be paid or adequately secured before a carrier may begin to use the facilities of another carrier under this section.

(b) A rail carrier whose terminal facilities are required to be used by another carrier under this section is entitled to recover damages from the other carrier for injuries sustained as the result of compliance with the requirement or for compensation for the use, or both, as appropriate, in a civil action, if it is not satisfied with the conditions for use of the facilities or if the amount of the compensation is not paid promptly.

§ 11106. Identification of motor vehicles

§ 11108. Water carriers subject to unreasonable discrimination in foreign transportation 49 USC 11108.

(a) The Interstate Commerce Commission may relieve a water carrier providing transportation subject to the jurisdiction of the Commission under subchapter III of chapter 105 of this title, from the requirements of this subtitle when a rate, rule, or practice established by a person providing water transportation to or from a port in a foreign country in competition with that carrier unreasonably discriminates against that carrier. The Commission may relieve that carrier to the extent and for the period of time necessary to end or ease the discrimination if the relief is in the public interest and consistent with the transportation policy of section 10101 of this title. *Ante*, p. 1365. *Ante*, p. 1337.

(b) The Commission may begin a proceeding under this section on its own initiative or on application. Proceedings.

§ 11121. Criteria 49 USC 11121.

(a) A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title shall furnish safe and adequate car service and establish, observe, and enforce reasonable rules and practices on car service. (3) sanctions for nonobservance.

(b) (1) The rate of compensation to be paid for each type of freight car shall be determined by the expense of owning and maintaining that type of freight car, including a fair return on its cost giving consideration to current costs of capital, repairs, materials, parts, and labor. In determining the rate of compensation, the Commission shall consider the transportation use of each type of freight car, the national level of ownership of each type of freight car, and other factors that affect the adequacy of the national freight car supply.

(2) The Commission may increase a rate of compensation determined under paragraph (1) of this subsection by an incentive element only when the Commission finds that the supply of a type of freight car is inadequate and an incentive element will compensate freight car owners, contribute to sound car service practices (including efficient utilization and distribution of cars), and encourage the acquisition and maintenance of a car supply adequate to meet the needs of commerce and national defense. The Commission may exempt that incentive element from the compensation to be paid by a carrier or group of carriers when the Commission finds that exemption is in the national interest.

49 USC 11123.

§ 11123. Situations requiring immediate action

(a) When the Interstate Commerce Commission considers that a shortage of equipment, congestion of traffic, or other emergency requiring immediate action exists in a section of the United States, the Commission may—

(1) suspend any car service rule or practice;

(2) take action during the emergency to promote service in the interest of the public and of commerce regardless of the ownership (as between carriers) of a locomotive, car, or other vehicle on terms of compensation the carriers establish between themselves subject to subsection (b) (2) of this section;

(3) require joint or common use of terminals, including mainline tracks for a reasonable distance outside of those terminals, on terms of compensation the carriers establish between themselves, subject to subsection (b) (2) of this section, when that action will best meet the emergency and serve the public interest; and

(4) give directions for preference or priority in transportation, embargoes, or movement of traffic under permits.

(b) (1) Except as provided in paragraph (2) of this subsection, the Commission may act under this section on its own initiative or on application without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5.

Ante, p. 1345.
5 USC 551.

(2) When the carriers do not agree on terms of compensation under subsection (a) (2) of this section or on terms for joint or common use of terminals under subsection (a) (3) of this section, the Commission may establish for them in a later proceeding terms of compensation the Commission finds to be reasonable.

49 USC 11124.

§ 11124. Rerouting traffic on failure of rail carrier to serve the public

(a) When the Interstate Commerce Commission considers that a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title cannot transport the traffic offered to it in a manner that properly serves the public, the Commission may direct the handling, routing, and movement of the traffic of that carrier and its distribution over other rail-

(b) (1) Except as provided in paragraph (2) of this subsection, the Commission may act under this section on its own initiative or on application without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5. *Ante*, p. 1345. 5 USC 551 *et seq.*

(2) When the carriers do not agree on the terms of compensation under this section, the Commission may establish the terms for them in a later proceeding.

§ 11125. Directed rail transportation 49 USC 11125.

(a) When a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title cannot transport the traffic offered to it because— *Ante*, p. 1359.

(1) its cash position makes its continuing operation impossible;

(2) transportation has been discontinued under court order; or

(3) it has discontinued transportation without obtaining a required certificate under section 10903 of this title;

the Commission may direct the handling, routing, and movement of the traffic available to that carrier and its distribution over the railroad lines of that carrier by another carrier to promote service in the interest of the public and of commerce. Subject to subsection (b) of this section, the Commission may act without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5.

(b) (1) Action of the Commission under subsection (a) of this section may not remain in effect for more than 60 days. However, the Commission may extend that period for an additional designated period of not more than 180 days if cause exists.

(2) The Commission may not take action that would—

(A) cause a directed carrier to operate in violation of section 421 of title 45; or 45 USC 421.

(B) impair substantially the ability of a directed carrier to serve its own patrons adequately, or to meet its outstanding common carrier obligations.

(3) A directed carrier is not responsible, because of the direction of the Commission, for the debts of the other carrier. Debts.

(4) A directed carrier shall hire the employees of the other carrier, to the extent that they previously provided that transportation for the other carrier, and assume the existing employment obligations and practices of the other carrier for those employees including agreements governing rate of pay, rules and working conditions, and employee protective conditions for the period during which the action of the Commission is effective.

(5) A directed carrier may apply to the Commission for payment of an amount equal to the amount by which (A) the total expenses of that carrier incurred in or attributable to the handling, routing, and moving the traffic over the lines of the other carrier for the period during which the action of the Commission is effective, including renting or leasing necessary equipment and an allocation of common expenses, overhead, and a reasonable profit, exceed (B) the direct revenues from handling, routing, and moving that traffic over the lines of the other carrier during that period. The carrier must submit a current record of those total expenses to the Commission. The Commission shall certify promptly, to the Secretary of the Treasury, the amount to be paid. The Secretary shall pay that amount by the 90th

day after the end of the period during which the direction of the Commission is effective, and funds are authorized to be appropriated for that payment. The Commission may audit any such record.

§ 11126. Distribution of coal cars

(a) Subject to subsection (b) of this section, a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title shall make a reasonable distribution of cars for transportation of coal among the coal mines served by it whether the mines are located on its line or are customarily dependent on it for car supply. If the supply of available cars does not equal the requirements of the mines, the carrier shall maintain and apply reasonable ratings of the mines and count each car furnished to or used by a mine for transportation of coal against that mine. However, coal cars supplied by shippers or receivers are deemed not to be a part of the carrier's fleet and are not counted in determining a question about distribution or car count under subsection (b) of this section or section 10102, 10501, 10701–10703, 10707, 10721(b), 10722(c)–(d), 10723(a)–(b)(1), 10724(a), 10741–10744, 10746, 10749, 10750, 10901, 10902, 10907, 11101, 11103–11105, 11121–11125, 11127, 11128(a)(1), 11501(c), 11505(a), 11702(a)(1), 11703, 11901(d)–(e)(2), 11902, 11903, 11905, 11907, 11915, or 11916 of this title.

Ante, pp. 1338, 1359, 1371, 1372, 1380, 1383–1386, 1390, 1391, 1393, 1394, 1402, 1403, *Post*, pp. 1444, 1448, 1450, 1455, 1457, 1459, 1464. "Unit train Service."

(b)(1) In this subsection, "unit-train service" means the movement of a single shipment of coal of at least 4,500 tons, tendered to one carrier, on one bill of lading, at one origin, on one day, and destined to one consignee, at one plant, at one destination, over one route.

(2) Unit-train service and non-unit-train service are deemed to be separate and distinct classes of service. A distinction shall be made between them and between the cars used in each class of service. A question about the reasonableness of, or discrimination in, the distribution of cars shall be determined within each class and not between them, notwithstanding a section referred to in subsection (a) of this section.

(a)(1) When the Interstate Commerce Commission considers that a shortage of equipment, congestion of traffic, or other emergency requires immediate action at a place in the United States, the Commission may—

(B) take action to promote transportation in the interest of the public and of commerce; and

(C) give directions for preference or priority in transportation, embargoes, or movement of traffic under permits.

(2) When the Commission considers that any such freight forwarder cannot properly serve the public by providing service for the traffic offered it, the Commission may require the handling, routing, and movement of that traffic in another manner to promote commerce and service to the public. When the equipment or facilities of another freight forwarder are required to be used, the freight forwarders may establish terms of compensation between themselves subject to subsection (b)(2) of this section.

(b)(1) Except as provided in paragraph (2) of this subsection, the Commission may act under this section on its own initiative or on

application without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5. *Ante*, p. 1345. *Ante*, p. 1361.

(2) When the freight forwarders do not agree on the terms of compensation under this section, the Commission may establish the terms for them in a later proceeding.

§ 11128. War emergencies; embargoes imposed by carriers 49 USC 11128.

(a)(1) When the President, during time of war or threatened war, certifies to the Interstate Commerce Commission that it is essential to the defense and security of the United States to give preference or priority to the movement of certain traffic, the Commission shall direct that preference or priority be given to that traffic under sections 11123(a)(4) and 11127(a)(1)(C) of this title.

(2) When the President, during time of war or threatened war, demands that preference and precedence be given to the transportation of troops and material of war over all other traffic, all carriers providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title shall adopt every means within their control to facilitate and expedite the military traffic. *Ante*, p. 1359.

(b) An embargo imposed by any such carrier does not apply to shipments consigned to agents of the United States Government for its use. The carrier shall deliver those shipments as promptly as possible.

Ante, pp. 1361, 1365, 1369.

(3) The Commission shall review the rail accounting system periodically, but at least once every 5th year after 1977, and revise the system as necessary to conform it to generally accepted accounting principles compatible with the managerial and responsibility accounting requirements of those carriers and to keep it in compliance with this section.

49 USC 11301.

§ 11301. Authority of certain carriers to issue securities and assume obligations and liabilities

(a) In this section—

"Carrier."

(1) "carrier" means a rail or sleeping car carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title

Ante, p. 1359.

(except a street, suburban, or interurban electric railway not operated as a part of a general railroad system of transportation), and a corporation organized to provide transportation by rail carrier subject to that subchapter.

"Security."

(2) "security" means a share of capital stock, a bond, or other evidence of interest in, or indebtedness of, a carrier.

Issuance of securities.
15 USC 77a, 78a, 80a-1.

(b)(1) Subject to subchapter I of chapter 2A, chapter 2B, and subchapter I of chapter 2D of title 15, the Commission has exclusive jurisdiction to approve the issuance of securities by a carrier and the assumption of an obligation or liability related to the securities of another person by a carrier. A carrier may not issue securities or assume those obligations or liabilities without the approval of the Commission. No other approval is required. A security issued or obligation or liability assumed by a carrier in violation of this subsection or in violation of a condition prescribed by the Commission under subsection (d) of this section is void. However, a security or obligation issued or assumed under authority of this section is not void for failure to comply with a procedural requirement of this section or other matter preceding entry of the order of the Commission.

(2) Paragraph (1) of this subsection does not apply to notes issued by a carrier if the notes mature not more than 2 years after their date of issue and total (with all then outstanding notes having a maturity of not more than 2 years) not more than 5 percent of the par value of the then outstanding securities of that carrier. If the securities do not have a par value, the par value of those securities is the fair market value on the date of issue. Paragraph (1) of this subsection applies to a subsequent funding of notes referred to in this paragraph.

(c)(1) A carrier issuing notes referred to in subsection (b)(2) of this section shall file a certificate of notification with the Commission by the end of the 10th day after they are issued. That notification must include substantially the same matter required by the Commission for an application for authority to issue other securities.

(2) A carrier that pledges, repledges, or otherwise disposes of a security referred to in an application for authority or a certificate of notification under this section as pledged or held unencumbered in the treasury of that carrier shall file a certificate of notification with the Commission by the end of the 10th day after it disposes of the security.

Proceedings.

(d)(1) The Commission may begin a proceeding under this section on application of a carrier. Before taking final action, the Commission must investigate the purpose and use of the securities issue or assumption and the proceeds from it. The Commission may approve any part of the application and may require the carrier to comply with appropriate conditions. After an application is approved under this section, the Commission may change a condition previously imposed or use that may be made of the securities or proceeds for good cause shown subject to the requirements of this section. The Commission may approve an application under this section only when it finds that the securities issue or assumption—

(A) is for a lawful object within the corporate purpose of the carrier and reasonably appropriate for that purpose;

(B) is compatible with the public interest;

(C) is appropriate for or consistent with the proper performance by the carrier of service to the public as a common carrier; and

(D) will not impair the financial ability of the carrier to provide the service.

(2) An application or certificate must be made under oath and signed and filed for the carrier by a designated executive officer who knows the matters stated in the application or certificate. On receipt of an application of a carrier under this section, the Commission shall have a copy of the application served on the chief executive officer of each State in which that carrier operates. The appropriate authorities of those States are entitled to be admitted as parties to a proceeding under this section to represent the rights and interests of their people and States.

Reports to Interstate Commerce Commission.

(e) The Commission shall require a carrier that issues securities, including notes, under this section to submit reports to it. The reports must identify the disposition of those securities and the application of the proceeds from their disposition.

(f) This section does not imply a guaranty or obligation of those securities by the United States Government. This section does not apply to securities issued or obligations or liabilities assumed by the United States Government, a State, or an instrumentality or political subdivision of one of them.

49 USC 11302.

§ 11302. Issuance of securities and assumption of obligations and liabilities by motor carriers

(a) Except as provided in this section, section 11301 of this title applies to—

(1) motor carriers providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter II of chapter 105 of this title;

Ante, p. 1361.

(2) corporations organized to provide transportation as carriers subject to the jurisdiction of the Commission under that subchapter; and

(3) corporations authorized by the Commission to acquire control of at least one motor carrier subject to its jurisdiction under that subchapter.

(b) Section 11301 of this title does not apply when the total value of capital stock (or principal amount of other securities to be issued) and the value of capital stock and principal amount of other securities then outstanding is not more than $1,000,000, or to notes of a maturity of not more than 2 years that aggregate not more than $200,000. Notes that, with other outstanding notes of a maturity of not more than 2 years, aggregate that amount may be issued without regard to the percentage limitations applicable under section 11301 (b) (2) of this title. The value of capital stock having no par value is the fair market value on the date of issue of that stock, and the value of capital stock that has a par value is the fair market value on the date of issue or the par value, whichever is greater.

(c) This section does not apply to the United States Government, a State, or an instrumentality or political subdivision of one of them.

49 USC 11303.

§ 11303. Equipment trusts: recordation; evidence of indebtedness

(a) A mortgage (other than a mortgage under the Ship Mortgage Act, 1920), lease, equipment trust agreement, conditional sales agreement, or other instrument evidencing the mortgage, lease, conditional sale, or bailment of railroad cars, locomotives, or other rolling stock or vessels, intended for a use related to interstate commerce may be filed with the Interstate Commerce Commission. An assignment of a right or interest under one of those instruments and an amendment to that

instrument or assignment including a release, discharge, or satisfaction of any part of it may also be filed with the Commission. The instrument, assignment, or amendment must be in writing, executed by the parties to it, and acknowledged or verified under Commission regulations. When filed under this section, that document is notice to, and enforceable against, all persons. A document filed under this section does not have to be filed, deposited, registered, or recorded under another law of the United States, a State (or its political subdivisions), or territory or possession of the United States, related to filing, deposit, registration, or recordation of those documents. This section does not change the Ship Mortgage Act, 1920. 46 USC 984.

(b) The Commission shall maintain a system for recording each document filed under subsection (a) of this section and mark each of them with a consecutive number and the date and hour of their recordation. The Commission shall maintain and keep open for public inspection an index of documents filed under that subsection. That index shall include the name and address of the principal debtors, trustees, guarantors, and other parties to those documents and may include other facts that will assist in determining the rights of the parties to those transactions. Record system.

§ 11304. Security interests in certain motor vehicles 49 USC 11304.

(a) In this section— Definitions.

(1) "motor vehicle" means a truck of rated capacity (gross vehicle weight) of at least 10,000 pounds, a highway tractor of rated capacity (gross combination weight) of at least 10,000 pounds, a property-carrying trailer or semitrailer with at least one load-carrying axle of at least 10,000 pounds, or a motor bus with a seating capacity of at least 10 individuals.

(2) "lien creditor" means a creditor having a lien on a motor vehicle and includes an assignee for benefit of creditors from the date of assignment, a trustee in bankruptcy from the date of filing of the petition in bankruptcy, and a receiver in equity from the date of appointment of the receiver.

(3) "security interest" means an interest (including an interest established by a conditional sales contract, mortgage, equipment trust, or other lien or title retention contract, or lease) in a motor vehicle when the interest secures payment or performance of an obligation.

(4) "perfection", as related to a security interest, means taking action (including public filing, recording, notation on a certificate of title, and possession of collateral by the secured party), or the existence of facts, required under law to make a security interest enforceable against general creditors and subsequent lien creditors of a debtor, but does not include compliance with requirements related only to the establishment of a valid security interest between the debtor and the secured party.

(b) A security interest in a motor vehicle owned by, or in the possession and use of, a carrier having a certificate or permit issued under section 10922 or 10923 of this title and owing payment or performance of an obligation secured by that security interest is perfected in all jurisdictions against all general, and subsequent lien, creditors of, and all persons taking a motor vehicle by sale (or taking or retaining a security interest in a motor vehicle) from, that carrier when— *Ante*, pp. 1409, 1410.

(1) a certificate of title is issued for a motor vehicle under a law of a jurisdiction that requires or permits indication, on a

certificate or title, of a security interest in the motor vehicle if the security interest is indicated on the certificate;

(2) a certificate of title has not been issued and the law of the State where the principal place of business of that carrier is located requires or permits public filing or recording of, or in relation to, that security interest if there has been such a public filing or recording; and

(3) a certificate of title has not been issued and the security interest cannot be perfected under paragraph (2) of this subsection, if the security interest has been perfected under the law (including the conflict of laws rules) of the State where the principal place of business of that carrier is located.

(c) This section does not affect a security interest perfected before January 1, 1959.

SUBCHAPTER II—OWNERSHIP

§ 11321. Limitation on ownership of certain water carriers

(a)(1) Notwithstanding sections 11343 and 11344 of this title, a carrier, or a person controlling, controlled by, or under common control with a rail, express, sleeping car, or pipeline carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may not own, operate, control, or have an interest in a water common carrier or vessel carrying property or passengers on a water route with which it does or may compete for traffic.

Ante, p. 1359.

Hearing.

(2) The Commission may decide, after a full hearing, questions of fact related to competition or the possibility of competition under this subsection on application of a carrier. A carrier may file an application to determine whether an existing service violates this subsection and may request permission to continue operation of a vessel or that action be taken under subsection (b) of this section. The Commission may begin a proceeding under this subsection on its own initiative or on application of a shipper to investigate the operation of a vessel used by a carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of that chapter if the carrier has not applied to the Commission and had the question of competition or the possibility of competition determined under this subsection.

(b) Notwithstanding subsection (a) of this section, the Commission may authorize a carrier providing transportation subject to the jurisdiction of the Commission under that subchapter to own, operate, control, or have an interest in a water common carrier or vessel that is not operated through the Panama Canal and with which the carrier does or may compete for traffic when the Commission finds that ownership, operation, control, or interest will still allow that water common carrier or vessel to be operated in the public interest advantageously to interstate commerce and that it will still allow competition, without reduction, on the water route in question. However, section 11343 of this title also applies to a transaction or interest under this subsection if the transaction or interest is within the scope of that section. The Commission may begin a proceeding under this subsection on application of a carrier. An authorization under this subsection is not necessary for a carrier that obtained an order of extension before

September 18, 1940, under section 5(21) of the Interstate Commerce Act (37 Stat. 567), as amended, if the order is still in effect. 49 USC 5.

(c) The Commission may take action under this section only after a full hearing. An order entered as a result of the action may be conditioned on giving security for the payment of an amount of money or the discharge of an obligation that is required to be paid or discharged under that order.

§ 11322. Restrictions on officers and directors 49 USC 11322.

(a) A person may hold the position of officer or director of more than one carrier as defined in section 11301(a)(1) of this title only when authorized by the Interstate Commerce Commission. The Commission may authorize a person to hold the position of officer or director of more than one of those carriers when public or private interests will not be adversely affected.

(b) An officer or director of a carrier referred to in subsection (a) of this section may not—

(1) receive, for the benefit of that officer or director, a thing of value in relation to the negotiation, hypothecation, or sale of a security issued or to be issued by that carrier;

(2) share in the proceeds from the negotiation, hypothecation, or sale of a security issued or to be issued by that carrier; or

(3) participate in making or paying dividends of an operating carrier from funds included in a capital account.

§ 11323. Limitation on ownership of other carriers by freight forwarders 49 USC 11323.

(a) A freight forwarder, or a person controlling, controlled by, or under common control with a freight forwarder, providing service subject to the jurisdiction of the Interstate Commerce Commission under subchapter IV of chapter 105 of this title, may not acquire control of a carrier providing transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of that chapter. However, this subsection does not prohibit a carrier providing transportation under subchapter I, II, or III of chapter 105 from acquiring control of another such carrier under subchapter III of this chapter but subject to section 11321.

Ante, p. 1369.

Ante, pp. 1359, 1361, 1365.

(b) A director, officer, employee, or agent of a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of chapter 105 of this title or a person controlling, controlled by, or under common control with one of those carriers, may not, for that person's pecuniary benefit, own, lease, control, or hold stock in a freight forwarder providing service subject to the jurisdiction of the Commission under subchapter IV of that chapter. However, this subsection does not prohibit the holding of a director's qualifying shares of stock from which no personal pecuniary benefit is derived by the holder.

(c) This subtitle does not prohibit a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I, II, or III of chapter 105 of this title or a person controlling, controlled by, or under common control with one of those carriers from controlling a freight forwarder. When that control exists, a rate, classification, rule, or practice of one of those carriers may not be found to be unlawful because of the relationship.

SUBCHAPTER III—COMBINATIONS

49 USC 11341.

§ 11341. Scope of authority

(a) The authority of the Interstate Commerce Commission under this subchapter is exclusive. A carrier or corporation participating in or resulting from a transaction approved by the Commission under this subchapter may carry out the transaction, own and operate property, and exercise control or franchises acquired through the transaction without the approval of a State authority. A carrier, corporation, or person participating in that transaction is exempt from the antitrust laws and from all other law, including State and municipal law, as necessary to let that person carry out the transaction, hold, maintain, and operate property, and exercise control or franchises acquired through the transaction. However, if a purchase and sale, a lease, or a corporate consolidation or merger is involved in the transaction, the carrier or corporation may carry out the transaction only with the assent of a majority, or the number required under applicable State law, of the votes of the holders of the capital stock of that corporation entitled to vote. The vote must occur at a regular meeting, or special meeting called for that purpose, of those stockholders and the notice of the meeting must indicate its purpose.

(b) A power granted under this subchapter to a carrier or corporation is in addition to and changes its powers under its corporate charter and under State law. Action under this subchapter does not establish or provide for establishing a corporation under the laws of the United States.

49 USC 11342.

§ 11342. Limitation on pooling and division of transportation or earnings

(a) A common carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I, II, or III of chapter 105 of this title may not agree or combine with another of those carriers to pool or divide traffic or services or any part of their earnings without the approval of the Commission under this section or sections 11124 and 11125 of this title. The Commission may approve and authorize the agreement or combination if the carriers involved assent to the pooling or division and the Commission finds that a pooling or division of traffic, services, or earnings—

Ante, pp. 1359, 1361, 1365.

(1) will be in the interest of better service to the public or of economy of operation; and

(2) will not unreasonably restrain competition.

(b) The Commission may impose conditions governing the pooling or division and may approve and authorize payment of a reasonable consideration between the carriers.

(c) This section affects an agreement or combination filed with the Commission before March 19, 1941, to which a water common carrier providing transportation subject to the jurisdiction of the Commission under subchapter III of chapter 105 of this title is a party only when the Commission determines that the agreement or combination does not meet the requirements for approval and authorization under subsection (a) of this section.

Proceedings.

(d) The Commission may begin a proceeding under this section on its own initiative or on application.

49 USC 11343.

§ 11343. Consolidation, merger, and acquisition of control

(a) The following transactions involving carriers providing transportation subject to the jurisdiction of the Interstate Commerce Com-

mission under subchapter I (except a pipeline carrier), II, or III of chapter 105 of this title may be carried out only with the approval and authorization of the Commission:

Ante, pp. 1359, 1361, 1365.

(1) consolidation or merger of the properties or franchises of at least 2 carriers into one corporation for the ownership, management, and operation of the previously separately owned properties.

(2) a purchase, lease, or contract to operate property of another carrier by any number of carriers.

(3) acquisition of control of a carrier by any number of carriers.

(4) acquisition of control of at least 2 carriers by a person that is not a carrier.

(5) acquisition of control of a carrier by a person that is not a carrier but that controls any number of carriers.

(6) acquisition by a rail carrier of trackage rights over, or joint ownership in or joint use of, a railroad line (and terminals incidental to it) owned or operated by another rail carrier.

(b) A person may carry out a transaction referred to in subsection (a) of this section or participate in achieving the control or management, including the power to exercise control or management, in a common interest of more than one of those carriers, regardless of how that result is reached, only with the approval and authorization of the Commission under this subchapter. In addition to other transactions, each of the following transactions are considered achievements of control or management:

(1) A transaction by a carrier has the effect of putting that carrier and persons affiliated with it, taken together, in control of another carrier.

(2) A transaction by a person affiliated with a carrier has the effect of putting that carrier and persons affiliated with it, taken together, in control of another carrier.

(3) A transaction by at least 2 persons acting together (one of whom is a carrier or is affiliated with a carrier) has the effect of putting those persons and carriers and persons affiliated with any of them, or with any of those affiliated carriers, taken together, in control of another carrier.

(c) A person is affiliated with a carrier under this subchapter if, because of the relationship between that person and a carrier, it is reasonable to believe that the affairs of another carrier, control of which may be acquired by that person, will be managed in the interest of the other carrier.

(d) (1) Approval and authorization by the Commission are not required if the only parties to a transaction referred to in subsection (a) of this section are motor carriers providing transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title and the aggregate gross operating revenues of those carriers were not more than $300,000 during a period of 12 consecutive months ending not more than 6 months before the date of the agreement of the parties covering the transaction. However, the approval and authorization of the Commission is required when a motor carrier that is controlled by or affiliated with a carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of that chapter is a party to the transaction.

(2) The approval and authorization of the Commission are not required if the only parties to a transaction referred to in subsection (a) of this section are street, suburban, or interurban electric railways

that are not controlled by or under common control with a carrier that is operated as part of a general railroad system of transportation.

49 USC 11344.

§ 11344. Consolidation, merger, and acquisition of control: general procedure and conditions of approval

(a) The Interstate Commerce Commission may begin a proceeding to approve and authorize a transaction referred to in section 11343 of this title on application of the person seeking that authority. When an application is filed with the Commission, the Commission shall notify the chief executive officer of each State in which property of the carriers involved in the proposed transaction is located and shall notify those carriers. If a motor carrier providing transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title is involved in the transaction, the Commission must notify the persons specified in section 10328(b) of this title. The Commission shall hold a public hearing when a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of that chapter is involved in the transaction unless the Commission determines that a public hearing is not necessary in the public interest.

Notification.

Ante, p. 1361.

Hearing.

Ante, p. 1359.

(b) In a proceeding under this section, the Commission shall consider at least the following:

(1) the effect of the proposed transaction on the adequacy of transportation to the public.

(2) the effect on the public interest of including, or failing to include, other rail carriers in the area involved in the proposed transaction.

(3) the total fixed charges that result from the proposed transaction.

(4) the interest of carrier employees affected by the proposed transaction.

(c) The Commission shall approve and authorize a transaction under this section when it finds the transaction is consistent with the public interest. The Commission may impose conditions governing the transaction. When the transaction contemplates a guaranty or assumption of payment of dividends or of fixed charges or will result in an increase of total fixed charges, the Commission may approve and authorize the transaction only if it finds that the guaranty, assumption, or increase is consistent with the public interest. When a rail carrier, or a person controlled by or affiliated with a rail carrier, is an applicant and the transaction involves a motor carrier, the Commission may approve and authorize the transaction only if it finds that the transaction is consistent with the public interest, will enable the rail carrier to use motor carrier transportation to public advantage in its operations, and will not unreasonably restrain competition. When a rail carrier is involved in the transaction, the Commission may require inclusion of other rail carriers located in the area involved in the transaction if they apply for inclusion and the Commission finds their inclusion to be consistent with the public interest.

49 USC 11345.

§ 11345. Consolidation, merger, and acquisition of control: rail carrier procedure

(a) If a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title is involved in a proposed transaction under section 11343 of this title, this section and section 11344 of this title also apply to the transaction. The Commission shall publish notice of

Notice, publication in Federal Register.

the application in the Federal Register by the end of the 30th day after the application is filed with the Commission and after a certified copy of it is furnished to the Secretary of Transportation. However, if the application is incomplete, the Commission shall reject it by the end of that period. The order of rejection is a final action of the Commission under section 10327 of this title.

Ante, p. 1348.

(b) Written comments about an application may be filed with the Commission within 45 days after notice of the application is published under subsection (a) of this section. Copies of those comments shall be served on the Secretary of Transportation and the Attorney General, each of whom may decide to intervene as a party to the proceeding. That decision must be made by the 15th day after the date of receipt of the written comments, and if the decision is to intervene, preliminary comments about the application must be sent to the Commission by the end of the 15th day after the date of receipt of the written comments.

Filing comments.

(c) The Commission shall require that applications inconsistent with an application, notice of which was published under subsection (a) of this section, and applications for inclusion in the transaction, be filed with it and given to the Secretary of Transportation by the 90th day after publication of notice under that subsection.

(d) The Commission must conclude evidentiary proceedings by the 240th day after the date of publication of notice under subsection (a) of this section. However, if the application involves the merger or control of at least 2 class I railroads, as defined by the Commission, it must conclude evidentiary proceedings by the end of the 24th month after the date of publication of notice under subsection (a) of this section. The Commission must issue a final decision by the 180th day after the date it concludes the evidentiary proceedings. If the Commission does not issue a decision that is a final action under section 10327 of this title, it shall send written notice to Congress that a decision was not issued and the reason why it was not issued.

Evidentiary proceedings.

(e) The Commission may waive the requirement that an initial decision be made under section 10327 of this title and make a final decision itself when it determines that action is required for the timely execution of its functions under this subchapter or that an application governed by this section is of major transportation importance. The decision of the Commission under this subsection is a final action under section 10327 of this title.

Waiver.

(f) The Secretary of Transportation may propose changes in transactions governed by this section when a rail carrier is involved. The Secretary may appear before the Commission to support those changes.

§ 11346. Consolidation, merger, and acquisition of control: expedited rail carrier procedure

49 USC 11346.

(a) A rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title or the Secretary of Transportation may apply, before January 1, 1982, for authority for and approval of a merger, consolidation, unification or coordination project (as described in section 1654(c) of this title), joint use of tracks or other facilities, or acquisition or sale of assets involving one of those rail carriers, under this section instead of sections 11344 and 11345 of this title. The Secretary may apply under this section only when the parties to the application that are rail carriers providing transportation subject to the jurisdiction of the Commission under subchapter I of that chapter consent to an application by the Secretary. A rail carrier may apply under

Ante, p. 1359.

this section only if it sent the proposed transaction to the Secretary for a report under section 11350 of this title at least 6 months before applying under this section.

Notice.

(b) When the Commission notifies persons required to receive notice that an application has been filed under this section, the Commission must include in the notice a copy of the application, a summary of the proposed transaction, and the applicant's reasons and public interest justification for the transaction. When the Commission notifies the Secretary of Transportation that an application has been filed under this section, the Commission shall also request the report of the Secretary prepared under section 11350 of this title. By the 10th day after receiving an application under this section, the Commission shall send notice of the proposed transaction to—

(1) the chief executive officer of each State that may be affected by the execution or implementation of the proposed transaction;

(2) the Attorney General;

(3) the Secretary of Labor; and

(4) the Secretary of Transportation (unless the Secretary is the applicant under subsection (a) of this section).

Panel; recommended decisions.

(c) The Commission shall designate a panel of the Commission to make a recommended decision on each application under this section. The panel must begin a proceeding by the 90th day after the date the Commission receives the application, complete the proceeding by the 180th day after the application is referred to it, and give its recommended decision and certify the record to the entire Commission by the 90th day after the proceeding is completed. The panel may use employees appointed under section 3105 of title 5 and the Rail Services Planning Office in conducting the proceeding, evaluating the application and comments received about it, and determining whether it is in the public interest to approve and authorize the transaction under the last sentence of subsection (d) of this section. To carry out this subsection, the panel may make rules and rulings to avoid unnecessary costs and delay. In making its recommended decision, the panel shall—

(1) request the views of the Secretary of Transportation about the effect of the transaction on the national transportation policy, as stated by the Secretary, and consider the report submitted under section 11350 of this title;

(2) request the views of the Attorney General about the effect of the transaction on competition; and

(3) request the views of the Secretary of Labor about the effect of the transaction on rail carrier employees, particularly whether the proposal contains adequate employee protection provisions.

Written views to the panel. Availability to public.

The Secretaries and the Attorney General shall send their written views to the panel. Those statements are available to the public under section 552(a) of title 5.

(d) When the recommended decision and record of a proceeding under this section are certified to the entire Commission, it must hear oral argument on the matter certified to it and make a final decision by the 120th day after receiving the recommended decision and record. The Commission may extend a time period under subsection (c) of this section or under this subsection but must make its final decision by the end of the 2d year after receipt of the application by the Commission. The Commission shall consider the report of the Secretary of Transportation under section 11350 of this title in making

its final decision. The final decision must be accompanied by a written opinion stating the reasons for the Commission action. The Commission may—

(1) approve the transaction if the Commission determines the transaction is in the public interest;

(2) approve the transaction with conditions and modifications that it determines are in the public interest; or

(3) disapprove the transaction if it determines the transaction is not in the public interest.

§ 11347. Employee protective arrangements in transactions involving rail carriers 49 USC 11347.

When a rail carrier is involved in a transaction for which approval is sought under sections 11344 and 11345 or section 11346 of this title, the Interstate Commerce Commission shall require the carrier to provide a fair arrangement at least as protective of the interests of employees who are affected by the transaction as the terms imposed under this section before February 5, 1976, and the terms established under section 565 of title 45. Notwithstanding this subtitle, the arrangement may be made by the rail carrier and the authorized representative of its employees. The arrangement and the order approving the transaction must require that the employees of the affected rail carrier will not be in a worse position related to their employment as a result of the transaction during the 4 years following the effective date of the final action of the Commission (or if an employee was employed for a lesser period of time by the carrier before the action became effective, for that lesser period).

§ 11348. Interstate Commerce Commission authority over noncarrier that acquires control of carrier 49 USC 11348.

(a) When the Interstate Commerce Commission approves and authorizes a transaction under sections 11344 and 11345 of this title in which a person not a carrier providing transportation subject to the jurisdiction of the Commission under chapter 105 of this title acquires control of at least one carrier subject to the jurisdiction of the Commission, the person is subject, as a carrier, to the following provisions of this title that apply to the carrier being acquired by that person, to the extent specified by the Commission: section 10764, subchapter III of chapter 111, and sections 11301, 11302, 11709, 11711, 11901(f), (h)(1), 11909(a)(1), (b), and 11911(a). *Ante*, p. 1397.

(b) When a person subject to sections 11301, 11302, 11322, 11709, and 11911 of this title because of acquiring control of a carrier, applies to the Commission for authority to issue securities or assume obligations or liabilities under those sections, the Commission may authorize the issue or assumption only when it finds the issue or assumption—

(1) is consistent with the proper performance of public transportation by the carrier that is controlled by that person;

(2) will not impair the ability of the carrier to provide public transportation; and

(3) is consistent with the public interest in other respects.

§ 11349. Temporary operating approval for transactions involving motor and water carriers 49 USC 11349.

(a) Pending determination of an application filed with the Interstate Commerce Commission under this subchapter for approval of a consolidation or merger of the properties of at least 2 motor carriers

or at least 2 water carriers, or of a purchase, lease, or contract to operate the properties of at least one motor carrier or at least one water carrier, the Commission may approve, for a period of not more than 180 days, the operation of the properties sought to be acquired by the person proposing in the application to acquire those properties. The Commission may approve operation of motor carrier properties when it appears that failure to grant the approval may result in destruction of or injury to those motor carrier properties the person is seeking to acquire, or substantially interfere with their future usefulness in providing adequate and continuous service to the public. The Commission may approve the operation of water carrier properties only for good cause shown.

(b) The Commission may take action under subsection (a) of this section without regard to subchapter II of chapter 103 of this title and subchapter II of chapter 5 of title 5. Transportation provided by a motor carrier under a grant of approval under this section is subject to this subtitle.

SUBCHAPTER IV—FINANCIAL STRUCTURE

§ 11361. Scope of authority: changes in financial structure

49 USC 11361.

(a) The authority of the Interstate Commerce Commission to act under this subchapter is exclusive. The Commission may approve and authorize a carrier, as defined in section 11301(a)(1) of this title, to change (1) a part of a class of its securities, as defined in section 11301(a)(2) of this title, or (2) a part of an instrument under which a class of its securities is issued or a class of its obligations is secured. When a change is approved and authorized by the Commission under this subchapter, the carrier may carry out the change notwithstanding an express provision in the affected instrument or a State law and without getting other approval from the Commission or from a State authority. A person participating in carrying out a change that is approved and authorized under this subchapter is exempt from all other law, including State and municipal law, as necessary to let that person carry out the change.

(b) The Commission may not approve an application filed under this section by a carrier that is in equity receivership or reorganization under section 205 of title 11.

(c) A power granted to a carrier under this subchapter changes its powers under its corporate charter and under State law.

(d) This subchapter does not affect the negotiability of a security of a carrier or of the obligation of a carrier that assumed liability related to a security. This subchapter does not apply to an equipment-trust certificate under which a carrier is obligated, to an evidence of indebtedness of a carrier the payment of which is secured solely by equipment, or to another instrument under which that equipment-trust certificate or evidence of indebtedness was issued or by which either of them is secured.

§ 11362. Criteria for approval and authority

49 USC 11362.

(a) A carrier may apply to the Interstate Commerce Commission for approval and authority to make a change under this subchapter. To approve a proposed change, the Commission must find that the proposed change—

(1) is within the scope of section 11361 of this title;

(2) will be in the public interest;

(3) will be in the best interests of the carrier, of each class of its stockholders, and of the holders of each class of the carrier's obligations that are affected by the change; and

(4) will not be against the interests of a creditor of the carrier who is not affected by the change.

If the change involves an issuance of securities, the Commission must also make the findings required under section 11301(d)(1) of this title.

(b)(1) The Commission shall begin a proceeding under this section on receipt of an application but may require an applicant to get assurances of assent to the change from the holders of the outstanding shares of the securities that will be affected by the change before continuing with the proceeding. The Commission may determine the percentage of the principal amount or number of those shares needed to establish assurance of assent to the change. A class of securities is considered to be affected by a proposed change only if the change is proposed to a part of that class or to a part of an instrument under which that class was issued or by which it is secured. However, if a

proposed change is to an instrument under which at least 2 classes of securities were issued and are outstanding or secured by that instrument, only those classes to which the change is related are considered to be affected. The Commission shall divide the securities to be affected by a proposed change under this subchapter into reasonable classes for purposes of this subchapter.

(2) On receipt of an application of a carrier under this section the Commission shall notify, and file a copy of the application with, the chief executive officer of each State in which that carrier operates. The appropriate authorities of those States are entitled to be admitted as parties to a proceeding under this section to represent the rights and interests of their people and States.

Notice.

(c) The carrier must give notice of the proceeding to the holders of the class of securities affected. The Commission may direct the carrier to give notice to other persons the Commission determines to have an interest in the proceeding. The carrier may give notice under this subsection only after it gets assurances of assent when they are required under this section.

(d) The Commission may impose conditions governing the proposed change. The Commission may determine the effective date for a change it approves and authorizes under this subchapter and may allow it to become effective on publication of a declaration to that effect by the carrier. After an application is approved, the Commission may change a condition imposed and impose supplemental requirements for good cause shown subject to the requirements of this subchapter.

49 USC 11363.

§ 11363. Assent of holders of securities and certain other instruments

(a)(1) After making the findings required under section 11362(a) of this title, the Commission may approve and authorize the change if it is assented to by the holders of at least 75 percent of the aggregate principal amount or number of outstanding shares of each class of securities affected by the change. The Commission may increase the percentage required for assent under this subsection for a class of shares when an increase is in the public interest and—

(A) 75 percent of the shares in that class are held by less than 25 security holders; or

(B) that class is entitled to vote for the election of directors of the carrier and the Commission determines that the assent of at least 25 percent of the security holders of that class are controlled by the carrier or a person controlling the carrier.

(2) The carrier may withdraw its application after the Commission makes the findings required under section 11362(a) of this title. If the application is not withdrawn, the Commission must require the carrier to submit the proposed change, with conditions imposed by the Commission, to the holders of each class of its securities affected by the change for their assent or rejection.

(b)(1) In determining the percentage of outstanding securities when making a finding under section 11362(a) of this title, a security that secures an evidence of indebtedness of the carrier or of a company controlling or controlled by the carrier is considered to be outstanding unless the Commission determines that the proposed change does not materially affect the interest of the holder of that evidence of indebtedness. When that security is considered to be outstanding, assent to a proposed change may be given, notwithstanding another instrument, only—

(A) if the security is pledged as security under an instrument under which an evidence of indebtedness was issued and is outstanding, by the holder of a majority of the principal amount of the evidence of indebtedness; or

(B) if the security secures an evidence of indebtedness not issued under an instrument under which an evidence of indebtedness was issued, by the holder of the evidence of indebtedness.

(2) In addition to a submission required under subsection (a) of this section, the Commission shall require the carrier to submit a proposed change to a security referred to in this subsection, with requirements imposed by the Commission, to the holder of the evidence of indebtedness referred to in paragraph (1) (A) and (B) of this subsection as appropriate, for assent or rejection. A carrier is not required to submit the change to the trustee of the instrument referred to in that paragraph.

(c) If the Commission determines that the assent of the holder of a security not entitled to vote for the election of directors of the carrier or an evidence of indebtedness is in the control of the carrier or of a person controlling the carrier, that security or evidence of indebtedness is not considered to be outstanding.

§ 11364. Procedure 49 USC 11364.

(a) The Commission may prescribe the manner in which assents, assurances of assent, or rejections of the security holders may be solicited whether the solicitation is made before or after the Commission approves and authorizes the proposed change.

(b) The Commission may approve a bank or trust company, incorporated under the law of the United States or a State, that is a member of the Federal Reserve System and has a capital and surplus of at least $2,000,000, to receive assents and revocations of assents from security holders. The Commission may require the security holders to send those assents and revocations to that bank or trust company. That bank or trust company shall certify the result of the submission to the Commission. The Commission may rely on that certification as conclusive evidence in determining the result of that submission.

§ 11365. Effect of change on other persons 49 USC 11365.

(a) When a change becomes effective under this subchapter, the change is binding on, and changes the rights of—

(1) each holder of a security of the carrier of each class affected by the change; and

(2) a trustee or other party to an instrument under which a class of securities has been issued or by which it is secured.

(b) An authorization and approval of a change under this subchapter is authority for, and approval of, a corresponding change of the obligation of another carrier that assumed liability related to that class of securities if that carrier consents to the change in writing. When consent is given, the corresponding change becomes effective when the change of the class of securities or instrument becomes binding. A person who is liable or obligated on a class of securities issued by a carrier is a carrier with respect to that class for the purposes of this subchapter.

§ 11366. Reports 49 USC 11366.

A carrier receiving approval and authorization to make a change under this subchapter shall report the action taken by it in making that change to the Interstate Commerce Commission. The Commission may require periodic or special reports.

49 USC 11367.

§ 11367. Application of other laws

(a) Section 78n(a) of title 15 does not apply to a solicitation related to a proposed change under this subchapter.

(b) If the Interstate Commerce Commission finds an issuance of a security, that is an interest in a railroad equipment trust as defined in section 77c(a)(6) of title 15, under this subchapter complies with section 11301 of this title, it is considered to be an issuance subject to section 11301 within the meaning of section 77c(a)(6) of title 15. Section 77e of that title does not apply to the issuance, sale, or exchange of certificates of deposit representing securities of, or claims against, a carrier that are issued by committees in proceedings under this subchapter. Those certificates and transactions under this subchapter are exempt from subchapter I of chapter 2A of title 15.

11507. Prison-made property governed by State law.

49 USC 11501.

§ 11501. Interstate Commerce Commission authority over intrastate transportation

(a)(1) The Interstate Commerce Commission shall prescribe the rate, classification, rule, or practice for transportation or service provided by a carrier subject to the jurisdiction of the Commission under subchapter I or IV of chapter 105 of this title when the Commission finds that a rate, classification, rule, or practice of a State causes—

Ante, pp. 1359, 1369.

(A) between persons or localities in intrastate commerce and in interstate and foreign commerce, unreasonable discrimination against those persons or localities in interstate or foreign commerce; or

(B) unreasonable discrimination against or imposes an unreasonable burden on interstate or foreign commerce.

(2) The Commission may make a finding under this subsection involving a carrier providing transportation subject to its jurisdiction under subchapter I of chapter 105 of this title without separating interstate and intrastate property, revenues, and expenses, and without considering the total operations, or their results, of a carrier or group of carriers operating entirely in one State.

(b)(1) The Commission has exclusive authority to prescribe an intrastate rate for transportation provided by a rail carrier subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title when—

(A) a rail carrier files with an appropriate State authority a change in an intrastate rate, or a change in a classifiction, rule, or practice that has the effect of changing an intrastate rate, that adjusts the rate to the rate charged on similar traffic moving in interstate or foreign commerce; and

(B) the State authority does not act finally on the change by the 120th day after it was filed.

(2) When a rail carrier files an application with the Commission under this subsection, the Commission shall prescribe the intrastate rate under the standards of subsection (a) of this section. Notice of the application shall be served on the State authority.

(c) The Commission may take action under this section only after a full hearing. Action of the Commission under this section supersedes State law or action taken under State law in conflict with the action of the Commission. Hearing.

§ 11502. Conferences and joint hearings with State authorities 49 USC 11502.

(a)(1) In carrying out this subtitle as it applies to a class of persons providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under subchapter I, III, or IV of chapter 105 of this title, the Commission may— *Ante*, pp. 1359, 1365, 1369.

(A) confer and hold joint hearings with the State authorities having regulatory jurisdiction of that class when the conference or hearing is related to an investigation of the relationship between rate structures and practices of carriers providing transportation or service subject to the jurisdiction of the State authorities and of the Commission, and the Commission may take action as a result of the investigation that may affect the rate-making authority of a State; and

(B) cooperate with and use the services, records, and facilities of the State authorities.

(2) In carrying out this subtitle as it applies to motor carriers and brokers providing transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title, the Commission may— *Ante*, p. 1361.

(A) confer and hold joint hearings with State authorities;

(B) cooperate with and use the services, records, and facilities of State authorities; and

(C) make cooperative agreements with a State to enforce the economic laws and regulations of a State and the United States concerning highway transportation.

(b) When an investigation under this subtitle involving a common carrier providing transportation or service subject to the jurisdiction of the Commission under subchapter I or IV of chapter 105 of this title, is about a rate, classification, rule, or practice of a State, the Commission shall notify the interested State of the proceeding before disposing of the issue.

(c) When a representative of a State authority sits with the Commission in an investigation about a carrier subject to the jurisdiction of the Commission under subchapter I or III of chapter 105 of this title, the representative may be given an allowance for travel and subsistence expenses. The Commission may determine the amount of the allowance. Travel and subsistence allowances.

§ 11503. Tax discrimination against rail transportation property 49 USC 11503.

(a) In this section— Definitions.

(1) "assessment" means valuation for a property tax levied by a taxing district.

(2) "assessment jurisdiction" means a geographical area in a State used in determining the assessed value of property for ad valorem taxation.

(3) "rail transportation property" means property, as defined by the Interstate Commerce Commission, owned or used by a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title.

(4) "commercial and industrial property" means property, other than transportation property and land used primarily for

agricultural purposes or timber growing, devoted to a commercial or industrial use and subject to a property tax levy.

(b) The following acts unreasonably burden and discriminate against interstate commerce, and a State, subdivision of a State, or authority acting for a State or subdivision of a State may not do any of them:

(1) assess rail transportation property at a value that has a higher ratio to the true market value of the rail transportation property than the ratio that the assessed value of other commercial and industrial property in the same assessment jurisdiction has to the true market value of the other commercial and industrial property.

(2) levy or collect a tax on an assessment that may not be made under clause (1) of this subsection.

(3) levy or collect an ad valorem property tax on rail transportation property at a tax rate that exceeds the tax rate applicable to commercial and industrial property in the same assessment jurisdiction.

(4) impose another tax that discriminates against a rail carrier providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title.

(c) Notwithstanding section 1341 of title 28 and without regard to the amount in controversy or citizenship of the parties, a district court of the United States has jurisdiction, concurrent with other jurisdiction of courts of the United States and the States, to prevent a violation of subsection (b) of this section. Relief may be granted under this subsection only if the ratio of assessed value to true market value of rail transportation property exceeds by at least 5 percent, the ratio of assessed value to true market value of other commercial and industrial property in the same assessment jurisdiction. The burden of proof in determining assessed value and true market value is governed by State law. If the ratio of the assessed value of other commercial and industrial property in the assessment jurisdiction to the true market value of all other commercial and industrial property cannot be determined to the satisfaction of the district court through the random-sampling method known as a sales assessment ratio study (to be carried out under statistical principles applicable to such a study), the court shall find, as a violation of this section—

(1) an assessment of the rail transportation property at a value that has a higher ratio to the true market value of the rail transportation property than the assessed value of all other property subject to a property tax levy in the assessment jurisdiction has to the true market value of all other commercial and industrial property; and

(2) the collection of an ad valorem property tax on the rail transportation property at a tax rate that exceeds the tax ratio rate applicable to taxable property in the taxing district.

Different amendments may be prescribed for each class of motor carriers as warranted by the differences in the operations of each class.

(e) This section does not—

(1) authorize standards in conflict with regulations of the Commission; or

(2) affect the authority of the Commission to interpret its regulations and certificates and permits issued under section 10922 or 10923 of this title.

§ 11705. Rights and remedies of persons injured by certain carriers 49 USC 11705.

(a) A person injured because a carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of this title does not obey an order of the Commission, except an order for the payment of money, may bring a civil action to enforce that order under this subsection. *Ante*, p. 1359.

(b)(1) A common carrier providing transportation or service subject to the jurisdiction of the Commission under chapter 105 of this title is liable to a person for amounts charged that exceed the applicable rate for transportation or service contained in a tariff filed under subchapter IV of chapter 107 of this title. *Ante*, p. 1394.

(2) A common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I or III of chapter 105 of this title is liable for damages sustained by a person as a result of an act or omission of that carrier in violation of this subtitle. *Ante*, pp. 1359, 1365.

(3) A common carrier providing transportation or service subject to the jurisdiction of the Commission under subchapter II or IV of chapter 105 of this title is liable for damages resulting from the imposition of rates for transportation or service the Commission finds to be in violation of this subtitle. *Ante*, pp. 1361, 1369.

(c)(1) A person may file a complaint with the Commission under section 11701(b) of this title or bring a civil action under subsection (b)(1) or (2) of this section to enforce liability against a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I or III of chapter 105 of this title. A person may begin a proceeding under section 10704 or 10705 of this title to enforce liability under subsection (b)(3) of this section by filing a complaint with the Commission under section 11701(b) of this title.

(2) When the Commission makes an award under subsection (b) of this section, the Commission shall order the carrier to pay the amount awarded by a specific date. The Commission may order a carrier providing transportation subject to the jurisdiction of the Commission under subchapter I or III of chapter 105 of this title to pay damages only when the proceeding is on complaint. The person for whose benefit an order of the Commission requiring the payment of money is made may bring a civil action to enforce that order under this paragraph if the carrier does not pay the amount awarded by the date payment was ordered to be made.

(d)(1) When a person begins a civil action under subsection (b) of this section to enforce an order of the Commission requiring the payment of damages by a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I or III of chapter 105 of this title, the text of the order of the Commission must be included in the complaint. In addition to the district courts of the United States, a State court of general jurisdiction having jurisdiction of the parties has jurisdiction to enforce an order under this

paragraph. The findings and order of the Commission are competent evidence of the facts stated in them. Trial in a civil action brought in a district court of the United States under this paragraph is in the judicial district (A) in which the plaintiff resides, (B) in which the principal operating office of the carrier is located, (C) if a rail carrier, through which the railroad line of that carrier runs, or (D) if a water carrier, in which a port of call on a route operated by that carrier is located. In a civil action under this paragraph, the plaintiff is liable for only those costs that accrue on an appeal taken by the plaintiff.

(2) All parties in whose favor the award was made may be joined as plaintiffs in a civil action brought in a district court of the United States under this subsection and all the carriers that are parties to the order awarding damages may be joined as defendants. Trial in the action is in the judicial district in which any one of the plaintiffs could bring the action against any one of the defendants. Process may be served on a defendant at its principal operating office when that defendant is not in the district in which the action is brought. A judgment ordering recovery may be made in favor of any of those plaintiffs against the defendant found to be liable to that plaintiff.

(3) The district court shall award a reasonable attorney's fee as a part of the damages for which a carrier is found liable under this subsection. The district court shall tax and collect that fee as a part of the costs of the action.

49 USC 11706.

§ 11706. Limitation on actions by and against common carriers

(a) A common carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of this title must begin a civil action to recover charges for transportation or service provided by the carrier within 3 years after the claim accrues.

Ante, p. 1359.

(b) A person must begin a civil action to recover overcharges under section 11705(b)(1) of this title within 3 years after the claim accrues. If that claim is against a common carrier providing transportation subject to the jurisdiction of the Commission under subchapter I or III of chapter 105 of this title and an election to file a complaint with the Commission is made under section 11705(c)(1), the complaint must be filed within 3 years after the claim accrues.

Ante, p. 1359, 1365.

(c)(1) A person must file a complaint with the Commission to recover damages under section 11705(b)(2) of this title within 2 years after the claim accrues.

(2) A person must begin a civil action to recover damages under section 11705(b)(3) of this title within 2 years after the claim accrues.

(d) The 3-year period under subsection (b) of this section is extended for 6 months from the time written notice is given to the claimant by the carrier of disallowance of any part of the claim specified in the notice if a written claim is given to the carrier within that 3-year period. The 3-year period under subsection (b) of this section and the 2-year period under subsection (c)(1) of this section are each extended for 90 days from the time the carrier begins a civil action under subsection (a) of this section to recover charges related to the same transportation or service, or collects (without beginning a civil action under that subsection) the charge for that transportation or service if that action is begun or collection is made within the appropriate period.

(e) A person must begin a civil action to enforce an order of the Commission against a carrier for the payment of money within one year after the date the order required the money to be paid.

(f) This section applies to transportation for the United States Government. The time limitations under this section are extended, as related to transportation for or on behalf of the United States Government, for 3 years from the date of (1) payment of the rate for the transportation or service involved, (2) subsequent refund for overpayment of that rate, or (3) deduction made under section 244 of title 31, whichever is later.

(g) A claim related to a shipment of property accrues under this section on delivery or tender of delivery by the carrier.

§ 11707. Liability of common carriers under receipts and bills of lading 49 USC 11707.

(a) (1) A common carrier providing transportation or service subject to the jurisdiction of the Interstate Commerce Commission under subchapter I, II, or IV of chapter 105 of this title shall issue a receipt or bill of lading for property it receives for transportation under this subtitle. That carrier and any other common carrier that delivers the property and is providing transportation or service subject to the jurisdiction of the Commission under subchapter I, II, or IV are liable to the person entitled to recover under the receipt or bill of lading. The liability imposed under this paragraph is for the actual loss or injury to the property caused by (1) the receiving carrier, (2) the delivering carrier, or (3) another carrier over whose line or route the property is transported in the United States or from a place in the United States to a place in an adjacent foreign country when transported under a through bill of lading and applies to property reconsigned or diverted under a tariff filed under subchapter IV of chapter 107 of this title. Failure to issue a receipt or bill of lading does not affect the liability of a carrier. A delivering carrier is deemed to be the carrier performing the line-haul transportation nearest the destination but does not include a carrier providing only a switching service at the destination.

Ante, pp. 1359, 1361, 1369.

Ante, p. 1394.

(2) A freight forwarder is both the receiving and delivering carrier. When a freight forwarder provides service subject to this subtitle and uses a motor common carrier providing transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title to receive property from a consignor, the motor common carrier may execute the bill of lading or shipping receipt for the freight forwarder with its consent. With the consent of the freight forwarder, a motor common carrier may deliver property for a freight forwarder on the freight forwarder's bill of lading, freight bill, or shipping receipt to the consignee named in it, and receipt for the property may be made on the freight forwarder's delivery receipt.

(b) The carrier issuing the receipt or bill of lading under subsection (a) of this section or delivering the property for which the receipt or bill of lading was issued is entitled to recover from the carrier over whose line or route the loss or injury occurred the amount required to be paid to the owners of the property, as evidenced by a receipt, judgment, or transcript, and the amount of its expenses reasonably incurred in defending a civil action brought by that person.

(c) (1) A common carrier may not limit or be exempt from liability imposed under subsection (a) of this section except as provided in this subsection. A limitation of liability or of the amount of recovery or representation or agreement in a receipt, bill of lading, contract, rule, or tariff filed with the Commission in violation of this section is void.

(2) If loss or injury to property occurs while it is in the custody of a water carrier, the liability of that carrier is determined by its bill of lading and the law applicable to water transportation. The liability of the initial or delivering carrier is the same as the liability of the water carrier.

(3) A common carrier of passengers may limit its liability under its passenger rate for loss or injury of baggage carried on passenger trains, boats, or motor vehicles, or on trains, or boats, or motor vehicles carrying passengers.

(4) A common carrier may limit its liability for loss or injury of property transported under section 10730 of this title.

Ante, p. 1389.

(d) A civil action under this section may be brought against a delivering carrier in a district court of the United States or in a State court. Trial, if the action is brought in a district court of the United States is in a judicial district, and if in a State court, is in a State, through which the defendant carrier operates a railroad or route.

(e) A carrier may not provide by rule, contract, or otherwise, a period of less than 9 months for filing a claim against it under this section and a period of less than 2 years for bringing a civil action against it under this section. The period for bringing a civil action is computed from the date that person receives written notice from the carrier that it has disallowed any part of the claim specified in the notice.

49 USC 11708.

§ 11708. Private enforcement: motor carrier and freight forwarder licensing

(a) If a person provides transportation by motor vehicle or service of a freight forwarder in clear violation of section 10921–10924, 10927, 10930–10932, or 11323 of this title, a person injured by the transportation or service may bring a civil action to enforce any such section. In a civil action under this subsection, trial is in the judicial district in which the person who violated that section operates.

Ante, pp. 1409–1412, 1413, 1415–1417, 1333.

(b) A copy of the complaint in a civil action under subsection (a) of this section shall be served on the Interstate Commerce Commission and a certificate of service must appear in the complaint filed with the court. The Commission may intervene in a civil action under subsection (a) of this section. The Commission may notify the district court in which the action is pending that it intends to consider the matter that is the subject of the complaint in a proceeding before the Commission. When that notice is filed, the court shall stay further action pending disposition of the proceeding before the Commission.

Notification.

(c) In a civil action under subsection (a) of this section, the court may determine the amount of and award a reasonable attorney's fee to the prevailing party. That fee is in addition to costs allowable under the Federal Rules of Civil Procedure.

§ 11709. Liability for issuance of securities by certain carriers

A carrier issuing a security or assuming an obligation or liability that is void under section 11301 of this title and its directors, officers, attorneys, and other agents who participate in authorizing, issuing, hypothecating, or selling that security, or in authorizing the assumption of that obligation or liability, are jointly and severally liable for the damages sustained by a person who acquires for value, in good faith, and without notice that the issue or assumption is void (1) that security, or (2) a security under which an assumption or liability is void. If a security void under that section is acquired directly from the carrier issuing it, the holder may rescind the transaction and recover

Ante, p. 1428.

the consideration given for the security when it is surrendered to that carrier.

§ 11710. Liability when property is delivered in violation of routing instructions

49 USC 11710.

(a) (1) When a carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title diverts or delivers property to another carrier in violation of routing instructions in the bill of lading, both of those carriers are jointly and severally liable to the carrier that was deprived of its right to participate in hauling that property for the total amount of the rate it would have received if it participated in hauling the property.

Ante, p. 1359.

(2) A carrier is not liable under paragraph (1) of this subsection when it diverts or delivers property in compliance with an order or regulation of the Commission.

(3) A carrier to whom property is transported is not liable under this subsection if it shows that it had no notice of the routing instructions before transporting the property. The burden of proving lack of notice is on that carrier.

(b) The court shall award a reasonable attorney's fee to the plaintiff in a judgment against the defendant carrier under subsection (a) of this section. The court shall tax and collect that fee as a part of the costs of the action.

"(2) prevent damage to structures in, on, or immediately adjacent to the navigable waters of the United States or the resources within such waters;

"(3) insure that vessels operating in the navigable waters of the United States shall comply with all applicable standards and requirements for vessel construction, equipment, manning, and operational procedures; and

"(4) insure that the handling of dangerous articles and substances on the structures in, on, or immediately adjacent to the navigable waters of the United States is conducted in accordance with established standards and requirements; and

"(d) that advance planning is critical in determining proper and adequate protective measures for the Nation's ports and waterways and the marine environment, with continuing consultation with other Federal agencies, State representatives, affected users, and the general public, in the development and implementation of such measures.

"(b) SPECIAL POWERS.—The Secretary may order any vessel, in a port or place subject to the jurisdiction of the United States or in the navigable waters of the United States, to operate or anchor in a manner he directs if—

"(2) he determines that such vessel does not satisfy the conditions for port entry set forth in section 9; or

"(3) by reason of weather, visibility, sea conditions, port congestion, other hazardous circumstances, or the condition of such vessel, he is satisfied that such directive is justified in the interest of safety.

"(E) that standards developed through regulations shall not impede or interfere with the right of innocent passage or any legitimate use of the high seas in accordance with recognized principles of international law; and

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the first section of the Intercoastal Shipping Act, 1933 (46 U.S.C. 843), is amended by inserting "(1)" immediately before "The term"; and by adding at the end thereof the following:

Intercoastal Shipping Act, 1933, amendment.

"(2) The term 'general increase in rates' means any change in rates, fares, or charges which will (A) result in an increase in not less than 50 per centum of the total rate, fare, or charge items in the tariffs per trade of any common carrier by water in intercoastal commerce; and (B) directly result in an increase in gross revenues of such carrier for the particular trade of not less than 3 per centum.

"General increase in rates."

"(3) The term 'general decrease in rates' means any change in rates, fares, or charges which will (A) result in a decrease in not less than 50 per centum of the total rate, fare, or charge items in the tariffs per trade of any common carrier by water in intercoastal commerce; and (B) directly result in a decrease in gross revenue of such carrier for the particular trade of not less than 3 per centum.".

"General decrease in rates."

SEC. 2. The second paragraph of section 2 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 844), is amended—

(1) by striking out "*Provided*," and inserting in lieu thereof the following: "*Provided*, That no general increase in rates or general decrease in rates shall take effect before the close of the sixtieth day after the day on which such general increase in rates or general decrease in rates is posted and filed with the Commission: *Provided further*,"; and

(2) by inserting "or sixty days" immediately after "thirty days" in the second proviso thereto.

SEC. 3. Section 3 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 845), is amended—

(1) by inserting "(a)" immediately before "Whenever" at the beginning of the first paragraph thereof;

(2) by amending subsection (a) (as so designated by paragraph (1)) by—

(B) striking out the colon after "practice" and inserting in lieu thereof a period; and

(C) striking out the proviso and inserting in lieu thereof the following:

Hearing. Publication in Federal Register.

"The Commission shall not order a hearing pursuant to this subsection, on its own motion or upon protest, unless the Commission publishes in the Federal Register the reasons, in detail, why it considers such a hearing to be necessary and the specific issues to be resolved by such hearing. For purposes of facilitating the administration of this Act, the Commission shall, within one year after the effective date of this sentence, by regulation prescribe guidelines for the determination of what constitutes a just and reasonable rate of return or profit for common carriers by water in intercoastal commerce. After the regula-

Guidelines.

tions referred to in the preceding sentence are initially prescribed, the Commission shall from time to time thereafter review such regulations and make such amendments thereto as may be appropriate.";

The sixty-day, one hundred and twenty-day, and one hundred and eighty-day periods referred to in the preceding sentence shall each begin on the day on which such rate, fare, charge, classification, regulation, or practice first takes effect or, in the case of suspended matter, shall begin on the day on which such matter would have otherwise gone into effect. However, the Commission may, in its discretion and for good cause, extend the time period or suspension period for a period of not more than sixty days, if three or more Commissioners agree to such an extension. If such extension is granted, the Commission shall report in writing to Congress within ten days from the granting of such extension together with—

Refunds.

"(2) If the Commission finds, as a result of any proceeding under this section with respect to a general increase in rates, that any unsuspended portion of the increase is not just and reasonable, the Commission shall order the carrier involved to refund to any person who was charged on the basis of such general increase an amount equal to that portion thereof found to be not just and reasonable plus interest on such amount computed on the basis of the average of the prime rate charged by major banks, as published by the Board of Governors of the Federal Reserve System, during the period to which the refund applies.".

determination that a State is ineligible under section 305, without first affording the State reasonable notice and opportunity for a hearing.

State plan, failure to comply.

"(d) Whenever the Commissioner, after reasonable notice and opportunity for a hearing to the State agency, finds that—

"(1) the State is not eligible under section 305,

"(2) the State plan has been so changed that it no longer complies substantially with the provisions of subsection (a), or

"(3) in the administration of the plan there is a failure to comply substantially with any such provision of subsection (a),

the Commissioner shall notify such State agency that no further payments from its allotments under section 304 and section 308 will be made to the State (or, in his discretion, that further payments to the State will be limited to projects under or portions of the State plan not affected by such failure), until he is satisfied that there will no longer be any failure to comply. Until he is so satisfied, no further payments shall be made to such State from its allotments under section 304 and section 308 (or payments shall be limited to projects under or portions of the State plan not affected by such failure). The Commissioner shall, in accordance with regulations he shall prescribe, disburse the funds so withheld directly to any public or nonprofit private organization or agency or political subdivision of such State submitting an approved plan in accordance with the provisions of section 307. Any such payment shall be matched in the proportions specified in section 304.

"(e)(1) A State which is dissatisfied with a final action of the Commissioner under subsection (b), (c), or (d) may appeal to the United States court of appeals for the circuit in which the State is located, by filing a petition with such court within 30 days after such final action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner, or any officer designated by him for such purpose. Petition filing.

"(2) Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record, the Commissioner may modify or set aside his order. The findings of the Commissioner as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner shall, within 30 days, file in the court the record of those further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Commissioner shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

"(3) The commencement of proceedings under this subsection shall not, unless so specifically ordered by the court, operate as a stay of the Commissioner's action.

"(3) Any State which has designated a single planning and service area under section 305(a)(1)(E) covering all, or substantially all, of the older individuals in such State, as determined by the Commissioner, may elect to pay part of the costs of the administration of State and area plans either out of sums received under this section or out of sums made available for the administration of area plans under section 304(d)(1)(A), but shall not pay such costs out of sums received or allotted under both such sections.

Funds, allocation.

"(b)(1) From the sums appropriated for any fiscal year under section 303 for carrying out the purposes of this section, each State shall be allotted an amount which bears the same ratio to such sums as the population aged 60 or older in such State bears to the population aged 60 or older in all States, except that (A) no State shall be allotted less than one-half of 1 percent of the sum appropriated for the fiscal year for which the determination is made, or $300,000, whichever is greater; and (B) Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands shall be each allotted no less than one-fourth of 1 percent of the sum appropriated for the fiscal year for which the determination is made, or $75,000, whichever is greater. For the purpose of the exception contained in clause (A), the term 'State' does not include Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands.

Any such application shall be transmitted in such form, and according to such procedures, as the Commissioner may require, except that such application may not be made as part of, or as an amendment to, the State plan.

"(B) The Commissioner may approve any application transmitted by a State under subparagraph (A) if the Commissioner determines, based upon a particularized showing of need, that—

"(i) the State will be unable to fully and effectively administer its State plan and to carry out programs and projects authorized by this title unless such additional amounts are made available by the Commissioner;

"(ii) the State is making full and effective use of its allotment under paragraph (1) and of the personnel of the State agency and area agencies designated under section 305(a)(2)(A) in the

administration of its State plan in accordance with subsection (a); and

"(iii) the State agency and area agencies of such State designated under section 305 are carrying out, on a full-time basis, programs and activities which are in furtherance of the purposes of this Act.

"(C) The Commissioner may approve that portion of the amount requested by a State in its application under subparagraph (A) which he determines has been justified in such application.

Limitation.

"(D) Amounts which any State may receive in any fiscal year under this paragraph may not exceed three-fourths of 1 percent of the sum of the amounts allotted under section 304(a) to such State to carry out the State plan for such fiscal year.

"(E) No application by a State under subparagraph (A) shall be approved unless it contains assurances that no amounts received by the State under this paragraph will be used to hire any individual to fill a job opening created by the action of the State in laying off or terminating the employment of any regular employee not supported under this Act in anticipation of filling the vacancy so created by hiring an employee to be supported through use of amounts received under this paragraph.

State allotments.

"(3) Each State shall be entitled to an allotment under this section for any fiscal year in an amount which is not less than the amount of the allotment to which such State was entitled under paragraph (1) for the fiscal year ending June 30, 1975.

"(4) The number of individuals aged 60 or older in any State and in all States shall be determined by the Commissioner on the basis of the most recent satisfactory data available to him.

"(5) Notwithstanding any other provision of this title, with respect to funds received under section 303(b)(1) and (2), a State may elect in its plan under section 307(a)(13) regarding part C of this title, to transfer a portion of the funds appropriated between subpart 1 and subpart 2 of part C, for use as the State considers appropriate to meet the needs of the area served. The Commissioner shall approve any such transfer unless he determines that such transfer is not consistent with the purposes of this Act.

Post, p. 1536.

"(c) The amounts of any State's allotment under subsection (b) for any fiscal year which the Commissioner determines will not be required for that year for the purposes described in subsection (a)(1) shall be available to provide services under part B or part C, or both, in the State.

"SEC. 309. (a) Payments of grants or contracts under this title may be made (after necessary adjustments resulting from previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments, as the Commissioner may determine. From a State's allotment for a fiscal year which is available under section 308 the Commissioner may pay to a State which does not have a State plan approved under section 307 such amounts as he deems appropriate for the purpose of assisting such State in developing a State plan.

"(b)(1) For each fiscal year, not less than 25 percent of the non-Federal share of the total expenditures under the State plan which is required by section 304(d) shall be met from funds from State or local public sources.

"(2) Funds required to meet the non-Federal share required by section 304(d)(1)(B), in amounts exceeding the non-Federal share required prior to fiscal year 1981, shall be met from State sources.

"(c) A State's allotment under section 304 for a fiscal year shall be reduced by the percentage (if any) by which its expenditures for such year from State sources under its State plan approved under section 307 are less than its expenditures from such sources for the preceding fiscal year.

Public Law 95-483
95th Congress

An Act

To provide for the regulation of rates or charges by certain state-owned carriers in the foreign commerce of the United States, and for other purposes.

Oct. 18, 1978
[H.R. 9998]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Ocean Shipping Act of 1978".

Ocean Shipping Act of 1978.
46 USC 842 note.

SEC. 2. The first section of the Shipping Act, 1916, as amended (46 U.S.C. 801), is further amended by inserting the following definition of the term "controlled carrier" immediately following the definition of the term "common carrier by water":

"The term 'controlled carrier' means a common carrier by water operating, offering, or proposing to offer service in the foreign commerce of the United States which carrier is or whose operating assets are directly or indirectly owned or controlled by the government under whose registry the vessels of the controlled carrier operate. Ownership or control by such government shall be deemed to exist if a majority portion of the interest in the carrier is owned or controlled in any manner by such government, by any agency of the government, or by any person, corporation, or entity controlled by such government. Ownership or control shall also be deemed to exist if the government has the right to appoint or disapprove the appointment of a majority of the directors or the chief operating or executive officer of the carrier".

"Controlled carrier."

SEC. 3. Section 18 of the Shipping Act, 1916, as amended (46 U.S.C. 817), is further amended by adding at the end thereof, the following new subsection:

"(c)(1) No controlled carrier subject to this Act shall maintain rates or charges in its tariffs filed with the Commission that are below a level which is just and reasonable, nor shall any such carrier establish or maintain unjust or unreasonable classifications, rules, or regulations in such tariffs. An unjust or unreasonable classification, rule, or regulation means one which results or is likely to result in the carriage or handling of cargo at rates or charges which are below a level which is just and reasonable. The Commission may at any time after notice and hearing, disapprove any rates, charges, classifications, rules, or regulations which the controlled carrier has failed to demonstrate to be just and reasonable. In any proceeding under this subsection, the burden of proof shall be on the controlled carrier to demonstrate that its rates, charges, classifications, rules, or regulations are just and reasonable. Rates, charges, classifications, rules, or regulations filed by a controlled carrier which have been rejected, suspended, or disapproved by the Commission are void, and their use is unlawful.

Notice and hearing.

"(2) For the purpose of this subsection, in determining whether rates, charges, classifications, rules, or regulations by a controlled carrier are just and reasonable, the Commission may take into account appropriate factors, including, but not limited to, whether: (i) the rates or charges which have been filed or which would result from the pertinent classifications, rules, or regulations are below a level which is fully compensatory to the controlled carrier based upon that carrier's

actual costs or upon its constructive costs, which are hereby defined as the costs of another carrier, other than a controlled carrier, operating similar vessels and equipment in the same or a similar trade; (ii) the rates, charges, classifications, rules, or regulations are the same as or similar to those filed or assessed by other carriers in the same trade; (iii) the rates, charges, classifications, rules, or regulations are required to assure movement of particular cargo in the trade; or (iv) the rates, charges, classifications, rules, or regulations are required to maintain acceptable continuity, level, or quality of common carrier service to or from affected ports.

"(3) Notwithstanding the provisions of subsection (b)(2) of this section, rates, charges, classifications, rules, or regulations of controlled carriers shall not, without special permission of the Commission, become effective within less than thirty days following the date of filing with the Commission. Following the effective date of this subsection, each controlled carrier shall, upon the request of the Commission, file within twenty days of request, with respect to its existing or proposed rates, charges, classifications, rules, or regulations a statement of justification which sufficiently details the controlled carrier's need and purpose for such rates, charges, classifications, rules, or regulations, upon which the Commission may reasonably base its determination of the lawfulness thereof.

"(4) Whenever the Commission is of the opinion that the rates, charges, classifications, rules, or regulations filed by a controlled carrier may be unjust and unreasonable, the Commission may issue an order to the controlled carrier to show cause why such rates, charges, classifications, rules, or regulations should not be disapproved. Pending a determination as to their lawfulness in such a proceeding, the Commission may suspend such rates, charges, classifications, rules, or regulations at any time prior to their effective date. In the case of any rates, charges, classifications, rules, or regulations which have already become effective, the Commission may, upon the issuance of an order to show cause, suspend such rates, charges, classifications, rules, or regulations on not less than sixty days notice to the controlled carrier. No period of suspension hereunder may be greater than one hundred and eighty days. Whenever the Commission has suspended any rates, charges, classifications, rules, or regulations under this provision, the affected carrier may file new rates, charges, classifications, rules, or regulations to take effect immediately during the suspension period in lieu of the suspended rates, charges, classifications, rules, or regulations: *Provided, however*, That the Commission may reject such new rates, charges, classifications, rules, or regulations if it is of the opinion that they are unjust and unreasonable.

"(5) Concurrently with the publication thereof, the Commission shall transmit to the President any order of suspension or final order of disapproval of rates, charges, classifications, rules, or regulations of a controlled carrier subject to the provisions of this subsection. Within ten days after the receipt or the effective date of such Commission order, whichever is later, the President may request the Commission in writing to stay the effect of the Commission's order if he finds that such stay is required for reasons of national defense or foreign policy which reasons shall be specified in the report. Notwithstanding any other provision of law, the Commission shall immediately grant such request by the issuance of an order in which the President's request shall be described. During any such stay, the President shall, whenever practicable, attempt to resolve the matter in controversy by negotiation with representatives of the applicable foreign governments.

"(6) The provisions of this subsection shall not apply to: (i) any controlled carrier of a state whose vessels are entitled by a treaty of the United States to receive national or most-favored-nation treatment; (ii) any controlled carrier of a state which, on the effective date of this subsection, has subscribed to the statement of shipping policy contained in note 1 to annex A of the Code of Liberalization of Current Invisible Operations, adopted by the Council of the Organization for Economic Cooperation and Development; (iii) rates, charges, classifications, rules, or regulations of any controlled carrier in any particular trade which are covered by an agreement approved under section 15 of this Act, other than an agreement in which all of the members are controlled carriers not otherwise excluded from the provisions of this subsection; (iv) rates, charges, classifications, rules, or regulations governing the transportation of cargo by a controlled carrier between the country by whose government it is owned or controlled, as defined herein, and the United States, or any of its districts, territories, or possessions; or (v) a trade served exclusively by controlled carriers.".

SEC. 4. The provisions of this Act, including the amendments made by this Act, shall become effective thirty days after its date of enactment.

Effective date.

(f) The Secretary is directed to develop and implement, as soon as practical, entry point quotas for use of motorboats within the wilderness portions of the lakes listed in subsection c, the quota levels to be based on such criteria as the size and configuration of each lake, and the amount of use on that lake: *Provided*, That the quota established for any one year shall not exceed the average actual annual motorboat use of the calendar years 1976, 1977, and 1978 for each lake, and shall take into account the fluctuation in use during different times of the year: *Provided further*, That on each lake homeowners and their guests and resort owners and their guests on that particular lake shall have access to that particular lake and their entry shall not be counted in determining such use. Motorboat use, entry point quotas.

(g) Nothing in this Act shall be deemed to require the termination of the existing operation of motor vehicles to assist in the transport of boats across the portages from Sucker Lake to Basswood Lake, from Fall Lake to Basswood Lake, and from Lake Vermilion to Trout Lake, during the period ending January 1, 1984. Following said date, unless the Secretary determines that there is no feasible nonmotorized means of transporting boats across the portages to reach the lakes previously served by the portages listed above, he shall terminate all such motorized use of each portage listed above. Boat portages, motorized assistance.

Motorized craft, authorizations.

(h) The motorized uses authorized by this section shall be confined to those types of snowmobiles, motorboats and vehicles which have been in regular use in the Boundary Waters Canoe Area prior to the date of enactment of this Act. Purchase, notice from owner.

SEC. 5. (a) The owner of a resort in commercial operation during 1975, 1976 or 1977 and located on land riparian to any of the lakes listed below may require purchase of that resort, including land and buildings appurtenant thereto, by written notice to the Secretary prior to September 30, 1985. The value of such resort for purposes of such sale shall be based upon its fair market value as of July 1, 1978, or as of the date of said written notice, whichever is greater, without regard to restrictions imposed by this Act:

Fair market value.

Fall, Lake County, Moose, Lake County, Snowbank, Lake County, Lake One, Lake County, Sawbill, Cook County, Brule, Cook County, East Bearskin, Cook County, Clearwater, Cook County, Saganaga, Cook County, Sea Gull, Cook County, McFarland, Cook County, North Fowl, Cook County, South Fowl, Cook County, Jasper Lake, Lake County, Ojibway, Lake County.

TIMBER SALE CONTRACTS

Termination period.

SEC. 6. (a) The Secretary is directed to terminate within a period of one year after the date of passage of this Act, all timber sale contracts in the Boundary Waters Canoe Area Wilderness. There shall be no further logging of the virgin forest areas formerly enjoined from logging by the United States District Court on said contract areas during the termination period.

The purpose of said termination period is only to permit completion of the harvesting of timber within existing areas under contract that are not within the areas described above and permit the taking of ameliorative measures, including land and cover restoration that will, at the earliest feasible date, make the imprint of man's work substantially unnoticeable on the lands included as wilderness in this Act.

Substitution.

(b)(1) In the event that termination of timber sale contracts in subsection (a) reduces the total national forest volume which a purchaser has under contract on the Superior National Forest to less than two years cut based on the average volume of Superior National Forest timber harvested by the purchaser in the last three years, the Secretary may, with the consent of the purchaser, substitute, to the extent practicable, timber on other national forest lands approximately equal in species and volume to the timber sale contract affected. In offering substitute timber, the Secretary shall negotiate the substitution at a price that is mutually equitable considering such factors as species, volume, logging accessibility, and other terms of the agreement.

Compensation.

(2) The United States will pay just compensation for any timber contracts terminated or modified by this Act, consistent with amendment V to the Constitution of the United States. Losses due to costs incurred in directly fulfilling the terms of such contracts shall be paid by the United States. In administering the Superior National Forest, the Secretary is authorized and directed to engage in artificial and natural regeneration, release, site preparation, and other forms of timber production enhancement.

Administrative provisions.

Grants system, cooperation.

(2) The Secretary, in carrying out the requirements in section (c)(1), is authorized and directed to cooperate with the State of Minnesota and its political subdivisions to develop and implement a system of grants, for the development of renewable resources on State, County and private lands. He may also seek the cooperation of other Federal departments and agencies to assure a coordinated approach to renewable resources development.

Appropriation authorizations.

(d) There is authorized to be appropriated, in addition to such sums as may otherwise be appropriated for the Superior National Forest from existing authorities established by law, the following additional sums for the fiscal years 1980 through 1990 inclusive:

(1) to carry out the purposes of subsection 6(c)(1) an additional $8,000,000 annually; and,

(e) Funds appropriated pursuant to this section shall remain available until expended. Authorizations in excess of funds appropriated in a given fiscal year shall remain available for appropriation in subsequent fiscal years.

(f) In addition to those personnel who would otherwise be available, the Secretary is authorized to appoint and fix the compensation (not to exceed that of grade 15 on the General Schedule for Federal employees) of additional full-time personnel for the Superior National Forest to carry out the purposes of this Act.

5 USC 5332 note.

MINING AND MINERAL LEASING IN THE WILDERNESS AND MINING PROTECTION AREA

SEC. 11. (a) In addition to any other applicable prohibition or withdrawal from entry or appropriation under any provision of the Wilderness Act or under any other provision of law, no permit, lease, or other authorization may be issued by any agency or authority of the United States for— Prohibitions.

(1) exploration for, or mining of, minerals owned by the United States within the Boundary Waters Canoe Area Wilderness and Boundary Waters Canoe Area Mining Protection Area; or

(2) exploration for, or mining of minerals within such areas if such activities may affect navigable waters; or

(3) the use of property owned by the United States in relation to any mining of or exploration for minerals in such areas which may materially impair the wilderness qualities of the wilderness area or which may materially impair the natural values and environmental quality of the mining protection area.

The prohibitions contained in this subsection and any withdrawal from entry or appropriation for mining of or exploration for minerals applicable to the Boundary Waters Canoe Area Wilderness and Boundary Waters Canoe Area Mining Protection Area shall not apply to the extent specifically provided in legislation enacted by the United States after the date of enactment of this Act pursuant to a national emergency declared by the President.

(b)(1) Consistent with the prohibitions and other requirements in subsection (a) of this section, no permit, lease, or other authorization shall be issued unless and until—

(A) the Secretary shall have approved a plan that details how mining will be conducted consistent with this Act and with other Federal, State, and local requirements, and that details how the

area will be restored to its original condition or to a substantially equivalent condition, including the estimated cost thereof;

(B) the applicant has posted a bond for performance payable to the United States in an amount determined by the Secretary to be sufficient to assure completion of the reclamation plan if the work had to be performed by the United States;

(C) the applicant shall have obtained all permits, licenses, certifications, and approvals required by Federal, State, or local law; and (iv) the Secretary has determined that no permanent facility will be constructed nor alteration will occur that could render the area incapable of reverting to its original condition or to a substantially equivalent condition.

(2) The provisions of paragraphs (2) and (3) of section 4(d) of the Wilderness Act (78 Stat. 890; 16 U.S.C. 1133(d)(2) and 16 U.S.C. 1133(d)(3)) shall not apply to the area designated herein as the Boundary Waters Canoe Area Wilderness.

Minerals or mineral rights, acquisition.

(c) The Secretary is authorized to acquire any minerals or mineral rights within the wilderness and mining protection area alleged to be owned by persons other than the Federal or State governments in the following manner:

(1) The Secretary first may seek to acquire these minerals or mineral rights by donation. In seeking a donation, the Secretary shall inform the person alleging the ownership interest of the procedures and limitations to be followed in acquisition by purchase as set forth in paragraph (2) below.

(2) If the person alleging the ownership interest does not donate his minerals or mineral rights to either the Federal or State governments, the Secretary is authorized to acquire the rights by purchase, within the limits of funds appropriated for property acquisition in the Superior National Forest, and in an amount appropriately discounted for the following factors if existent in relation to the particular mineral interest:

(A) The original patenting from the Federal public domain was fraudulent. The patenting of lands in the Boundary Waters Canoe Area Wilderness and Boundary Waters Canoe Area Mining Protection Area is prima facie fraudulent if (1) the Act under which the patent was issued was one of the Acts intended to put settlers on the land, such as, but without limitation, the Cash Purchase Act of 1820 (chapter LI, Act of April 24, 1820, 3 U.S. Stat. 566, 567, as amended); the Preemption Act of 1830 (chapter CCVIII, Act of May 29, 1830, 4 U.S. Stat. 420, 421, as amended); the Homestead Act of 1862 (chapter LXXV, Act of May 20, 1862, 12 U.S. Stat. 392–394, as amended); and the Timber and Stone Act (chapter 150, Act of June 3, 1878, 20 U.S. Stat. 88, 89, as amended, particularly by chapter 375, Act of August 4, 1892, 27 U.S. Stat. 348); and (2) the land was patented after 1875 and before the establishment of the Superior National Forest by proclamation on February 13, 1909. The Secretary also shall consider any other evidence of fraud when determining the value of the minerals such as (1) the transfer by the entryman or patentee of whole or partial interests in the property during the patenting process or soon thereafter, (2) the appearance in the chain of title of persons known to have participated in land speculation as land brokers, entrymen, or in other capacities.

(B) The date of separation of the mineral or mineral rights from the surface interest, if the separation occurred after 1927, the year when the courts have determined that the roadless policy was established by the Secretary for the area.

(C) Any other factor, such as restrictions on mining within the area imposed by State or local government, or by operation of treaty.

(d) In the event any legal action or proceeding is instituted by or against the United States in relation to minerals or mineral rights where the patenting is prima facie fraudulent as described in subsection (c) of this section, the Attorney General of the United States shall assert the public's equitable right to constructive or public trusts, or to recover or offset damages including but not limited to those based on the value of land fraudulently acquired plus interest at 6 per centum per annum.

(e) Notwithstanding any requirement of this section, the Secretary shall have authority to acquire within the wilderness or mining protection area designated by this Act, existing mineral interests by donation, purchase, exchange, or through exercise of the power of eminent domain.

(f) There is authorized to be appropriated to the Secretary such sums as may be required to carry out the purposes of this section, to be available until expended. Appropriation authorization.

A copy of all papers filed in the district court shall be served on the Superintendent of the Osage Agency at the time of filing, and said Superintendent is authorized, whenever the protection of the interest of the Osage Indian requires, to appear in the district court. The Superintendent of the Osage Agency or the Secretary of the Interior, whenever he deems the same necessary, may investigate the conduct of executors, administrators, guardians, or other persons having charge of the estate of any minor, incompetent, or deceased Osage Indian. Whenever he shall be of the opinion that the estate is in any manner being dissipated, wasted, or permitted to deteriorate in value by reason of the negligence, carelessness, or incompetency of the executor, administrator, guardian, or other person in charge of the estate, the Superintendent of the Osage Agency or the Secretary is authorized, and it shall be his duty, to report said matter to the district court, take the necessary steps to have such case fully investigated, and prosecute any remedy, either civil or criminal, as the exigencies of the case may require. The costs and expenses of any civil proceedings shall be a charge upon the estate of the Osage Indian or upon the executor, administrator, guardian, or other person in charge of the estate of the Osage Indian and his surety, as the district court shall determine. Every bond of the executor, administrator, guardian, or other person in charge of the estate of any Osage Indian shall be subject to the provisions of this section and shall contain therein a reference hereto: *Provided*, That no guardian shall be appointed for a minor whose parents are living unless the estate of said minor is being wasted or misused by such parents: *Provided further*, That no land shall be sold or alienated under the provisions of this section without approval of the Secretary.".

funds: segregated trust funds; and allotted or inherited land, naming the Secretary of the Interior as trustee. An Osage Indian having a certificate of competency may designate a banking or trust institution as trustee. Said trust shall be revocable and shall make provision for the payment of funeral expenses, expenses of last illness, debts, and an allowance to members of the family dependent on the settlor.

SEC. 7. After passage of this Act, a person not of Osage Indian blood, except a child legally adopted by an Osage Indian in any court of competent jurisdiction and the lineal descendants of such adopted child, subject to the stipulation that such adopted child or his lineal descendants cannot alienate his Osage headright or mineral interest and the devolution thereof is limited to intestacy, will, or inter vivos trust the same as if he were of Osage Indian blood, is prohibited from receiving more than a life estate in an Osage headright interest owned by an Osage Indian, such adopted child or his lineal descendants, whether such interest is received by will, inter vivos trust, or Oklahoma law of intestate succession. Upon the death of such recipient, the Osage headright or mineral interest shall vest in the remaindermen thereof who are of Osage Indian blood, adopted children, and/or lineal descendents of such adopted children designated by the will or inter vivos trust of the deceased Osage Indian, his adopted child, or the lineal descendants of such adopted child. If such instrument does not designate remaindermen thereof who are of Osage Indian blood, adopted children, and/or lineal descendants of such adopted children, or if the deceased died intestate, the Osage headright or mineral interest shall vest in his heirs pursuant to the Oklahoma law of intestate succession, subject to the above limitations. On the death of the non-Osage beneficiary or heir, except in the case of adopted children or lineal descendants of such adopted children, such Osage headright or mineral interest shall vest in the Osage Tribe and the Tribe shall pay the estate of the non-Osage beneficiary or heir the market value of such Osage headright or mineral interest. Payments under this section shall be made from Osage tribal mineral funds authorized to be expended by section 8(b) hereof.

25 USC 331 note.

SEC. 8. (a) Any individual right to share in the Osage mineral estate (commonly referred to as "headright") owned by a person not of Indian blood may not, without the approval of the Secretary of the Interior, be sold, assigned, or transferred. Sale of any such interest shall be subject to the right of the Osage Tribe to purchase it within forty-five days at the highest legitimate price offered the owner thereof.

(b) Prior to the time and tribal mineral income is segregated for distribution to individual headright owners, the Secretary of the Interior, at the request of the Osage Tribal Council, may direct the use of any such income for the purchase of Osage headright interests offered for sale to the Osage Tribe pursuant to this section or vested in the Osage Tribe pursuant to section 7 of this Act.

SECTION 1. QUALIFIED STATUS OF PARTICIPATING PENSION PLANS.

(a) GENERAL RULE.—A participating pension plan shall not be considered to fail to satisfy the requirements of section 401(a) of the Internal Revenue Code of 1954, and shall not be considered to have engaged in a prohibited transaction described in section 503(b) of such Code, merely because—

(1) during the period beginning on July 1, 1978, and ending on June 30, 1982, the plan acquires city indebtedness which meets the applicable requirements of section 2, or

(2) the plan continues to hold any city indebtedness acquired—

(A) pursuant to this Act or Public Law 94-236, or 90 Stat. 238.

(B) before November 26, 1975.

(b) ACQUISITION OF INDEBTEDNESS PURSUANT TO AGREEMENT.—The acquisition of city indebtedness by a participating pension plan under an agreement for the acquisition of city indebtedness meets the applicable requirements of section 2 if—

(1) the agreement is not disapproved by the Secretary under subsection (c), and

(2) the plan certifies to the Secretary (and furnishes to the Secretary and to the appropriate committees of the Congress such supporting information and documentation as the Secretary shall require) that the acquisition—

(A) is made under the agreement, and

(B) meets the applicable requirements of section 2 (determined without regard to the provisions of subsections (b), (c), and (f) of section 2).

(c) SIXTY-DAY PERIOD FOR DISAPPROVAL.—

(1) IN GENERAL.—Before entering into an agreement described in subsection (b), and before acquiring any city indebtedness not covered by such an agreement, the participating pension plan shall notify the Secretary of the proposed agreement or acquisition. If the Secretary determines (not later than 60 days after the date of such submission or such shorter period as the Secretary may establish) that such agreement or acquisition does not meet any requirement of section 2, the Secretary shall disapprove such agreement or acquisition (as the case may be). For purposes of this subsection, an amendment, or a waiver of any provision, of such an agreement shall be treated as a new agreement.

(2) NOTIFICATION.—The Secretary shall, not later than the 10th day after the close of the period applicable under paragraph (1), notify the appropriate committees of the Congress of the determinations he has made with respect to the submission and the reasons on which such determinations were based.

SEC. 2. REQUIREMENTS.

(a) LIMITATIONS ON AMOUNT OF DEBT TO BE ACQUIRED.—

(1) PERCENTAGE LIMITATIONS.—An acquisition of city indebtedness by a participating pension plan does not meet the requirements of this section if—

(A) AGGREGATE LIMIT ON ACQUISITIONS BY CITY PLANS.—In the case of a city plan, the plan acquires any city indebtedness after June 30, 1979, and before the city plans meet the percentage limitation on holdings of city indebtedness applicable under this subparagraph for the 12-month period ending on the most recently preceding June 30. The percentage limitation on holdings of city indebtedness under this subparagraph is not met if the value of city indebtedness held by all city plans exceeds a percentage of the aggregate assets of all city plans equal to—

(i) 40 percent for the 12-month period ending on June 30, 1979,

(ii) 36 percent for the 12-month period ending on June 30, 1980,

(iii) 33 percent for the 12-month period ending on June 30, 1981, and

(iv) 30 percent for the 12-month period ending on June 30, 1982.

(B) LIMIT ON ACQUISITIONS BY EACH CITY PLAN.—In the case of a city plan, the plan acquires any city indebtedness which, when added to other city indebtedness held by such plan, would cause such holdings to exceed 50 percent of the assets of such plan at the time of the acquisition.

(C) LIMIT ON ACQUISITIONS BY STATE PLAN.—In the case of a State plan, the plan acquires any city indebtedness which, when added to other city indebtedness held by such plan, would cause such holdings to exceed 10 percent of the assets of such plan at the time of the acquisition.

(D) DETERMINATIONS OF WHETHER THE PERCENTAGE LIMITATIONS HAVE BEEN MET.—

(i) AGGREGATE LIMIT.—For the purpose of determining whether the percentage limitation on holdings of city indebtedness under subparagraph (A) has been met for any 12-month period described in that subparagraph, the plan shall use the arithmetic mean (expressed as a percentage) of 4 fractions, the numerators of which are the value of city indebtedness held by all city plans as of the close of each calendar quarter within the 12-month period for which the determination is being made and the denominators of which are the value of the assets of all city plans as of the close of each such calendar quarter. If the percentage limitation under subparagraph (A) is not met for a 12-month period on the basis of the 4 fractions for the 4 calendar quarters within that 12-month period, the plan shall make a redetermination for that 12-month period as of the close of the first calendar quarter, if necessary, the second calendar quarter and, if necessary, the third calendar quarter following the 12-month period using the 4 fractions for the 12-month

period and the fraction or fractions for the additional quarter or quarters. If the value of city indebtedness or plan assets is not available for any quarter at the time the determination of the fraction for that quarter is being made, the plan shall use a value derived from interpolations from the most recently available semi-annual valuations.

(ii) PLAN LIMIT.—In making a determination of whether or not an acquisition of city indebtedness meets the requirements of subparagraph (B) or (C), the plan shall make determinations based on the most current data available as to the holdings of city indebtedness and on the basis of the most recently available semiannual valuation of assets of the plan.

(2) METHOD OF VALUATION.—For purposes of this subsection—

(A) city indebtedness is to be valued by the plan at its face value, and

(B) all other assets are to be valued by the plan under methods determined by the Secretary to be consistent with the methods of valuing assets for purposes of section 412 of the Internal Revenue Code of 1954. 26 USC 412.

(b) STANDARDS.—

(1) OVERALL STANDARD.—The overall standard used by the Secretary under this Act in determining whether or not to disapprove an agreement for the acquisition of city indebtedness under section 1(c) shall be the extent to which the acquisition of city indebtedness under the agreement will, in the case of a city plan—

(A) maintain the ability of the city—

(i) to make future contributions to the plan or trust, and

(ii) to satisfy its future obligations to pay pension and retirement benefits to members and beneficiaries of such plan or trust, and

(B) protect the sources of funds to provide retirement benefits for members and beneficiaries of the plan or trust.

(2) FACTORS TO BE TAKEN INTO ACCOUNT.—In determining whether or not to disapprove such an agreement the Secretary shall take into account (among other factors) the terms of the obligations which are to be acquired under the agreement.

(3) FISCAL PARTICIPATION BY PRIVATE SOURCES OR PUBLIC CREDIT MARKETS.—The Secretary shall disapprove any such agreement unless he has received assurances to his satisfaction that there will be significant participation in the acquisition of city indebtedness by the State, an agency of the State, or private sources, or through public credit markets.

(c) REQUIREMENTS WITH RESPECT TO FISCAL CONDITION OF THE CITY.—

(1) SUBSTANTIAL PROGRESS TOWARD A BALANCED BUDGET BY 1982.—An acquisition of city indebtedness by a participating pension plan during any fiscal year beginning after June 30, 1979, does not meet the requirements of this section unless the Secretary has

determined for such fiscal year that the city is making substantial progress toward operating under expense budgets which do not show a deficit.

(2) PRINCIPLES TO BE APPLIED UNDER PARAGRAPH (1).—The Secretary shall make the determination required under paragraph (1) on the basis of—

(A) whether or not the requirements of paragraph (5) of section 103 of the New York City Loan Guarantee Act of 1978 (as such Act is in effect on the date of enactment of this Act) are being met, and

Ante, p. 461.

(B) the annual audited financial statements of the city prepared in accordance with generally accepted accounting principles (including principles applicable to municipal governments which provide for a clear division between operating outlays and revenues on the one hand and capital expenditures and revenues on the other hand) and in accordance with generally accepted auditing standards.

(d) PLANS HAVING NEGATIVE CASH FLOW.—

(1) IN GENERAL.—An acquisition of any city indebtedness by a city plan does not meet the requirements of this section if the plan would have a negative cash flow for the fiscal year of acquisition.

(2) SPECIAL RULES.—For purposes of paragraph (1)—

(A) cash flow shall be determined by the plan for each fiscal year, and also whenever the plan enters into an agreement which must be submitted to the Secretary under section 1(c) (including any amendment of, or waiver under, such an agreement),

(B) cash flow shall be determined in the same manner as provided in paragraph (3) of subsection (e), and

(C) the effect of completed and proposed acquisitions during the plan year on the cash flow shall be taken into account.

(e) REPORTS.—

(1) ANNUAL REPORT BY PLANS ON RECEIPTS, DISBURSEMENTS, HOLDINGS, AND CASH FLOW.—

(A) ANNUAL REPORT.—An acquisition of any city indebtedness by any participating city pension plan does not meet the requirements of this section unless, for each preceding plan year beginning after June 30, 1978, and ending more than 8 months and 15 days before the date of the acquisition, the plan has submitted an annual report which meets the requirements of paragraph (2) to the Secretary and to the appropriate committees of the Congress.

(B) PROJECTED CASH FLOW.—An acquisition of city indebtedness by any participating city pension plan for any plan year does not meet the requirements of this section unless the plan has submitted to the Secretary and to the appropriate committees of the Congress a statement showing the projected cash flow for the plan year.

(2) ANNUAL REPORT BY INDEPENDENT PUBLIC ACCOUNTANT.—An annual report does not meet the requirements of this paragraph unless it—

(A) includes an analysis of compliance by the plan throughout the fiscal year with the requirements of subparagraphs (A) and (B) of subsection (a)(1),

(B) is prepared in accordance with generally accepted accounting principles, and

(C) meets the requirements of paragraph (3) of section 103(a) of the Employee Retirement Income Security Act of 1974, as in effect on the date of enactment of this Act (without regard to the last 4 sentences of subparagraph (A) of that paragraph). 29 USC 1023.

(3) RULES FOR DETERMINING CASH FLOW.—For purposes of paragraph (1)(B), the cash flow—

(A) shall take into account contributions and other income (such as dividends and interest) on the one hand and the payment of benefits and expenses on the other hand, and

(B) shall not take into account items properly chargeable to capital account (such as the proceeds from the sale or redemption of assets), other than—

(i) payment of principal during the period a debt is outstanding,

(ii) payment of principal at maturity or redemption, and

(iii) proceeds from the sale of obligations having a maturity of one year or less at the time of sale.

(f) CITY MUST COMPLY WITH REQUIREMENTS OF SECTION 103(7) OF NEW YORK CITY LOAN GUARANTEE ACT OF 1978.—An acquisition of city indebtedness by a city pension plan for any plan year does not meet the requirements of this section unless, at the time of the acquisition, the Secretary has determined that the requirements of paragraph (7) of section 103 of the New York City Loan Guarantee Act of 1978, as in effect on the date of enactment of this Act, have been met. *Ante*, p. 461.

SEC. 3. NOTIFICATION OF PLANS AND CITY OF ACQUISITIONS WHICH FAIL TO MEET REQUIREMENTS OF THE ACT; REGULATIONS.

(a) NOTIFICATION OF PLANS AND CITY.—

(1) NOTICE OF FAILURE TO MEET REQUIREMENTS.—Whenever the Secretary determines that an acquisition of city indebtedness has not met one of the requirements of section 2, he shall notify the participating plan or plans involved.

(2) NOTICE OF POSSIBLE PROSPECTIVE FAILURE.—The Secretary shall notify each participating pension plan and the city whenever he finds, based on information available to the Secretary, that a future acquisition of city indebtedness will fail to meet the requirements of section 2 because of the requirement of subsection (a)(1)(A) or (c) of that section, and he shall notify the participating pension plan concerned and the city whenever it appears that a future acquisition of city indebtedness by that plan will fail to meet the requirements of section 2 for any other reason.

"(B) Except as provided in subparagraph (G)(ii) of this paragraph, if an air carrier is authorized to provide seasonal round trip service nonstop each way between any two points in the forty-eight contiguous States in interstate air transportation or between any two points in overseas air transportation and if such air carrier fails to provide such service pursuant to published flight schedules at a minimum of five round trips per week during half of the weeks during such season (other than such a season during which service was interrupted by a labor dispute which lasted more than 25 per centum of such season) the last day of which ends on or after the date of enactment of this paragraph and if such service, at a minimum of five round trips per week, has been provided between such points for at least half of the weeks during such season, pursuant to published flight schedules, by no more than one other air carrier, then the Board shall issue a certificate to the first applicant who, within thirty days after the last day of such season, submits an application which certifies that its aircraft meet all requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce and that it is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to this Act.

Final order.

"(C) With respect to any application which is submitted pursuant to subparagraph (A) or (B) of this paragraph, except as provided in subparagraph (G), the Board shall issue a final order granting such certificate within fifteen days of the date of such application.

"(D) Except as provided in subparagraphs (E) and (G)(i) of this paragraph, if an air carrier is authorized by its certificate to provide round trip service nonstop each way between any two points in the forty-eight contiguous States or between any two points in overseas air transportation and if such air carrier fails to provide such service pursuant to published flight schedules at a minimum of five round trips per week for at least thirteen weeks during any twenty-six-week period (other than such a period during which service was interrupted by a labor dispute which lasted more than six weeks) the last day of which ends on or after the date of enactment of this paragraph and if such service, at a minimum of five round trips per week, has been provided between such points for at least thirteen weeks during such twenty-six-week period, pursuant to published flight schedules, by two or more other air carriers, then the Board, subject to subparagraph (F) of this paragraph, shall issue a certificate to the first applicant who, within thirty days after the last day of such twenty-six-week period, submits an application which certifies that its aircraft meet all requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce and that it is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to this Act.

"(E) Except as provided in subparagraph (G)(ii) of this paragraph, if an air carrier is authorized to provide seasonal round trip service nonstop each way between any two points in the forty-eight contiguous States in interstate air transportation or between any two points in overseas air transportation and if such air carrier fails to provide such service pursuant to published flight schedules at a minimum of five round trips per week during half of the weeks during such season (other than such a season during which service was interrupted by a labor dispute which lasted more than 25 per centum of such sea-

son) the last day of which ends on or after the date of enactment of this paragraph and if such service, at a minimum of five round trips per week, has been provided between such points for at least half of the weeks during such season, pursuant to published flight schedules, by two or more other air carriers, then the Board, subject to subparagraph (F) of this paragraph, shall issue a certificate to the first applicant who, within thirty days after the last day of such season, submits an application which certifies that its aircraft meet all requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce and that it is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to this Act.

"(F)(i) Except as provided in subparagraph (G) of this paragraph, with respect to any application which is submitted pursuant to subparagraph (D) or (E) of this paragraph, the Board shall issue a final order granting such certificate within sixty days of the date of such application, unless the Board finds that the issuance of such certificate is inconsistent with the public convenience and necessity. Prior to issuing such final order, the Board shall afford adequate notice and opportunity for interested persons to file appropriate written evidence and argument, but the Board need not hold oral evidentiary hearings. Notice.

"(ii) For purposes of clause (i) of this subparagraph, there shall be a rebuttable presumption that any transportation covered by an application for a certificate submitted pursuant to subparagraph (D) or (E) of this paragraph is consistent with the public convenience and necessity.

"(G)(i) If, after the failure of any air carrier to provide the minimum level of service between any pair of points for the period of time specified in subparagraph (A) or (D) of this paragraph and before the Board receives an application from any applicant for a certificate under such subparagraph to provide air transportation between such points, the Board receives notice from such air carrier that it intends to commence service within thirty days of such notice and to provide a minimum of five round trips per week for thirteen consecutive weeks between such points and the Board has not previously received notice from such air carrier with respect to such points, the Board shall not approve such application for a certificate to provide service between such points during such thirteen-week period based upon such failure, unless such air carrier fails to provide such service during such thirteen-week period. Notice.

"(ii) If, after the failure of any air carrier to provide the minimum level of service between any pair of points for the period of time specified in subparagraph (B) or (E) of this paragraph and before the Board receives an application from any applicant for a certificate under such subparagraph to provide air transportation between such points, the Board receives notice from such air carrier that it intends to commence service within fifteen days of the first day of the next season and to provide a minimum of five round trips per week for the first half of such season between such points and the Board has not previously received notice from such air carrier with respect to such points, the Board shall not approve such application for a certificate to provide service between such points during the first half of such period based upon such failure, unless such air carrier fails to provide such service during the first half of such period.

"(H) (i) Whenever the Board issues a certificate pursuant to subparagraph (A) or (D) of this paragraph, the air carrier receiving such certificate shall commence service pursuant to such certificate within forty-five days of such issuance. If such air carrier fails to commence service within such period, the Board shall revoke such certificate.

Revocation of certificate.

"(ii) Whenever the Board issues a certificate pursuant to subparagraph (B) or (E) of this paragraph to provide seasonal service, the air carrier receiving such certificate shall commence service pursuant to such certificate within fifteen days after the beginning of the first such season which begins on or after the date of such issuance. If such air carrier fails to commence service within such period, the Board shall revoke such certificate.

Revocation of certificate.

"(I) Not more than one certificate shall be issued under this paragraph for round trip nonstop service between two points in interstate air transportation based upon the failure of the same air carrier to provide such service between such points.

"(J) Whenever the Board issues a certificate pursuant to subparagraph (A) of this paragraph based upon the failure of any air carrier to provide the round trip service described in such subparagraph, the Board shall suspend the authority of such air carrier to provide such service, and suspend the authority of any other air carrier which failed to provide such service during the same twenty-six-week period for twenty-six weeks after the date of issuance of such certificate pursuant to subparagraph (A), or until such time within such twenty-six weeks as the air carrier to which a certificate is issued under such subparagraph fails to provide such service at a minimum of five round trips per week for at least thirteen weeks, whichever first occurs, except that the Board shall not suspend the authority of such air carriers under this subparagraph if the Board finds that such suspension is not necessary to encourage continued service between such points by the air carrier which received a certificate under subparagraph (A).".

"(7) (A) After the first business day of each of the calendar years 1979, 1980, and 1981 and before the thirtieth day of such calendar year—

"(i) any air carrier which (I) has operated during the preceding calendar year in accordance with a certificate issued by the Board under this section which has been in force during such entire preceding calendar year, and (II) has provided air transportation of persons during such calendar year; and

"(ii) any intrastate air carrier which has a valid certificate or license issued by a State regulatory authority to engage in intrastate air transportation and which has operated more than one hundred million available seat-miles in intrastate air transportation in the preceding calendar year;

may apply to the Board for a certificate under this subparagraph to engage in nonstop service between any one pair of points in interstate or overseas air transportation (other than a pair of points either point of which is in the State of Hawaii) in addition to any pair of points authorized by any existing certificate or license held by such air carrier or intrastate air carrier, except that no air carrier may apply to engage in nonstop service between such pair of points if any air carrier has filed written notice to the Board pursuant to subparagraph (C) of this paragraph with respect to such pair of points. Not later than the sixtieth day after the date on which the Board receives an application from an applicant under this subparagraph, the Board shall issue a certificate to such applicant for the nonstop service specified in such application, unless within such sixty-day period the Board determines that the applicant is not fit, willing, and able to provide such nonstop service and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board issued under this Act.

"(B) Not later than the one-hundred-twentieth day of calendar year 1979, 1980, or 1981, any air carrier which submitted an application to the Board in accordance with subparagraph (A) of this paragraph in such calendar year and—

may reapply to the Board for a certificate to engage in nonstop service between any one pair of points in interstate or overseas air transportation (other than the pair of points specified in the first application submitted to the Board by such air carrier in such calendar year and other than a pair of points either point of which is in the State of Hawaii) in addition to any pair of points authorized by any existing certificate or license held by such air carrier or intrastate air carrier, except that no air carrier may apply to engage in nonstop service between such pair of points if any air carrier has filed written notice to the Board pursuant to subparagraph (C) of this paragraph with respect to such pair of points. Not later than the sixtieth day after the date on which the Board receives an application under this subparagraph, the Board shall issue a certificate to the applicant for such nonstop service, unless within such sixty-day period the Board makes a determination with respect to the issuance of such certificate in accordance with the second sentence of subparagraph (A) of this paragraph. "(C)(i) Subject to clause (ii) of this subparagraph, any air carrier which is authorized pursuant to paragraph (1) or (2) of this subsection to engage in nonstop service between any pair of points in interstate or overseas air transportation on the first business day of calendar year 1979, 1980, or 1981 and which wants to preclude any other air carrier from obtaining authority under subparagraph (A) or (B) of this paragraph to engage in nonstop service between such pair of points during such calendar year may, on such day, file written notice to the Board which sets forth such pair of points. Upon receipt of any written notice under the preceding sentence, the Board shall make such notice available to the public.

Program modification.

"(D)(i) The Board shall, on an emergency basis, by rule, modify the program established by this paragraph, if the Board finds that—

"(I) the operation of such program is causing substantial public harm to the national air transportation system, or a substantial reduction in air service to small and medium sized communities in any region of the country;

"(II) the modification proposed by the Board is required by the public convenience and necessity in order to alleviate such harm or reduction; and

"(III) such harm or reduction identified by the Board cannot be rectified by any reasonably available means other than the modification proposed by the Board.

Any emergency modification proposed by the Board under this subparagraph shall modify such program only to the minimum extent necessary to rectify the harm or reduction identified by the Board. Any emergency modification of such program may be limited to any pair of points.

"(ii) The findings of fact by the Board in any proceeding held pursuant to this subparagraph, if supported by substantial evidence, shall be conclusive. No objection to a modification of the program proposed by the Board under this subparagraph shall be considered by a court unless such objection shall have been submitted to the Board, of if it was not so submitted, unless there were reasonable grounds for failure to do so.

Study of procedure.

"(E) The Board shall conduct a study of the procedure for certification of air carriers and intrastate air carriers set forth in subparagraphs (A) and (B) of this paragraph to evaluate—

"(i) whether such procedure is consistent with the criteria set forth in section 102 of this Act; and

In any case where the Board has issued a certificate under any one of such subsections on the basis that the air carrier holding such certificate will provide innovative or low-priced air transportation under such certificate, the Board, upon petition, or its own motion, may review the performance of such air carrier, and may alter, amend, modify, suspend, or revoke such certificate or authority in accordance with the procedures prescribed in section 401(g) of this title, on the grounds that such air carrier has not provided, or is not providing, such air transportation.". 49 USC 1371.

"(C) Transportation covered by any application for a certificate described in paragraph (1)(A), (2)(A), or (3)(A) of this subsection shall, for the purposes of such paragraphs, be deemed to be consistent with the public convenience and necessity, unless the Board finds based upon a preponderance of the evidence that such transportation is not consistent with the public convenience and necessity.".

holding a valid certificate issued by the Board under section 401(d) of this section to engage in interstate or overseas air transportation, a foreign air carrier, or a person controlling, controlled by, or under common control with, such an air carrier or a foreign air carrier, the person seeking approval of such transaction shall present an application to the Board, and, at the same time, a copy to the Attorney General and the Secretary of Transportation, and thereupon the Board shall notify the persons involved in the transaction and other persons known to have a substantial interest in the proceeding, of the manner in which the Board will proceed in disposing of such application. Unless, after a hearing, the Board finds that the transaction will not be consistent with the public interest or that the conditions of this section will not be fulfilled, it shall, by order, approve such transaction, upon such terms and conditions as it shall find to be just and reasonable and with such modifications as it may prescribe, except the Board shall not approve such transaction— *Ante*, p. 1712.

"(A) if it would result in a monopoly or would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of air transportation in any region of the United States; or Monopolization.

"(B) the effect of which in any region of the United States may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are outweighed in the public interest by the probable effect of the transaction in meeting significant transportation conveniences and needs of the public, and unless it finds that such significant transportation conveniences and needs may not be satisfied by a reasonably available alternative having materially less anticompetitive effects. Competition.

The party challenging the transaction shall bear the burden of proving the anticompetitive effects of such transaction, and the proponents of the transaction shall bear the burden of proving that it meets the significant transportation conveniences and needs of the public and that such conveniences and needs may not be satisfied by a less anticompetitive alternative.

"(2) In any case in which the Board determines that the transaction which is the subject of the application does not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, and determines that neither the Attorney General, nor the Secretary, nor any other person disclosing a substantial interest in the transaction then currently is requesting a hearing, the Board, no sooner than 30 days after publication in the Federal Register of notice of the Board's intention to dispose of such application without a hearing (a copy of which notice shall be furnished by the Board to the Attorney General and the Secretary not later than the day following the date of such publication), may determine that the public interest does not require a hearing and, in accordance with the standards set forth in subparagraphs (A) and (B) of paragraph (1) of this subsection, by order, approve or disapprove such transaction. Notice. Publication in Federal Register.

"(3)(A) In any case in which none of the parties to a consolidation, merger, purchase, lease, operating contract, or acquisition of control, specified in subsection (a) of this section. is an air carrier holding a valid certificate issued by the Board under section 401(d) of this title to engage in interstate or overseas air transportation, a foreign air carrier, or a person controlling, controlled by, or under common control with, such an air carrier or a foreign air carrier, any person seeking

approval of such transaction shall file with the Board not later than the forty-fifth day before the effective date of such transaction, a statement of its intent to enter into any of the prohibited acts set forth in subsection (a) of this section. The Board may, within forty-five days after the date of such filing, require such person to file an application for approval pursuant to the requirements of paragraph (1) of this subsection if it finds either that the proposed transaction may monopolize, tend to monopolize, or otherwise restrain competition in air transportation in any section of the country or that the person may not be fit, willing, and able to properly perform the transportation authorized by any license which is a part of such transaction and to conform to the provisions of this Act and the rules, regulations, and requirements of the Board issued pursuant to this Act. Subject to subparagraph (B) of this paragraph, if the Board fails to require such person to file an application pursuant to such paragraph (1) within such forty-five days, the proposed transaction shall not be subject to subsection (a) of this section.

Application filing.

"(B) If the Board determines that any transaction is not subject to subsection (a) of this section as a result of the last sentence of subparagraph (A) of this paragraph and such transaction received such statutory exemption due to any fraud, misrepresentation, or omission of relevant and material facts, the Board may, pursuant to rules which it is authorized to prescribe, make such transaction subject to subsection (a) of this section.".

SMALL COMMUNITY AIR SERVICE

SEC. 33. (a) Title IV of the Federal Aviation Act of 1958 is amended by adding at the end thereof the following new section.

"(A) is providing service pursuant to a certificate issued to such carrier under section 401 of this title; or

"(B) is authorized pursuant to such certificate to provide such service, but such service is suspended on such date of enactment.

"(2)(A) With respect to each eligible point which on the date of enactment of this section is served by not more than one air carrier holding a certificate issued under section 401 of this title, not later than the last day of the one-year period beginning on such date of enactment, the Board, after considering the views of any interested community and the State agency of the State in which such community is located, shall determine what is essential air transportation for such point. 49 USC 1371.

"(B) With respect to any eligible point which on the date of enactment of this section is served by more than one air carrier holding a certificate issued under section 401 of this title and which thereafter receives service by not more than one such air carrier, not later than the last day of the six-month period beginning on the date on which the Board receives notice that service to such point will be provided by not more than one such air carrier, the Board, after considering the views of any interested community and the State agency of the State in which such community is located, shall determine what is essential air transportation to such point.

"(C) The Board shall periodically review the determination of what is essential air transportation to each eligible point, and may, based upon such review and consultations with any interested community and the State agency of the State in which such community is located, make appropriate adjustments as to what is essential air transportation to such point. Review.

"(3) No air carrier shall terminate, suspend, or reduce air transportation to any eligible point below the level of essential air transportation established by the Board under paragraph (2) unless such air carrier—

"(A) if such air carrier—

"(i) holds a certificate issued under section 401 of this title, or

"(ii) does not hold such a certificate, but is receiving compensation pursuant to paragraph (5) of this subsection for service to such eligible point,

has given the Board, the appropriate State agency or agencies, and the communities affected at least ninety days notice prior to such termination, suspension, or reduction; and

"(B) if such air carrier does not hold such a certificate and is not receiving compensation pursuant to paragraph (5) of this subsection for service to such eligible point, has given the Board, the appropriate State agency or agencies, and the communities affected at least thirty days notice prior to such termination, suspension, or reduction.

"(4) Whenever the Board determines that essential air transportation will not be provided to any eligible point without compensation—

"(A) the Board shall provide notice that applications may be submitted by any air carrier which is willing to provide essential air transportation to such point for compensation under this subsection. In selecting an applicant to provide essential air transportation to such point for compensation the Board shall, among other factors, specifically consider—

"(i) the desirability of developing an integrated linear system of air transportation whenever such a system most adequately meets the air transportation needs of the communities involved;

"(ii) the experience of the applicant in providing scheduled air service in the vicinity of the communities for which essential air transportation is proposed to be provided; and

"(iii) notwithstanding the provisions of clause (ii), with respect to any eligible point in the State of Alaska, the experience of an applicant in providing scheduled air service, or significant patterns of nonscheduled air service pursuant to an exemption granted pursuant to section 416 of this title, in Alaska; and

"(6) Notwithstanding section 401(j) of this title, if an air carrier has provided notice to the Board under paragraph (3) of such air carrier's intention to suspend, terminate, or reduce service to any eligible point below the level of essential air transportation to such point, and if at the conclusion of the applicable period of notice the Board has not been able to find another air carrier to provide essential air transportation to such point, the Board shall require the carrier which provided such notice to continue such service to such point for an additional 30-day period, or until another air carrier has begun to provide essential air transportation to such point, whichever first occurs. If at the end of such 30-day period the Board determines that no other air carrier can be secured to provide essential air transportation to such eligible point on a continuing basis, either with or without compensation, then the Board shall extend such requirement for such additional 30-day periods (making the same determination at the end of each such period) as may be necessary to continue air transportation to such eligible point until an air carrier can be secured to provide essential air transportation to such eligible point on a continuing basis.

"(7)(A) If any air carrier (i) which is providing air transportation to any eligible point, and (ii) which is receiving compensation under this subsection or under section 406 of this title for providing such air transportation to such point, is required by the Board to continue service to such point beyond the date on which such air carrier would, but for paragraph (6) of this subsection, be able to suspend, terminate, or reduce service to such point below the level of essential air transportation to such point, then after such date such air carrier shall continue to receive such compensation until the Board finds another air carrier to provide essential air transportation to such point.

ments under this subparagraph, to any trunk air carrier for service to such point after the last day of the one-year period beginning on the date on which any payment is made to such air carrier under this subparagraph for service to such point.

"(C) If the Board requires an air carrier which does not hold a certificate issued under section 401 of this title, but which is providing air transportation to any eligible point without compensation pursuant to paragraph (5) of this subsection or section 406 of this title to continue to provide essential air transportation to such point beyond the 30-day notice period after which, but for paragraph (6) of this subsection, such air carrier would be able to suspend, terminate, or reduce service to such point below essential air transportation for such point, then the Board shall compensate such air carrier for any losses that such air carrier incurs in complying with this paragraph after the last day of such 30-day period. 49 USC 1371. 49 USC 1376.

"(9) During any period for which the Board requires any air carrier to continue providing air transportation to an eligible point which such air carrier has proposed to terminate, reduce, or suspend, the Board shall continue to make every effort to secure an air carrier to provide at least essential air transportation to such eligible point, on a continuing basis.

"(10) Unless the Board has determined what is essential air transportation for any eligible point pursuant to paragraph (2) of this subsection, the Board shall, upon petition of any appropriate representative of such point, prohibit any termination, suspension, or reduction of air transportation which reasonably appears to deprive such point of essential air transportation, until the Board has completed such determination. The Board shall grant such application, after notice and a hearing if requested by the air carrier receiving subsidy under section 406, taking into consideration the objectives specified in subparagraphs (A) (i) and (ii) of paragraph (5) of this subsection, if the applicant can show that termination of the compensation being paid under section 406, and that the provision of service by such applicant with compensation under this section, will result in a substantial— Application. "Eligible point."

"(b) (1) For purposes of this subsection, the term 'eligible point' means—

"(A) any point in the United States which has been deleted from a certificate issued under section 401 of this title between July 1, 1968, and the date of enactment of this section, both dates inclusive, and which the Board designates pursuant to paragraph 2 of this subsection; and

"(2) (A) Not later than January 1, 1980, after considering the views of State agencies and other interested parties, the Board shall, by rule, establish objective criteria for designating points as eligible points. In establishing or modifying such criteria, the Board shall consider, among other factors, the level of traffic generated by the point concerned, its future traffic generating potential, the cost to the Federal Government of providing essential air transportation to such point, the alternative means of transportation available to the residents of such point for access to the national transportation system and its principal communities of interest, and the degree of isolation of such point from the national air transportation system. The Board may, from time to time, by rule, modify the criteria established by it under this subparagraph.

Review.

"(B) Not later than January 1, 1980, the Board shall begin to review each point described in paragraph (1)(A) of this subsection to determine whether such point shall be designated as an eligible point under the criteria established under subparagraph (B) of this paragraph. The review and designation of each such point shall be completed before January 1, 1982.

"(C) On or after January 1, 1982, the Board, upon application by any interested party, may designate any point an eligible point under the criteria established under subparagraph (B) of this paragraph (i) if such point is in the State of Alaska or the State of Hawaii, and (ii) if such designation would not increase the total number of points receiving a subsidy under this section and section 406 of this title above the total number of points receiving a subsidy under such section 406 on July 1, 1968.

49 USC 1376.

Withdrawal.

"(3) The designation of any point by the Board under paragraph (2) of this subsection as an eligible point may be withdrawn if the point no longer meets the criteria for designation as an eligible point.

"(4)(A) With respect to any point which the Board designates as an eligible point pursuant to paragraph (2) of this subsection, not later than the last day of the six-month period beginning on the date on which the Board makes such designation, the Board, after considering the views of any interested community and the State agency of the State in which such community is located, shall determine what is essential air transportation to such point. "(ii) the experience of the applicant in providing scheduled air service in the vicinity of the communities for which essential air transportation is proposed to be provided; and

"(iii) notwithstanding the provisions of clause (ii), with respect to any eligible point in the State of Alaska, the experience of an applicant in providing scheduled air service, or significant patterns of nonscheduled air service pursuant to an exemption granted pursuant to section 416 of this title, in Alaska; and 49 USC 1386.

"(ii) does not hold such a certificate, but is receiving compensation pursuant to paragraph (6) of this subsection for service to such eligible point, shall give the Board, the appropriate State agency or agencies, and the communities affected at least ninety days notice prior to such termination, suspension, or reduction; and

"(B) if such air carrier does not hold such a certificate and is not receiving compensation pursuant to paragraph (6) of this subsection for service to such eligible point, shall give the Board,

the appropriate State agency or agencies, and the communities affected such notice (not to exceed 30 days), as the Board shall by regulation prescribe.

The Board shall grant such application, after notice and a hearing if requested by an air carrier receiving compensation under this section, taking into consideration the objectives specified in subparagraphs (A) (i) and (ii) of paragraph (5) of this subsection, if the applicant can show that termination of the compensation being provided to the air carrier then serving such eligible point, and that the provision of essential air transportation for compensation under this subsection by the applicant, will result in a substantial—

Compensation and service, conditions.

"(2) Notwithstanding section 416(b) of this title, the Board shall not provide any compensation under this section to any commuter air carrier to provide service to any eligible point, and the Board shall prohibit any commuter air carrier from providing service to any eligible point, unless the Board determines that such commuter air carrier—

Such safety standards shall become effective not later than the last day of the eighteenth month which begins after such date of enactment and shall impose requirements upon such commuter air carriers to assure that the level of safety provided to persons traveling on such commuter

air carriers is, to the maximum feasible extent, equivalent to the level of safety provided to persons traveling on air carriers which provide service pursuant to certificates issued under section 401 of this title. 49 USC 1371.

"GUIDELINES FOR COMPENSATION

Such guidelines shall include expense elements based upon representative costs of air carriers providing scheduled air transportation of persons, property, and mail, using aircraft of the type determined by the Board to be appropriate for providing essential air transportation to the eligible point. (1) in paragraph (1), by inserting "or (4)" immediately after "paragraph (2)"; and

(2) by adding at the end thereof the following new paragraphs:

Unjust or unreasonable fares, findings.

"(4) The Board shall not have authority to find any fare for interstate or overseas air transportation of persons to be unjust or unreasonable on the basis that such fare is too low or too high if—

"(A) with respect to any proposed increase filed with the Board on or after July 1, 1979 (other than any proposed increase in any fare filed by any air carrier if such proposed fare is for air transportation between any pair of points and such air carrier provides air transportation to 70 per centum or more of the persons traveling in air transportation between such points on aircraft operated by air carriers with certificates issued under section 401 of this Act), such proposed fare would not be more than 5 per centum higher than the standard industry fare level for the same or essentially similar class of service, except that, while no increase of any fare within the limits specified in this subparagraph may be suspended, an increase in such fare, above the standard industry fare level shall be found unlawful if that increase results in a fare which is unduly preferential, unduly prejudicial, or unjustly discriminatory; or

49 USC 1371.

"(B) with respect to any proposed decrease filed after the date of enactment of this paragraph, the proposed fare would not be more than 50 per centum lower than the standard industry fare level for the same or essentially similar class of service, except that this provision shall not apply to any proposed decrease in any fare if the Board determines that such proposed fare would be predatory.

In determining whether any fare for air transportation of persons is unjust or unreasonable on the basis that it is too high, the Board shall take into consideration reasonably estimated or foreseeable future costs and revenues for a reasonably limited future period during which the fare at issue would be in effect.

"(5) In any Board proceeding under paragraph (1) of this subsection with respect to interstate or overseas air transportation of persons, the party opposing any fare or charge on the basis that it is too low shall have the burden of proving that the fare or charge is too low.

"Standard industry fare level."

Adjustments.

"(B) The Board shall, not less than semiannually, adjust each standard industry fare level specified in subparagraph (A) by increasing or decreasing such fare level, as the case may be, by the percentage change from the last previous period in the actual operating cost per available seat-mile for interstate and overseas transportation combined. In determining the standard, the Board shall make no adjustment to costs actually incurred.

Service classes, rules.

"(C) Not later than July 1, 1979, the Board shall issue rules modifying the rules governing those classes of service in existence on July 1, 1977, which classes provide lower fare levels during off-peak periods, so as to expand the period of availability of such classes. The Board shall allow any air carrier to establish additional classes of service in accordance with the objectives of subsection (e) (5) of this section or as may be otherwise consistent with the public interest.

Rule.

"(7) The Board may by rule increase the percentage specified in paragraph (4) (B) of this subsection.

Complaint.

"(8) Whenever a complaint is filed with the Board by a civic party under this subsection alleging that any individual or joint fare or charge demanded, charged, collected, or received for interstate or overseas air transportation is or will be unjustly discriminatory, unduly preferential, unduly prejudicial, or predatory, the Board shall grant, deny, or dismiss such complaint within ninety days after such complaint is filed.".

49 USC 1482.

(b) Subsection (e) of such section 1002 is amended to read as follows:

"RULE OF RATEMAKING

"(e) In exercising and performing its power and duties with respect to determining rates, fares, and charges described in paragraph (1) of subsection (d) of this section, the Board shall take into consideration, among other factors—

AUTHORIZATION FOR ELECTRONIC SURVEILLANCE FOR FOREIGN INTELLIGENCE PURPOSES

50 USC 1802.

SEC. 102. (a)(1) Notwithstanding any other law, the President, through the Attorney General, may authorize electronic surveillance without a court order under this title to acquire foreign intelligence information for periods of up to one year if the Attorney General certifies in writing under oath that—

(A) the electronic surveillance is solely directed at—

(i) the acquisition of the contents of communications transmitted by means of communications used exclusively between or among foreign powers, as defined in section 101(a)(1), (2), or (3); or

(ii) the acquisition of technical intelligence, other than the spoken communications of individuals, from property or premises under the open and exclusive control of a foreign power, as defined in section 101(a) (1), (2), or (3);

(B) there is no substantial likelihood that the surveillance will acquire the contents of any communication to which a United States person is a party; and

(C) the proposed minimization procedures with respect to such surveillance meet the definition of minimization procedures under section 101(h); and

if the Attorney General reports such minimization procedures and any changes thereto to the House Permanent Select Committee on Intelligence and the Senate Select Committee on Intelligence at least thirty days prior to their effective date, unless the Attorney General determines immediate action is required and notifies the committees immediately of such minimization procedures and the reason for their becoming effective immediately.

Report to congressional committees.

(2) An electronic surveillance authorized by this subsection may be conducted only in accordance with the Attorney General's certification and the minimization procedures adopted by him. The Attorney General shall assess compliance with such procedures and shall report such assessments to the House Permanent Select Committee on Intelligence and the Senate Select Committee on Intelligence under the provisions of section 108(a).

Report to congressional committees.

(3) The Attorney General shall immediately transmit under seal to the court established under section 103(a) a copy of his certification. Such certification shall be maintained under security measures established by the Chief Justice with the concurrence of the Attorney General, in consultation with the Director of Central Intelligence, and shall remain sealed unless—

(A) an application for a court order with respect to the surveillance is made under sections 101(h)(4) and 104; or

(B) the certification is necessary to determine the legality of the surveillance under section 106(f).

(4) With respect to electronic surveillance authorized by this subsection, the Attorney General may direct a specified communication common carrier to—

The Government shall compensate, at the prevailing rate, such carrier for furnishing such aid.

DESIGNATION OF JUDGES

Court to hear applications and grant orders. 50 USC 1803.

SEC. 103. (a) The Chief Justice of the United States shall publicly designate seven district court judges from seven of the United States judicial circuits who shall constitute a court which shall have jurisdiction to hear applications for and grant orders approving electronic surveillance anywhere within the United States under the procedures set forth in this Act, except that no judge designated under this subsection shall hear the same application for electronic surveillance under this Act which has been denied previously by another judge designated under this subsection. If any judge so designated denies an application for an order authorizing electronic surveillance under this Act, such judge shall provide immediately for the record a written statement of each reason for his decision and, on motion of the United States, the record shall be transmitted, under seal, to the court of review established in subsection (b).

Court of review.

(b) The Chief Justice shall publicly designate three judges, one of whom shall be publicly designated as the presiding judge, from the United States district courts or courts of appeals who together shall comprise a court of review which shall have jurisdiction to review the denial of any application made under this Act. If such court determines that the application was properly denied, the court shall immediately provide for the record a written statement of each reason for its decision and, on petition of the United States for a writ of certiorari, the record shall be transmitted under seal to the Supreme Court, which shall have jurisdiction to review such decision.

Record of proceedings.

(c) Proceedings under this Act shall be conducted as expeditiously as possible. The record of proceedings under this Act, including applications made and orders granted, shall be maintained under security measures established by the Chief Justice in consultation with the Attorney General and the Director of Central Intelligence.

Tenure.

(d) Each judge designated under this section shall so serve for a maximum of seven years and shall not be eligible for redesignation, except that the judges first designated under subsection (a) shall be designated for terms of from one to seven years so that one term expires each year, and that judges first designated under subsection (b) shall be designated for terms of three, five, and seven years.

APPLICATION FOR AN ORDER

50 USC 1804.

SEC. 104. (a) Each application for an order approving electronic surveillance under this title shall be made by a Federal officer in writing upon oath or affirmation to a judge having jurisdiction under section 103. Each application shall require the approval of the Attorney General based upon his finding that it satisfies the criteria and requirements of such application as set forth in this title. It shall include—

Approval of Attorney General.

(1) the identity of the Federal officer making the application;

(2) the authority conferred on the Attorney General by the President of the United States and the approval of the Attorney General to make the application;

(3) the identity, if known, or a description of the target of the electronic surveillance;

(4) a statement of the facts and circumstances relied upon by the applicant to justify his belief that—

(A) the target of the electronic surveillance is a foreign power or an agent of a foreign power; and

(B) each of the facilities or places at which the electronic surveillance is directed is being used, or is about to be used, by a foreign power or an agent of a foreign power;

(5) a statement of the proposed minimization procedures;

(6) a detailed description of the nature of the information sought and the type of communications or activities to be subjected to the surveillance;

(7) a certification or certifications by the Assistant to the President for National Security Affairs or an executive branch official or officials designated by the President from among those executive officers employed in the area of national security or defense and appointed by the President with the advice and consent of the Senate—

(A) that the certifying official deems the information sought to be foreign intelligence information;

(B) that the purpose of the surveillance is to obtain foreign intelligence information;

(C) that such information cannot reasonably be obtained by normal investigative techniques;

(D) that designates the type of foreign intelligence information being sought according to the categories described in section 101(e); and

(E) including a statement of the basis for the certification that—

(i) the information sought is the type of foreign intelligence information designated; and

(ii) such information cannot reasonably be obtained by normal investigative techniques;

(8) a statement of the means by which the surveillance will be effected and a statement whether physical entry is required to effect the surveillance;

(9) a statement of the facts concerning all previous applications that have been made to any judge under this title involving any of the persons, facilities, or places specified in the application, and the action taken on each previous application;

(10) a statement of the period of time for which the electronic surveillance is required to be maintained, and if the nature of the intelligence gathering is such that the approval of the use of electronic surveillance under this title should not automatically terminate when the described type of information has first been obtained, a description of facts supporting the belief that additional information of the same type will be obtained thereafter; and

(11) whenever more than one electronic, mechanical or other surveillance device is to be used with respect to a particular proposed electronic surveillance, the coverage of the devices involved and what minimization procedures apply to information acquired by each device.

Foreign power, information exclusion.

(b) Whenever the target of the electronic surveillance is a foreign power, as defined in section 101(a) (1), (2), or (3), and each of the facilities or places at which the surveillance is directed is owned, leased, or exclusively used by that foreign power, the application need not contain the information required by paragraphs (6), (7)(E), (8),

and (11) of subsection (a), but shall state whether physical entry is required to effect the surveillance and shall contain such information about the surveillance techniques and communications or other information concerning United States persons likely to be obtained as may be necessary to assess the proposed minimization procedures.

(c) The Attorney General may require any other affidavit or certification from any other officer in connection with the application.

(d) The judge may require the applicant to furnish such other information as may be necessary to make the determinations required by section 105.

ISSUANCE OF AN ORDER

50 USC 1805.

SEC. 105. (a) Upon an application made pursuant to section 104, the judge shall enter an ex parte order as requested or as modified approving the electronic surveillance if he finds that—

(1) the President has authorized the Attorney General to approve applications for electronic surveillance for foreign intelligence information;

(2) the application has been made by a Federal officer and approved by the Attorney General;

(3) on the basis of the facts submitted by the applicant there is probable cause to believe that—

(A) the target of the electronic surveillance is a foreign power or an agent of a foreign power: *Provided*, That no United States person may be considered a foreign power or an agent of a foreign power solely upon the basis of activities protected by the first amendment to the Constitution of the United States; and

(B) each of the facilities or places at which the electronic surveillance is directed is being used, or is about to be used, by a foreign power or an agent of a foreign power;

(4) the proposed minimization procedures meet the definition of minimization procedures under section 101(h); and

(5) the application which has been filed contains all statements and certifications required by section 104 and, if the target is a United States person, the certification or certifications are not clearly erroneous on the basis of the statement made under section 104(a)(7)(E) and any other information furnished under section 104(d).

(b) An order approving an electronic surveillance under this section shall—

(1) specify—

(A) the identity, if known, or a description of the target of the electronic surveillance;

(B) the nature and location of each of the facilities or places at which the electronic surveillance will be directed;

(C) the type of information sought to be acquired and the type of communications or activities to be subjected to the surveillance;

(D) the means by which the electronic surveillance will be effected and whether physical entry will be used to effect the surveillance;

(E) the period of time during which the electronic surveillance is approved; and

(F) whenever more than one electronic, mechanical, or other surveillance device is to be used under the order, the authorized coverage of the devices involved and what minimi-

zation procedures shall apply to information subject to acquisition by each device; and

(2) direct—

(A) that the minimization procedures be followed;

(B) that, upon the request of the applicant, a specified communication or other common carrier, landlord, custodian, or other specified person furnish the applicant forthwith all information, facilities, or technical assistance necessary to accomplish the electronic surveillance in such a manner as will protect its secrecy and produce a minimum of interference with the services that such carrier, landlord, custodian, or other person is providing that target of electronic surveillance;

(C) that such carrier, landlord, custodian, or other person maintain under security procedures approved by the Attorney General and the Director of Central Intelligence any records concerning the surveillance or the aid furnished that such person wishes to retain; and

(D) that the applicant compensate, at the prevailing rate, such carrier, landlord, custodian, or other person for furnishing such aid.

(c) Whenever the target of the electronic surveillance is a foreign power, as defined in section 101(a) (1), (2), or (3), and each of the facilities or places at which the surveillance is directed is owned, leased, or exclusively used by that foreign power, the order need not contain the information required by subparagraphs (C), (D), and (F) of subsection (b)(1), but shall generally describe the information sought, the communications or activities to be subjected to the surveillance, and the type of electronic surveillance involved, including whether physical entry is required.

Approval.

(d)(1) An order issued under this section may approve an electronic surveillance for the period necessary to achieve its purpose, or for ninety days, whichever is less, except that an order under this section shall approve an electronic surveillance targeted against a foreign power, as defined in section 101(a) (1), (2), or (3), for the period specified in the application or for one year, whichever is less.

Extensions of an order.

(2) Extensions of an order issued under this title may be granted on the same basis as an original order upon an application for an extension and new findings made in the same manner as required for an original order, except that an extension of an order under this Act for a surveillance targeted against a foreign power, as defined in section 101(a) (5) or (6), or against a foreign power as defined in section 101(a)(4) that is not a United States person, may be for a period not to exceed one year if the judge finds probable cause to believe that no communication of any individual United States person will be acquired during the period.

Review of circumstances of order or extension.

(3) At or before the end of the period of time for which electronic surveillance is approved by an order or an extension, the judge may assess compliance with the minimization procedures by reviewing the circumstances under which information concerning United States persons was acquired, retained, or disseminated.

(e) Notwithstanding any other provision of this title, when the Attorney General reasonably determines that—

(1) an emergency situation exists with respect to the employment of electronic surveillance to obtain foreign intelligence information before an order authorizing such surveillance can with due diligence be obtained; and

(2) the factual basis for issuance of an order under this title to approve such surveillance exists;

Emergency order.

he may authorize the emergency employment of electronic surveillance if a judge having jurisdiction under section 103 is informed by the Attorney General or his designee at the time of such authorization that the decision has been made to employ emergency electronic surveillance and if an application in accordance with this title is made to that judge as soon as practicable, but not more than twenty-four hours after the Attorney General authorizes such surveillance. If the Attorney General authorizes such emergency employment of electronic surveillance, he shall require that the minimization procedures required by this title for the issuance of a judicial order be followed. In the absence of a judicial order approving such electronic surveillance, the surveillance shall terminate when the information sought is obtained, when the application for the order is denied, or after the expiration of twenty-four hours from the time of authorization by the Attorney General, whichever is earliest. In the event that such application for approval is denied, or in any other case where the electronic surveillance is terminated and no order is issued approving the surveillance, no information obtained or evidence derived from such surveillance shall be received in evidence or otherwise disclosed in any trial, hearing, or other proceeding in or before any court, grand jury, department, office, agency, regulatory body, legislative committee, or other authority of the United States, a State, or political subdivision thereof, and no information concerning any United States person acquired from such surveillance shall subsequently be used or disclosed in any other manner by Federal officers or employees without the consent of such person, except with the approval of the Attorney General if the information indicates a threat of death or serious bodily harm to any person. A denial of the application made under this subsection may be reviewed as provided in section 103.

Denial of application.

(1) test the capability of electronic equipment, if—

(A) it is not reasonable to obtain the consent of the persons incidentally subjected to the surveillance;

(B) the test is limited in extent and duration to that necessary to determine the capability of the equipment;

(B) such electronic surveillance is limited in extent and duration to that necessary to train the personnel in the use of the equipment; and

(C) no contents of any communication acquired are retained or disseminated for any purpose, but are destroyed as soon as reasonably possible.

(g) Certifications made by the Attorney General pursuant to section 102(a) and applications made and orders granted under this title shall be retained for a period of at least ten years from the date of the certification or application.

USE OF INFORMATION

SEC. 106. (a) Information acquired from an electronic surveillance conducted pursuant to this title concerning any United States person may be used and disclosed by Federal officers and employees without the consent of the United States person only in accordance with the minimization procedures required by this title. No otherwise privileged communication obtained in accordance with, or in violation of, the provisions of this title shall lose its privileged character. No information acquired from an electronic surveillance pursuant to this title may be used or disclosed by Federal officers or employees except for lawful purposes.

50 USC 1806.

(b) No information acquired pursuant to this title shall be disclosed for law enforcement purposes unless such disclosure is accompanied by a statement that such information, or any information derived therefrom, may only be used in a criminal proceeding with the advance authorization of the Attorney General.

Statement for disclosure.

(c) Whenever the Government intends to enter into evidence or otherwise use or disclose in any trial, hearing, or other proceeding in or before any court, department, officer, agency, regulatory body, or other authority of the United States, against an aggrieved person, any information obtained or derived from an electronic surveillance of that aggrieved person pursuant to the authority of this title, the Government shall, prior to the trial, hearing, or other proceeding or at a reasonable time prior to an effort to so disclose or so use that information or submit it in evidence, notify the aggrieved person and the court or other authority in which the information is to be disclosed or used that the Government intends to so disclose or so use such information.

(d) Whenever any State or political subdivision thereof intends to enter into evidence or otherwise use or disclose in any trial, hearing, or other proceeding in or before any court, department, officer, agency, regulatory body, or other authority of a State or a political subdivision thereof, against an aggrieved person any information obtained or

derived from an electronic surveillance of that aggrieved person pursuant to the authority of this title, the State or political subdivision thereof shall notify the aggrieved person, the court or other authority in which the information is to be disclosed or used, and the Attorney General that the State or political subdivision thereof intends to so disclose or so use such information.

(e) Any person against whom evidence obtained or derived from an electronic surveillance to which he is an aggrieved person is to be, or has been, introduced or otherwise used or disclosed in any trial, hearing, or other proceeding in or before any court, department, officer, agency, regulatory body, or other authority of the United States, a State, or a political subdivision thereof, may move to suppress the evidence obtained or derived from such electronic surveillance on the grounds that—

(1) the information was unlawfully acquired; or

(2) the surveillance was not made in conformity with an order of authorization or approval.

Such a motion shall be made before the trial, hearing, or other proceeding unless there was no opportunity to make such a motion or the person was not aware of the grounds of the motion.

(f) Whenever a court or other authority is notified pursuant to subsection (c) or (d), or whenever a motion is made pursuant to subsection (e), or whenever any motion or request is made by an aggrieved person pursuant to any other statute or rule of the United States or any State before any court or other authority of the United States or any State to discover or obtain applications or orders or other materials relating to electronic surveillance or to discover, obtain, or suppress evidence or information obtained or derived from electronic surveillance under this Act, the United States district court or, where the motion is made before another authority, the United States district court in the same district as the authority, shall, notwithstanding any other law, if the Attorney General files an affidavit under oath that disclosure or an adversary hearing would harm the national security of the United States, review in camera and ex parte the application, order, and such other materials relating to the surveillance as may be necessary to determine whether the surveillance of the aggrieved person was lawfully authorized and conducted. In making this determination, the court may disclose to the aggrieved person, under appropriate security procedures and protective orders, portions of the application, order, or other materials relating to the surveillance only where such disclosure is necessary to make an accurate determination of the legality of the surveillance.

(g) If the United States district court pursuant to subsection (f) determines that the surveillance was not lawfully authorized or conducted, it shall, in accordance with the requirements of law, suppress the evidence which was unlawfully obtained or derived from electronic surveillance of the aggrieved person or otherwise grant the motion of the aggrieved person. If the court determines that the surveillance was lawfully authorized and conducted, it shall deny the motion of the aggrieved person except to the extent that due process requires discovery or disclosure.

(h) Orders granting motions or requests under subsection (g), decisions under this section that electronic surveillance was not lawfully authorized or conducted, and orders of the United States district court requiring review or granting disclosure of applications, orders, or other materials relating to a surveillance shall be final orders and binding upon all courts of the United States and the several States

except a United States court of appeals and the Supreme Court.

(i) In circumstances involving the unintentional acquisition by an electronic, mechanical, or other surveillance device of the contents of any radio communication, under circumstances in which a person has a reasonable expectation of privacy and a warrant would be required for law enforcement purposes, and if both the sender and all intended recipients are located within the United States, such contents shall be destroyed upon recognition, unless the Attorney General determines that the contents indicate a threat of death or serious bodily harm to any person.

Disposal of contents.

(j) If an emergency employment of electronic surveillance is authorized under section 105(e) and a subsequent order approving the surveillance is not obtained, the judge shall cause to be served on any United States person named in the application and on such other United States persons subject to electronic surveillance as the judge may determine in his discretion it is in the interest of justice to serve, notice of—

(1) the fact of the application;

(2) the period of the surveillance; and

(3) the fact that during the period information was or was not obtained.

On an ex parte showing of good cause to the judge the serving of the notice required by this subsection may be postponed or suspended for a period not to exceed ninety days. Thereafter, on a further ex parte showing of good cause, the court shall forego ordering the serving of the notice required under this subsection.

Postponement or suspension of notice, time limitation.

Joint Resolution

Oct. 25, 1978
[H.J. Res. 1147]

Authorizing and requesting the President to designate the seven-day period beginning on May 28, 1979, as "Vietnam Veterans Week".

Whereas members of the Armed Forces of the United States who served in Southeast Asia during the Vietnam conflict performed such service under the most trying conditions because of the lack of domestic support for the conflict and because of the nature of the conflict itself;

Whereas the battlefield performance of America's soldiers, sailors, marines, and airmen during the Vietnam conflict was by all measures the equal of that of their counterparts in previous conflicts;

Whereas an adverse image has often been unfairly attached to the Vietnam veteran as an individual because of the controversial nature of the Vietnam conflict; and

Whereas the Nation has never fully expressed its gratitude to those who gave a substantial portion of their lives at their Government's request and in the name of the people of the United States to serve in such conflict: Now, therefore, be it

Vietnam Veterans Week. Designation authorization.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President is authorized and requested (1) to issue a proclamation designating the seven-day period beginning on May 28, 1979, as "Vietnam Veterans Week" and calling upon the people of the United States and interested groups and organizations to observe such period with appropriate ceremonies and activities, and (2) to initiate and coordinate appropriate ceremonies and activities within the executive branch for the observance of such period.

Public Law 95-514
95th Congress

An Act

To improve the range conditions of the public rangelands.

Oct. 25, 1978
[H.R. 10587]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Public Rangelands Improvement Act of 1978.
43 USC 1901 note.

SECTION 1. That this Act may be cited as the "Public Rangelands Improvement Act of 1978".

FINDINGS AND DECLARATION OF POLICY

43 USC 1901.

SEC. 2. (a) The Congress finds and declares that—

(1) vast segments of the public rangelands are producing less than their potential for livestock, wildlife habitat, recreation, forage, and water and soil conservation benefits, and for that reason are in an unsatisfactory condition;

(2) such rangelands will remain in an unsatisfactory condition and some areas may decline further under present levels of, and funding for, management;

(3) unsatisfactory conditions on public rangelands present a high risk of soil loss, desertification, and a resultant underproductivity for large acreages of the public lands; contribute significantly to unacceptable levels of siltation and salinity in major western watersheds including the Colorado River; negatively impact the quality and availability of scarce western water supplies; threaten important and frequently critical fish and wildlife habitat; prevent expansion of the forage resource and resulting benefits to livestock and wildlife production; increase surface runoff and flood danger; reduce the value of such lands for recreational and esthetic purposes; and may ultimately lead to unpredictable and undesirable long-term local and regional climatic and economic changes;

(4) the above-mentioned conditions can be addressed and corrected by an intensive public rangelands maintenance, management, and improvement program involving significant increases in levels of rangeland management and improvement funding for multiple-use values;

(5) to prevent economic disruption and harm to the western livestock industry, it is in the public interest to charge a fee for livestock grazing permits and leases on the public lands which is based on a formula reflecting annual changes in the costs of production:

(6) the Act of December 15, 1971 (85 Stat. 649, 16 U.S.C. 1331 et seq.), continues to be successful in its goal of protecting wild free-roaming horses and burros from capture, branding, harrassment, and death, but that certain amendments are necessary thereto to avoid excessive costs in the administration of the Act, and to facilitate the humane adoprion or disposal of excess wild free-roaming horses and burros which because they exceed the carrying capacity of the range, pose a threat to their own habitat, fish, wildlife, recreation, water and soil conservation, domestic livestock grazing, and other rangeland values;

(b) The Congress therefore hereby establishes and reaffirms a national policy and commitment to:

(1) inventory and identify current public rangelands conditions and trends as a part of the inventory process required by section 201(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1711);

(2) manage, maintain and improve the condition of the public rangelands so that they become as productive as feasible for all rangeland values in accordance with management objectives and the land use planning process established pursuant to section 202 of the Federal Land Policy and Management Act (43 U.S.C. 1712);

(3) charge a fee for public grazing use which is equitable and reflects the concerns addressed in paragraph (a)(5) above;

(4) continue the policy of protecting wild free-roaming horses and burros from capture, branding, harassment, or death, while at the same time facilitating the removal and disposal of excess wild free-roaming horses and burros which pose a threat to themselves and their habitat and to other rangeland values;

(c) The policies of this Act shall become effective only as specific statutory authority for their implementation is enacted by this Act or by subsequent legislation, and shall be construed as supplemental to and not in derogation of the purposes for which public rangelands are administered under other provisions of law.

Definitions.
43 USC 1902.

SEC. 3. As used in this Act—

(a) The terms "rangelands" or "public rangelands" means lands administered by the Secretary of the Interior through the Bureau of Land Management or the Secretary of Agriculture through the Forest Service in the sixteen contiguous Western States on which there is domestic livestock grazing or which the Secretary concerned determines may be suitable for domestic livestock grazing.

(b) The term "allotment management plan" is the same as defined in section 103(k) of the Federal Land Policy Management Act of 1976 (43 U.S.C. 1702(k)), except that as used in this Act such term applies to the sixteen contiguous Western States.

(c) The term "grazing permit and lease" means any document authorizing use of public lands or lands in national forests in the sixteen contiguous Western States for the purpose of grazing domestic livestock.

(d) The term "range condition" means the quality of the land reflected in its ability in specific vegetative areas to support various levels of productivity in accordance with range management objectives and the land use planning process, and relates to soil quality, forage values (whether seasonal or year round), wildlife habitat, watershed and plant communities, the present state of vegetation of a range site in relation to the potential plant community for that site, and the relative degree to which the kinds, proportions, and amounts of vegetation in a plant community resemble that of the desired community for that site.

(e) The term "native vegetation" means those plant species, communities, or vegetative associations which are endemic to a given area and which would normally be identified with a healthy and productive range condition occurring as a result of the natural vegetative process of the area.

(f) The term "range improvement" means any activity or program on or relating to rangelands which is designed to improve production of forage; change vegetative composition; control patterns of use; provide water; stabilize soil and water conditions; and provide habitat for livestock and wildlife. The term includes, but is not limited to,

structures, treatment projects, and use of mechanical means to accomplish the desired results.

(g) The term "court ordered environmental impact statement" means any environmental statements which are required to be prepared by the Secretary of the Interior pursuant to the final judgment or subsequent modification thereof as set forth on June 18, 1975, in the matter of Natural Resources Defense Council against Andrus.

(h) The term "Secretary" unless specifically designated otherwise, means the Secretary of the Interior.

(i) The term "sixteen contiguous Western States" means the States of Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington, and Wyoming.

SEC. 4. (a) Following enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall update, develop (where necessary) and maintain on a continuing basis thereafter, an inventory of range conditions and record of trends of range conditions on the public rangelands, and shall categorize or identify such lands on the basis of the range conditions and trends thereof as they deem appropriate. Such inventories shall be conducted and maintained by the Secretary as a part of the inventory process required by section 201(a) of the Federal Land Policy and Management Act (43 U.S.C. 1711), and by the Secretary of Agriculture in accordance with section 5 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1603); shall be kept current on a regular basis so as to reflect changes in range conditions; and shall be available to the public. 43 USC 1903. Public availability.

(b) The Secretary shall manage the public rangelands in accordance with the Taylor Grazing Act (43 U.S.C. 315–315(o)), the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701–1782), and other applicable law consistent with the public rangelands improvement program pursuant to this Act. Except where the land use planning process required pursuant to section 202 of the Federal Land Policy and Management Act (43 U.S.C. 1712) determines otherwise or the Secretary determines, and sets forth his reasons for this determination, that grazing uses should be discontinued (either temporarily or permanently) on certain lands, the goal of such management shall be to improve the range conditions of the public rangelands so that they become as productive as feasible in accordance with the rangeland management objectives established through the land use planning process, and consistent with the values and objectives listed in sections 2 (a) and (b)(2) of this Act.

RANGE IMPROVEMENT FUNDING

SEC. 5. (a) In order to accomplish the purposes of this Act, there are hereby authorized to be appropriated the sum of an additional $15,000,000 annually in fiscal years 1980 through 1982; for fiscal years 1983 through 1986 an amount no less than the amount authorized for 1982; and for fiscal years 1987 through 1999 an amount not less than $5,000,000 annually more than the amount authorized for fiscal year 1986. Such funds shall be in addition to any range, wildlife, and soil and water management moneys which have been requested by the Appropriation authorization. 43 USC 1904.

43 USC 1748.

Secretary under the provisions of section 318 of the Federal Land Policy and Management Act, and in addition to the moneys which are available for range improvements under section 401 of the Federal Land Policy and Management Act (43 U.S.C. 1751).

No more than 15 per centum of such funds provided herein shall be used to hire and train such experienced and qualified personnel as are necessary to implement on-the-ground supervision and enforcement of the land use plans required pursuant to section 202 of the Federal Land Policy and Management Act (43 U.S.C. 1712) and such allotment management plans as may be developed. Such funds shall be distributed as the Secretary deems advisable after careful and considered consultation and coordination, including public hearings and meetings where appropriate, with the district grazing advisory boards established pursuant to section 403 of the Federal Land Policy and Management Act (43 U.S.C. 1753), and the advisory councils established pursuant to section 309 of the Federal Land Policy and Management Act (43 U.S.C. 1739), range user representatives, and other interested parties. 43 USC 1905.

SEC. 6. (a) For the grazing years 1979 through 1985, the Secretaries of Agriculture and Interior shall charge the fee for domestic livestock grazing on the public rangelands which Congress finds represents the economic value of the use of the land to the user, and under which Congress finds fair market value for public grazing equals the $1.23 base established by the 1966 Western Livestock Grazing Survey multiplied by the result of the Forage Value Index (computed annually from data supplied by the Economic Research Service) added to the Combined Index (Beef Cattle Price Index minus the Price Paid Index) and divided by 100: *Provided*, That the annual increase or decrease in such fee for any given year shall be limited to not more than plus or minus 25 per centum of the previous year's fee.

SEC. 7. (a) Section 402(b)(3) of the Federal Land Policy and Management Act (43 U.S.C. 1752) is amended by striking the period at the end of the proviso and adding ": *Provided further*, That the absence of completed land use plans or court ordered environmental statements shall not be the sole basis for establishing a term shorter than ten years unless the Secretary determines on a case-by-case basis that the information to be contained in such land use plan or court ordered environmental impact statement is necessary to determine whether a shorter term should be established for any of the reasons set forth in items (1) through (3) of this subsection.".

(b) Section 402(a) of the Federal Land Policy and Management Act is hereby amended by substituting the word "sixteen" for the word "eleven" before the words "contiguous Western States".

(a) by changing subsection (d) to read as follows:

"(d) All permits and leases for domestic livestock grazing issued pursuant to this section may incorporate an allotment management plan developed by the Secretary concerned. However, nothing in this subsection shall be construed to supersede any requirement for completion of court ordered environmental impact statements prior to development and incorporation of allotment management plans. If the Secretary concerned elects to develop an allotment management plan for a given area, he shall do so in careful and considered consultation, cooperation and coordination with the lessees, permittees, and landowners involved, the district grazing advisory boards established pursuant to section 403 of the Federal Land Policy and Management Act (43 U.S.C. 1753), and any State or States having lands within the area to be covered by such allotment management plan. Allotment management plans shall be tailored to the specific range condition of the area to be covered by such plan, and shall be reviewed on a periodic basis to determine whether they have been effective in improving the range condition of the lands involved or whether such lands can be better managed under the provisions of subsection (e) of this section. The Secretary concerned may revise or terminate such plans or develop new plans from time to time after such review and careful and considered consultation, cooperation and coordination with the parties involved. Such program shall explore innovative grazing management policies and systems which might provide incentives to improve range conditions. These may include, but need not be limited to—

(1) cooperative range management projects designed to foster a greater degree of cooperation and coordination between the Federal and State agencies charged with the management of the rangelands and with local private range users,

Inventory and determinations.

SEC. 14. (a) Subsections 3 (b), (c), and (d) of the Act of December 15, 1971 (85 Stat. 649; 16 U.S.C. 1333(b)(3)) are hereby amended to read as follows:

"(b)(1) The Secretary shall maintain a current inventory of wild free-roaming horses and burros on given areas of the public lands. The purpose of such inventory shall be to: make determinations as to whether and where an overpopulation exists and whether action should be taken to remove excess animals; determine appropriate management levels of wild free-roaming horses and burros on these areas of the public lands; and determine whether appropriate management levels should be achieved by the removal or destruction of excess animals, or other options (such as sterilization, or natural controls on

population levels). In making such determinations the Secretary shall consult with the United States Fish and Wildlife Service, wildlife agencies of the State or States wherein wild free-roaming horses and burros are located, such individuals independent of Federal and State government as have been recommended by the National Academy of Sciences, and such other individuals whom he determines have scientific expertise and special knowledge of wild horse and burro protection, wildlife management and animal husbandry as related to rangeland management. Such action shall be taken, in the following order and priority, until all excess animals have been removed so as to restore a thriving natural ecological balance to the range, and protect the range from the deterioration associated with overpopulation: Overpopulation. 43 USC 1712.

"(A) The Secretary shall order old, sick, or lame animals to be destroyed in the most humane manner possible;

"(B) The Secretary shall cause such number of additional excess wild free-roaming horses and burros to be humanely captured and removed for private maintenance and care for which he determines an adoption demand exists by qualified individuals, and for which he determines he can assure humane treatment and care (including proper transportation, feeding, and handling): *Provided*, That, not more than four animals may be adopted per year by any individual unless the Secretary determines in writing that such individual is capable of humanely caring for more than four animals, including the transportation of such animals by the adopting party; and

"(C) The Secretary shall cause additional excess wild free-roaming horses and burros for which an adoption demand by qualified individuals does not exist to be destroyed in the most humane and cost efficient manner possible.

"(3) For the purpose of furthering knowledge of wild horse and burro population dynamics and their interrelationship with wildlife, forage and water resources, and assisting him in making his determination as to what constitutes excess animals, the Secretary shall contract for a research study of such animals with such individuals independent of Federal and State government as may be recommended by the National Academy of Sciences for having scientific expertise and special knowledge of wild horse and burro protection, wildlife management and animal husbandry as related to rangeland management. The terms and outline of such research study shall be determined by a research design panel to be appointed by the President of the Research study.

Submittal to Congress.

National Academy of Sciences. Such study shall be completed and submitted by the Secretary to the Senate and House of Representatives on or before January 1, 1983.

Title, application.

"(d) Wild free-roaming horses and burros or their remains shall lose their status as wild free-roaming horses or burros and shall no longer be considered as falling within the purview of this Act—

"(1) upon passage of title pursuant to subsection (c) except for the limitation of subsection (c)(1) of this section; or

"(2) if they have been transferred for private maintenance or adoption pursuant to this Act and die of natural causes before passage of title; or

"(3) upon destruction by the Secretary or his designee pursuant to subsection (b) of this section; or

"(4) if they die of natural causes on the public lands or on private lands where maintained thereon pursuant to section 4 and disposal is authorized by the Secretary or his designee; or

An Act

To regulate interstate commerce with respect to parimutuel wagering on horseracing, to maintain the stability of the horseracing industry, and for other purposes.

Oct. 25, 1978
[S. 1185]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, This Act may be cited as the "Interstate Horseracing Act of 1978".

Interstate Horseracing Act of 1978.
15 USC 3001 note.

FINDINGS AND POLICY

15 USC 3001.

SEC. 2. (a) The Congress finds that—

(1) the States should have the primary responsibility for determining what forms of gambling may legally take place within their borders;

(2) the Federal Government should prevent interference by one State with the gambling policies of another, and should act to protect identifiable national interests; and

(3) in the limited area of interstate off-track wagering on horseraces, there is a need for Federal action to ensure States will continue to cooperate with one another in the acceptance of legal interstate wagers.

(b) It is the policy of the Congress in this Act to regulate interstate commerce with respect to wagering on horseracing, in order to further the horseracing and legal off-track betting industries in the United States.

PROHIBITION

SEC. 4. No person may accept an interstate off-track wager except as provided in this Act. 15 USC 3003.

REGULATION

SEC. 5. (a) An interstate off-track wager may be accepted by an off-track betting system only if consent is obtained from— 15 USC 3004.

(1) the host racing association, except that—

(A) as a condition precedent to such consent, said racing association (except a not-for-profit racing association in a State where the distribution of off-track betting revenues in that State is set forth by law) must have a written agreement with the horsemen's group, under which said racing association may give such consent, setting forth the terms and conditions relating thereto; provided,

(B) that where the host racing association has a contract with a horsemen's group at the time of enactment of this Act which contains no provisions referring to interstate off-track betting, the terms and conditions of said then-existing contract shall be deemed to apply to the interstate off-track wagers and no additional written agreement need be entered into unless the parties to such then-existing contract agree otherwise. Where such provisions exist in such existing contract, such contract shall govern. Where written consents exist at the time of enactment of this Act between an off-track betting system and the host racing association providing for interstate off-track wagers, or such written consents are executed by these parties prior to the expiration of such then-existing contract, upon the expiration of such then-existing contract the written agreement of such horsemen's group shall thereafter be required as such condition precedent and as a part of the regular contractual process, and may not be withdrawn or varied except in the regular contractual process. Where no such written consent exists, and where such written agreement occurs at a racing association which has a regular contractual process with such horsemen's group, said agreement by the horsemen's group may not be withdrawn or varied except in the regular contractual process;

(2) the host racing commission;

(3) the off-track racing commission.

(b)(1) In addition to the requirement of subsection (a), any off-track betting office shall obtain the approval of—

(A) all currently operating tracks within 60 miles of such off-track betting office; and

(B) if there are no currently operating tracks within 60 miles then the closest currently operating track in an adjoining State.

(2) Notwithstanding the provisions of paragraph (1) of this subsection, any off-track betting office in a State with at least 250 days of on-track parimutuel horseracing a year, may accept interstate off-track wagers for a total of 60 racing days and 25 special events a year without the approval required by paragraph (1), if with respect to such 60 racing days, there is no racing of the same type at the same time of day being conducted within the off-track betting State within 60 miles of the off-track betting office accepting the wager, or such racing pro-

gram cannot be completed. Excluded from such 60 days and from the consent required by subsection (b)(1) may be dark days which occur during a regularly scheduled race meeting in said off-track betting State. In order to accept any interstate off-track wager under the terms of the preceding sentence the off-track betting office shall make identical offers to any racing association described in subparagraph (A) of subsection (b)(1). Nothing in this subparagraph shall be construed to reduce or eliminate the necessity of obtaining all the approvals required by subsection (a).

(c) No parimutuel off-track betting system may employ a takeout for an interstate wager which is greater than the takeout for corresponding wagering pools of off-track wagers on races run within the off-track State except where such greater takeout is authorized by State law in the off-track State.

LIABILITY AND DAMAGES

15 USC 3005.

SEC. 6. Any person accepting any interstate off-track wager in violation of this Act shall be civilly liable for damages to the host State, the host racing association and the horsemen's group. Damages for each violation shall be based on the total of off-track wagers as follows:

(1) If the interstate off-track wager was of a type accepted at the host racing association, damages shall be in an amount equal to that portion of the takeout which would have been distributed to the host State, host racing association and the horsemen's group, as if each such interstate off-track wager had been placed at the host racing association.

(2) If such interstate off-track wager was of a type not accepted at the host racing association, the amount of damages shall be determined at the rate of takeout prevailing at the off-track betting system for that type of wager and shall be distributed according to the same formulas as in paragraph (1) above.

CIVIL ACTION

15 USC 3006.

SEC. 7. (a) The host State, the host racing association, or the horsemen's group may commence a civil action against any person alleged to be in violation of this Act, for injunctive relief to restrain violations and for damages in accordance with section 6.

(b) In any civil action under this section, the host State, the host racing association and horsemen's group, if not a party, shall be permitted to intervene as a matter of right.

(c) A civil action may not be commenced pursuant to this section more than 3 years after the discovery of the alleged violation upon which such civil action is based.

(d) Nothing in this Act shall be construed to permit a State to be sued under this section other than in accordance with its applicable laws.

JURISDICTION AND VENUE

15 USC 3007.

SEC. 8. (a) Notwithstanding any other provision of law, the district courts of the United States shall have jurisdiction over any civil action under this Act, without regard to the citizenship of the parties or the amount in controversy.

(b) A civil action under this Act may be brought in any district court of the United States for a district located in the host State or the off-track State, and all process in any such civil action may be served in any judicial district of the United States.

(c) The jurisdiction of the district courts of the United States pursuant to this section shall be concurrent with that of any State court of competent jurisdiction located in the host State or the off-track State.

EFFECTIVE DATE; APPLICABILITY

SEC. 9. (a) The provisions of this Act shall take effect on the date of enactment of this Act, and, except as provided in subsection (b) of this section, shall apply to any interstate off-track wager accepted on or after such date of enactment. 15 USC 3001 note.

(b)(1) The provisions of this Act shall not apply to any interstate off-track wager which is accepted pursuant to a contract existing on May 1, 1978.

(2) The provisions of this Act shall not apply to any form of legal non-parimutuel off-track betting existing in a State on May 1, 1978.

(3) The provisions of subsection (b) of section 5 of this Act shall not apply to any parimutuel off-track betting system existing on May 1, 1978, in a State which does not conduct parimutuel horseracing on the date of enactment of this Act.

(vi) except for communications which solely consist of requests for distributions of cash or other unspecified assets of the trust, there shall be no direct or indirect communication between the trustee and an interested party with respect to the trust unless such communication is in writing and unless it relates only (I) to the general financial interest and needs of the interested party (including, but not limited to, an interest in maximizing income or long-term capital gain), (II) to the notification of the trustee of a law or regulation subsequently applicable to the reporting individual which prohibits the interested party from holding an asset, which notification directs that the asset not be held by the trust, or (III) to directions to the trustee to sell all of an asset initially placed in the trust by an interested party which in the determination of the reporting individual creates a conflict of interest or the appearance thereof due to the subsequent assumption of duties by the reporting individual (but nothing herein shall require any such direction); and

(vii) the interested parties shall make no effort to obtain information with respect to the holdings of the trust, including obtaining a copy of any trust tax return filed or any information relating thereto except as otherwise provided in this subsection.

(2) If the Director of the Office of Government Ethics, Secretary concerned, or designated agency official, after reviewing any report under subsection (a)—

(A) believes additional information is required to be submitted, he shall notify the individual submitting such report what additional information is required and the time by which it must be submitted, or

(B) is of the opinion, on the basis of information submitted, that the individual is not in compliance with applicable laws and regulations, he shall notify the individual, afford him a reasonable opportunity for a written or oral response, and after consideration of such response, reach an opinion as to whether or not, on the basis of information submitted, the individual is in compliance with such laws and regulations.

(3) If the Director of the Office of Government Ethics, Secretary concerned, or designated agency official reaches an opinion under para-

graph (2)(B) that an individual is not in compliance with applicable laws and regulations, he shall notify the individual of that opinion and, after an opportunity for personal consultation (if practicable), determine and notify the individual of which steps, if any, would in his opinion be appropriate for assuring compliance with such laws and regulations and the date by which such steps should be taken. Such steps may include, as appropriate—

(B) restitution,

(C) the establishment of a blind trust,

(D) request for an exemption under section 208 (b) of title 18, United States Code, or

(7) For purposes of assisting employees in avoiding situations in which they would not be in compliance with applicable laws and regulations, each Secretary concerned and designated agency official (including the President in the case of the individuals employed in the Executive Office of the President) shall maintain a list of those circumstances or situations which have resulted or may result in noncompliance with such laws or regulations. Such list shall be periodically published, and shall be furnished to those individuals employed within the agency who are required to file reports under this title. The absence of any situation or circumstance from such a list shall not be construed as an indication that an individual in such circumstance or situation would be in compliance with such laws or regulations.

(8) The preceding provisions of this subsection shall not apply in the case of the President or Vice President, or a candidate or nominee for such office.

GENERAL FINDINGS

15 USC 3101.

SEC. 2. (a) The Congress finds that the Nation has suffered substantial unemployment and underemployment, idleness of other productive resources, high rates of inflation, and inadequate productivity growth, over prolonged periods of time, imposing numerous economic and social costs on the Nation. Such costs include the following:

(1) The Nation is deprived of the full supply of goods and services, the full utilization of labor and capital resources, and the related increases in economic well-being that would occur under conditions of genuine full employment, production, and real income, balanced growth, a balanced Federal budget, and the effective control of inflation.

(2) The output of goods and services is insufficient to meet pressing national priorities.

(3) Workers are deprived of the job security, income, skill development, and productivity necessary to maintain and advance their standards of living.

(4) Business and industry are deprived of the production, sales, capital flow, and productivity necessary to maintain adequate profits, undertake new investment, create jobs, compete internationally, and contribute to meeting society's economic needs. These problems are especially acute for smaller businesses. Variations in the business cycle and low-level operations of the economy are far more damaging to smaller businesses than to larger business concerns because smaller businesses have fewer available resources, and less access to resources, to withstand nationwide economic adversity. A decline in small business enterprises contributes to unemployment by reducing employment opportunities and contributes to inflation by reducing competition.

(5) Unemployment exposes many families to social, psychological, and physiological costs, including disruption of family life, loss of individual dignity and self-respect, and the aggravation of physical and psychological illnesses, alcoholism and drug abuse, crime, and social conflicts.

(6) Federal, State, and local government budgets are undermined by deficits due to shortfalls in tax revenues and in increases in expenditures for unemployment compensation, public assistance, and other recession-related services in the areas of criminal justice, alcoholism and drug abuse, and physical and mental health.

(b) The Congress further finds that:

(1) High unemployment may contribute to inflation by diminishing labor training and skills, underutilizing capital resources, reducing the rate of productivity advance, increasing unit labor costs, and reducing the general supply of goods and services.

(2) Aggregate monetary and fiscal policies alone have been unable to achieve full employment and production, increased real income, balanced growth, a balanced Federal budget, adequate productivity growth, proper attention to national priorities, achievement of an improved trade balance, and reasonable price stability, and therefore must be supplemented by other measures designed to serve these ends.

(3) Attainment of these objectives should be facilitated by setting explicit short-term and medium-term economic goals, and by improved coordination among the President, the Congress, and the Board of Governors of the Federal Reserve System.

(4) Increasing job opportunities and full employment would greatly contribute to the elimination of discrimination based upon sex, age, race, color, religion, national origin, handicap, or other improper factors.

(c) The Congress further finds that an effective policy to promote full employment and production, increased real income, balanced growth, a balanced Federal budget, adequate productivity growth, proper attention to national priorities, achievement of an improved trade balance, and reasonable price stability should (1) be based on the development of explicit economic goals and policies involving the President, the Congress, and the Board of Governors of the Federal Reserve System, with maximum reliance on the resources and ingenuity of the private sector of the economy, (2) include programs specifically designed to reduce high unemployment due to recessions, and to reduce structural unemployment within regional areas and among particular labor force groups, and (3) give proper attention to the role of increased exports and improvement in the international competitiveness of agriculture, business, and industry in providing productive employment opportunities and achieving an improved trade balance.

(d) The Congress further finds that full employment and production, increased real income, balanced growth, a balanced Federal budget, adequate productivity growth, proper attention to national priorities, achievement of an improved trade balance through increased exports and improvement in the international competitiveness of agriculture, business, and industry, and reasonable price stability are important national requirements and will promote the economic security and well-being of all citizens of the Nation.

(e) The Congress further finds that the United States is part of an interdependent world trading and monetary system and that attainment of the requirements specified in subsection (d) is dependent upon policies promoting a free and fair international trading system and a sound and stable international monetary system.

REPORT

SEC. 3. Not later than one year after the date of enactment of this Act, the Committee on Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives each shall conduct a study and submit a report, including findings and recommendations, to the Committee on Rules and Administration of the Senate and the Committee on Rules of the House, respectively, on the subject of establishing a full employment goal in connection with the provisions of this Act.

Full employment goal, study.

NATIONAL EMPLOYMENT CONFERENCE

SEC. 4. (a) A national Employment Conference may be convened in the District of Columbia within a reasonable period of time after the date of enactment of the Full Employment and Balanced Growth Act of 1978. Responsibility for the organization and implementation of this conference shall rest with the President or the appropriate department or agency of the Federal Government, and the conference shall bring together leaders of small and larger business, labor, government, and all other interested parties.

Convening and organization.
15 USC 3103.

(b) The subject of the conference shall be employment, with particular attention to structural unemployment and the plight of disadvantaged youth. The conference shall also focus on issues such as

implementation of adequate and effective incentives for private sector employers to hire the hard-core unemployed. Special attention shall be given to the creation of jobs through the use of targeted employment tax credits, wage vouchers, and other incentives to private sector businesses.

TITLE I—ESTABLISHMENT OF GOALS AND GENERAL ECONOMIC POLICIES

STATEMENT OF PURPOSE

15 USC 1021 note.

SEC. 101. It is the purpose of this title—

(1) to declare the general policies of this Act;

(2) to provide an open process under which economic goals and policies are proposed, reviewed, and established;

(3) to provide for yearly review of national economic policies to ensure their consistency with these goals to the maximum extent possible; and

(4) to strengthen and supplement the purposes and policies of the Employment Act of 1946.

15 USC 1021 note.

DECLARATION OF POLICY

15 USC 1021.

SEC. 102. Section 2 of the Employment Act of 1946 is amended to read as follows:

"SEC. 2. (a) The Congress hereby declares that it is the continuing policy and responsibility of the Federal Government to use all practicable means, consistent with its needs and obligations and other essential national policies, and with the assistance and cooperation of both small and larger businesses, agriculture, labor, and State and local governments, to coordinate and utilize all its plans, functions, and resources for the purpose of creating and maintaining, in a manner calculated to foster and promote free competitive enterprise and the general welfare, conditions which promote useful employment opportunities, including self-employment, for those able, willing, and seeking to work, and promote full employment and production, increased real income, balanced growth, a balanced Federal budget, adequate productivity growth, proper attention to national priorities, achievement of an improved trade balance through increased exports and improvement in the international competitiveness of agriculture, business, and industry, and reasonable price stability as provided in section 5(b) of this Act.

Post, p. 1895.

"(b) The Congress further declares and establishes as a national goal the fulfillment of the right to full opportunities for useful paid employment at fair rates of compensation of all individuals able, willing, and seeking to work.

"(c) The Congress further declares that inflation is a major national problem requiring improved government policies relating to food, energy, improved and coordinated fiscal and monetary management, the reform of outmoded rules and regulations of the Federal Government, the correction of structural defects in the economy that prevent or seriously impede competition in private markets, and other measures to reduce the rate of inflation.

"(d) The Congress further declares that it is the purpose of the Full Employment and Balanced Growth Act of 1978 to improve the coordination and integration of the policies and programs of the Federal Government toward achievement of the objectives of such

Ante, p. 1887.

Act through better management, increased efficiency, and attention to long-range as well as short-range problems and to balancing the Federal budget.

"(e) The Congress further declares that, although it is the purpose under the Full Employment and Balanced Growth Act of 1978 to seek diligently and to encourage the voluntary cooperation of the private sector in helping to achieve the objectives of such Act, no provisions of such Act or this Act shall be used, with respect to any portion of the private sector of the economy, to provide for Federal Government control of production, employment, allocation of resources, or wages and prices, except to the extent authorized under other Federal laws. *Ante*, p. 1887.

"(f) The Congress further declares that it is the purpose of the Full Employment and Balanced Growth Act of 1978 to maximize and place primary emphasis upon the expansion of private employment, and all programs and policies under such Act shall be in accord with such purpose. Toward this end, the effort to expand jobs to the full employment level shall be in this order of priority to the extent consistent with balanced growth—

"(1) expansion of conventional private jobs through improved use of general economic and structural policies, including measures to encourage private sector investment and capital formation;

"(2) expansion of private employment through Federal assistance in connection with the priority programs in such Act;

"(3) expansion of public employment other than through the provisions of section 206 of such Act; and *Post*, p. 1902.

"(4) when recommended by the President under section 206 of such Act and subject to the limitations in such section, the creation of employment through the methods set forth in such section.

"(g) The Congress further declares that trade deficits are a major national problem requiring a strong national export policy including improved Government policies relating to the promotion, facilitation, and financing of commercial and agricultural exports, Government policies designed to reduce foreign barriers to exports through international negotiation and agreement, Federal support for research, development, and diffusion of new technologies to promote innovation in agriculture, business, and industry, the elimination or modification of Government rules or regulations that burden or disadvantage exports and the national and international competitiveness of agriculture, business, and industry, the reexamination of antitrust laws and policies when necessary to enable agriculture, business, and industry to meet foreign competition in the United States and abroad, and the achievement of a free and fair international trading system and a sound and stable international monetary order.

"(h) The Congress further declares that it is the purpose of the Full Employment and Balanced Growth Act of 1978 to achieve a balanced Federal budget consistent with the achievement of the medium-term goals specified in section 4. *Post*, p. 1893.

"(i) The Congress further declares that it is the continuing policy and responsibility of the Federal Government, in cooperation with State and local governments, to use all practical means consistent with other essential considerations of national policy to provide sufficient incentives to assure meeting the investment needs of private enterprise, including the needs of small and medium sized businesses, in order to increase the production of goods, the provision of services, employment, the opportunity for profit, the payment of taxes, and to

reduce and control inflation. To the extent it is reasonably possible to do so, private enterprise investments in depressed urban and rural areas should be promoted to reduce the high levels of unemployment that exist there.

"(j) The Congress further declares that it is the purpose of the Full Employment and Balanced Growth Act of 1978 to rely principally on the private sector for expansion of economic activity and creation of new jobs for a growing labor force. Toward this end, it is the purpose of this Act to encourage the adoption of fiscal policies that would establish the share of the gross national product accounted for by Federal outlays at the lowest level consistent with national needs and priorities.".

Ante, p. 1887.

TITLE II—STRUCTURAL ECONOMIC POLICIES AND PROGRAMS, INCLUDING TREATMENT OF RESOURCE RESTRAINTS

STATEMENT OF PURPOSE

SEC. 201. (b) In any countercyclical efforts undertaken, the President shall consider a triggering mechanism which will implement the program during a period of rising unemployment and phase out the program when unemployment is appropriately reduced, and incorporate effective means to facilitate individuals assisted under programs developed pursuant to this section to return promptly to regular private and public employment as the economy recovers.

COORDINATION WITH STATE AND LOCAL GOVERNMENT AND PRIVATE SECTOR ECONOMIC ACTIVITY

15 USC 3113.

SEC. 203. (a) As an integral part of any countercyclical employment policies undertaken in accord with section 202, the President shall, to the extent the President deems necessary, set forth programs and policies, including recommended legislation where needed, to coordinate economic action among the Federal Government, regions, States and localities, and the private sector to promote achievement of the purposes of this Act and the Employment Act of 1946 and an economic environment in which State and local governments and private sector economic activity and employment will prosper. October 1, 1978, in a public service employment program under any title of this Act in the case of a recipient which the Secretary determines has faced unusually severe hardships in its efforts to transition public service employees into regular public or private employment not supported under this Act because of high unemployment in the area of service.

"(i)(1) Funds under this Act shall not be used to pay wages to any individual employed in a public service job at a rate in excess of $10,000 per year, but such maximum shall be adjusted upward for particular areas served by recipients as determined by the Secretary, on the basis of the wage adjustment index issued in accordance with paragraph (3) of this subsection. In no case shall such maximum be increased by more than 20 percent, except in the case of an area in which the average wage (during the calendar year preceding the beginning of the applicable fiscal year) in employment covered under Federal or State unemployment compensation laws (without regard to any limitation on the amount of such wages subject to contribution under such law) exceeds 150 percent of the national average wage in such employment.

"(2) In order to provide the maximum number of employment and training opportunities under this Act, the Secretary shall issue appropriate standards to be maintained on an area basis with respect to average federally-supported wage rates for public service jobs under this Act. Such standards shall be designed to assure that for particular areas served by recipients, as determined by the Secretary, an annual average federally-supported wage rate per public service jobholder equivalent to $7,200, as adjusted in accordance with the wage adjustment index issued in accordance with paragraph (3) of this subsection, will not be exceeded. Average wage rates established under such standards for public service jobs for each area shall be adjusted annually by the Secretary by a percentage equal to the change in average wages in regular employment not supported under this Act in such area.

Area wage adjustment index.

"(3) The Secretary shall issue and publish annually an area wage adjustment index based upon the ratio which annual average wages in regular public and private employment in various areas served by recipients bear to the average of all such wages nationally, on the basis of the most satisfactory data the Secretary determines to be available.

Post, p. 2012.

"(4)(A) Except as otherwise provided in section 609, no public service employment participant may be provided wages for any public service employment job from sources other than this Act.

"(B) Notwithstanding subparagraph (A), any person in public service employment on September 30, 1978, receiving wages from sources other than this Act may continue to receive such wages.

"(j) Notwithstanding any eligibility limitation on public service employment in this Act, a person who on September 30, 1978, held a public service employment position under this Act may continue in such position subject to subsection (h) of this section.

"(k) All persons employed in public service jobs shall be provided workers' compensation, health insurance, unemployment benefits, and other benefits and working conditions at the same level and to the same extent as other employees working a similar length of time, doing the same type of work and similarly classified. Any such classification must be reasonable and must include nonfederally financed employees, but within any single classification a distinction may be made between public service employees and other employees for purposes of determining eligibility for participation in retirement systems or plans

which provide benefits based on age or service or both. Nothing in this subsection or in section 121(j) shall be deemed to require a contribution to a retirement system or plan for the purpose of providing retirement benefits based on age or service, or both, to a public service employee unless funds under this Act are available, pursuant to section 121(j) to make such contribution.

"(l) The Secretary, through State employment security agencies, shall inform unemployment compensation recipients and other applicants for assistance from the employment security agency of any available public service jobs for which they may be eligible.

"(m) To the extent feasible, public service jobs shall be provided in occupational fields which are most likely to expand within the public and private sectors, and to the extent compatible with such objectives, shall meet community needs including but not limited to community betterment activities (including rehabilitation of public properties, assistance in the weatherization of dwellings occupied by low income families, demonstration of energy conserving measures including solar energy techniques, removal of architectural barriers to access by handicapped persons to public facilities, and neighborhood revitalization), education, health care, transportation services, crime prevention and control, and environmental quality control.

"(n) No individual shall be eligible to be employed in a public service employment position, if such individual has, within 6 months prior to the determination, voluntarily terminated, without good cause, his or her last previous full-time employment at a wage rate not less than the Federal minimum wage as prescribed under section 6(a)(1) of the Fair Labor Standards Act of 1938. 29 USC 206.

95th Congress

An Act

To consent to certain amendments to the New Hampshire-Vermont Interstate School Compact, approved by Public Law 91-21.

Oct. 27, 1978
[S. 2403]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the consent of Congress is given to the amendments to the New Hampshire-Vermont Interstate School Compact which have been agreed to by such States and are substantially as follows:

New Hampshire-Vermont Interstate School Compact, amendment. Consent of Congress. Financial assistance, construction.

(1) amend article VII-G to read as follows:

"(G) STATE AID PROGRAMS.—As used in this paragraph the term 'initial aid' shall include New Hampshire and Vermont financial assistance with respect to a capital project, or the means of financing a capital project, which is available in connection with construction costs of a capital project or which is available at the time indebtedness is incurred to finance the project. Without limiting the generality of the foregoing definition, initial aid shall specifically include a New Hampshire state guarantee under RSA 195-B with respect to bonds or notes and Vermont construction aid under chapter 123 of 16 V.S.A. As used in this paragraph the term 'long-term aid' shall include New Hampshire and Vermont financial assistance which is payable periodically in relation to capital costs incurred by an interstate district. Without limiting the generality of the foregoing definition, long-term aid shall specifically include New Hampshire school building aid under RSA 198 and Vermont school building aid under chapter 123 of Title 16 V.S.A. For the purpose of applying for, receiving and expending initial aid and long-term aid an interstate district shall be deemed a native school district by each State, subject to the following provisions. When an interstate district has appropriated money for a capital project, the amount appropriated shall be divided into a New Hampshire share and a Vermont share in accordance with the capital expense apportionment formula in the articles of agreement as though the total amount appropriated for the project was a capital expense requiring apportionment in the year the appropriation is made. New Hampshire initial aid shall be available with respect to the amount of the New Hampshire share as though it were authorized indebtedness of a New Hampshire cooperative school district. In the case of a State guarantee of interstate district bonds or notes under RSA 195-B, the interstate district shall be eligible to apply for and receive an unconditional State guarantee with respect to an amount of its bonds or notes which does not exceed fifty percent of the amount of the New Hampshire share as determined above. Vermont initial aid shall be available with respect to the amount of the Vermont share as though it were funds voted by a Vermont school district. Payments of Vermont initial aid shall be made to the interstate district, and the amount of any borrowing authorized to meet the appropriation for the capital project shall be reduced accordingly. New Hampshire and Vermont long-term aid shall be payable to the interstate district. The amounts of long-term aid in each year shall be based on the New Hampshire and Vermont shares of the amount of indebtedness of the interstate district which is payable in that year and which has been

apportioned in accordance with the capital expense apportionment formula in the articles of agreement. The New Hampshire aid shall be payable at the rate of forty-five percent, if there are three or less New Hampshire members in the interstate district, and otherwise it shall be payable as though the New Hampshire members were a New Hampshire cooperative school district. New Hampshire and Vermont long-term aid shall be deducted from the total capital expenses for the fiscal year in which the long-term aid is payable, and the balance of such expenses shall be apportioned among the member districts. Notwithstanding the foregoing provisions, New Hampshire and Vermont may at any time change their State school aid programs that are in existence when this compact takes effect and may establish new programs, and any legislation for these purposes may specify how such programs shall be applied with respect to interstate districts. Notwithstanding the foregoing, the respective amounts of New Hampshire and Vermont initial and long-term aid, with respect to a capital project of the Dresden School District for which indebtedness is authorized by a vote of the District after July 1, 1977, shall be initially determined for each year for each member district by the manner provided in this paragraph and the aid shall be paid to the Dresden School District, however, the amount of aid for those capital projects received by the Dresden School District on account of each member district shall be used by the District to reduce the sums which would otherwise be required to be raised by taxation within that member district.";

(2) insert the following at the end of article VII:

"(I) Notwithstanding paragraph (G) of this Article, initial and long-term aid may be allocated among the members of an interstate district other than the Dresden School District in the manner which is provided in the articles of agreement of that district, or if not therein provided, in the manner specified in paragraph (G) for all interstate districts other than the Dresden School District."; and

(3) amend Article IX to read as follows:

"ARTICLE IX

"AMENDMENTS TO ARTICLES OF AGREEMENT

"A. Amendments to the articles of agreement shall be adopted in the manner provided in the articles of agreement, and if no such provision is made in the articles of agreement then amendments shall be adopted by the affirmative vote of two-thirds of those present and voting at an interstate district meeting, except that:

"a. If the amendment proposes the addition of a new member district, the amendment shall be adopted in the same manner provided for the adoption of the original articles of agreement, provided that the planning committee shall consist of all of the members of the interstate district board of directors and all of the members of the school board of the proposed new member district or districts, and provided that the amendment shall be submitted to the voters of the interstate district, the affirmative vote of two-thirds of those present and voting at an interstate district meeting being required for approval of the amendment. The articles of agreement together with the proposed amendment shall then be submitted to the voters of the proposed new member district or districts, and an affirmative vote of a simple majority of those present and voting at each district meeting shall be required for approval of the amendment.

"b. No amendment to the articles of agreement may impair the rights of bond or note holders or the power of the interstate district to procure the means for their payment.

"c. Amendments to the articles of agreement of the Dresden School District shall be adopted in the following manner: (1) an amendment shall be initially approved upon the affirmative vote of a simple majority of those voters of the Dresden School District who are present and voting at a meeting called for such purpose, (2) the amendment initially approved by the voters of the Dresden School District shall become final and effective upon the expiration of thirty days after the date of that vote, unless a petition is duly filed within that thirty-day period and the amendment is subsequently not approved by the voters of a member district in accordance with the procedure specified in clause (3), (3) if a petition, valid under applicable State law, is filed before the expiration of that thirty-day period with the clerk of any school district which is a member of the Dresden School District, which petition requires the calling of a special meeting of that member district for the purpose of considering the approval of the amendment initially adopted by the voters of the Dresden School District, then the board of school directors of that member district shall thereupon call a special meeting of that district for that purpose, (4) if the amendment as initially approved by the voters of the Dresden School District is approved by more than forty percent of the voters present and voting at the meeting of each member district in which a petition was filed under this section, then the amendment as initially adopted shall become final and effective upon the vote of that member district last to vote. If the amendment as initially approved by the voters of the Dresden School District is not so approved by more than forty percent of the voters present and voting at the meeting of any one member district, then the amendment shall be null and void and of no effect.".

SEC. 2. (a) Article IV of the Federal Rules of Evidence is amended by adding at the end thereof the following new rule:

28 USC app.

"RULE 412. RAPE CASES; RELEVANCE OF VICTIM'S PAST BEHAVIOR

"(a) Notwithstanding any other provision of law, in a criminal case in which a person is accused of rape or of assault with intent to commit rape, reputation or opinion evidence of the past sexual behavior of an alleged victim of such rape or assault is not admissible.

"(b) Notwithstanding any other provision of law, in a criminal case in which a person is accused of rape or of assault with intent to commit rape, evidence of a victim's past sexual behavior other than reputation or opinion evidence is also not admissible, unless such evidence other than reputation or opinion evidence is—

"(1) admitted in accordance with subdivisions (c)(1) and (c)(2) and is constitutionally required to be admitted; or

"(2) admitted in accordance with subdivision (c) and is evidence of—

"(A) past sexual behavior with persons other than the accused, offered by the accused upon the issue of whether the accused was or was not, with respect to the alleged victim, the source of semen or injury; or

"(B) past sexual behavior with the accused and is offered by the accused upon the issue of whether the alleged victim consented to the sexual behavior with respect to which rape or assault is alleged.

"(c)(1) If the person accused of committing rape or assault with intent to commit rape intends to offer under subdivision (b) evidence of specific instances of the alleged victim's past sexual behavior, the accused shall make a written motion to offer such evidence not later than fifteen days before the date on which the trial in which such evidence is to be offered is scheduled to begin, except that the court may allow the motion to be made at a later date, including during trial, if the court determines either that the evidence is newly discovered and could not have been obtained earlier through the exercise of due diligence or that the issue to which such evidence relates has newly arisen in the case. Any motion made under this paragraph shall be served on all other parties and on the alleged victim.

Hearing.

"(2) The motion described in paragraph (1) shall be accompanied by a written offer of proof. If the court determines that the offer of proof contains evidence described in subdivision (b), the court shall order a hearing in chambers to determine if such evidence is admissible.

At such hearing the parties may call witnesses, including the alleged victim, and offer relevant evidence. Notwithstanding subdivision (b) of rule 104, if the relevancy of the evidence which the accused seeks to offer in the trial depends upon the fulfillment of a condition of fact, the court, at the hearing in chambers or at a subsequent hearing in chambers scheduled for such purpose, shall accept evidence on the issue of whether such condition of fact is fulfilled and shall determine such issue. 28 USC app.

"(3) If the court determines on the basis of the hearing described in paragraph (2) that the evidence which the accused seeks to offer is relevant and that the probative value of such evidence outweighs the danger of unfair prejudice, such evidence shall be admissible in the trial to the extent an order made by the court specifies evidence which may be offered and areas with respect to which the alleged victim may be examined or cross-examined.

"(d) For purposes of this rule, the term 'past sexual behavior' means sexual behavior other than the sexual behavior with respect to which rape or assault with intent to commit rape is alleged.". "Past sexual behavior."
